

UAC Guide

2023–24

UAC

Important information 2023-24

Dates relate to UAC applications only. Times indicated in this Guide are based on Sydney time.

Application dates

Wednesday 5 April 2023	Undergraduate applications open
Wednesday 19 April 2023	International undergraduate applications open
Monday 18 September 2023	Schools Recommendation Scheme applications close
Friday 29 September 2023	Early bird processing charge deadline
Friday 2 February 2024	Applications close for semester 1, 2024

Some courses have early closing dates set by the institutions.
Check the course descriptions on UAC's website at uac.edu.au/search.

Processing charges

Early bird: Approx. \$80
(until 11.59pm 29 September 2023)
Standard: Approx. \$200

To avoid a higher processing charge, applications must be **completed, paid for and submitted by 11.59pm** on Friday 29 September 2023

The processing charge is not refundable under any circumstances (except as required by law).
For a complete list of UAC fees and charges, go to uac.edu.au

Year 12 results and ATAR dates

All dates determined by external organisations are subject to change.

2023 NSW HSC students

Thursday 14 December 2023
NSW HSC results released by NESA from 6am
ATARs released by UAC on UAC's website from 9am

International Baccalaureate (IB) students

To be confirmed
Results released by IB Cardiff, UK

2023 ACT Year 12 students

Thursday 14 December 2023
Statement (including ATAR) issued by ACT Board of Senior Secondary Studies. Students should collect their certificates from their college on or after this date
ATARs released by UAC on UAC's website from 9am

Key offer dates

All dates are subject to change.

Scan to view a full list of UAC dates and check for changes, or go to uac.edu.au/key-dates.

Undergraduate

To ensure your application is assessed in time for a particular offer round, apply and provide your additional documentation as early as possible.
The main offer rounds for Year 12 students are December Round 2 and January Round 1, after ATARs are released.

Offer round	Apply and pay by 11.59pm on	Upload PDF documents by 11.59pm on	Change preferences by 11.59pm on [^]	Offers released at 7.30am on
November Round 1	Thu 12 Oct 2023	Thu 26 Oct 2023	Fri 3 Nov 2023	Fri 10 Nov 2023
November Round 2	Thu 26 Oct 2023	Thu 2 Nov 2023	Thu 16 Nov 2023	Thu 23 Nov 2023
December Round 1	Thu 2 Nov 2023	Thu 9 Nov 2023	Thu 30 Nov 2023	Thu 7 Dec 2023
December Round 2	Thu 9 Nov 2023	Thu 16 Nov 2023	Fri 15 Dec 2023	Thu 21 Dec 2023
January Round 1	Thu 23 Nov 2023	Thu 28 Dec 2023	Thu 4 Jan 2024	Thu 11 Jan 2024
January Round 2	Thu 4 Jan 2024	Thu 11 Jan 2024	Wed 17 Jan 2024	Wed 24 Jan 2024
February Round 1	Thu 25 Jan 2024	Thu 1 Feb 2024	Thu 1 Feb 2024	Thu 8 Feb 2024
February Round 2	Fri 2 Feb 2024*	Thu 8 Feb 2024	Fri 9 Feb 2024	Thu 15 Feb 2024
March Round 1	Fri 2 Feb 2024*	Thu 29 Feb 2024	Thu 29 Feb 2024	Thu 7 Mar 2024

* This is the final closing date to apply for courses starting semester 1, 2024.
[^] There are short periods before each offer round when you are unable to change your preferences in your application.

International

Conditional offers: You will receive a conditional offer approximately 48 hours after you have successfully submitted your application. You can use this as part of your pre-visa assessment if required. It does not make you eligible to enrol in a course of study. To enrol, you need an unconditional offer.

Unconditional offers: This table shows the UAC dates by which you need to apply and pay, and change your course preferences, to be considered for an unconditional offer in each offer round.

Apply and pay by 11.59pm on	Change courses by 11.59pm on [^]	Unconditional offers released at 7.30am on
Wed 13 Dec 2023	Fri 15 Dec 2023	Thu 21 Dec 2023
Sat 30 Dec 2023	Sun 31 Dec 2023	Fri 5 Jan 2024
Fri 5 Jan 2024	Sun 7 Jan 2024	Fri 12 Jan 2024
Sat 20 Jan 2024	Sun 21 Jan 2024	Fri 26 Jan 2024
Fri 2 Feb 2024*	Sun 4 Feb 2024	Fri 9 Feb 2024
Fri 2 Feb 2024*	Sun 18 Feb 2024	Fri 23 Feb 2024
Fri 2 Feb 2024*	Sun 25 Feb 2024	Fri 1 Mar 2024

* This is the final closing date to apply for courses starting semester 1, 2024.
[^] Do not change your courses between this date and the date offers are released; if you do, you may miss out on an offer to your preferred course.

Welcome to UAC

Congratulations on reaching the home stretch of your secondary schooling! While you're no doubt feeling challenged right now, there are exciting rewards and opportunities ahead. Whether you're preparing for a gap year, the workforce or further study, make the most of the resources and support networks available to you and don't hesitate to ask for help if you need it.

If your plans include going on to complete a degree or diploma, then UAC – and this book – are going to be really helpful for you.

When you apply for university through UAC, you can apply for multiple courses at multiple institutions, all in one place.

This UAC Guide leads you through the UAC application process, from choosing your courses and submitting your application through to getting your offer and enrolling. We provide impartial advice about all the options available to you and describe what will happen (and when) throughout the year.

First steps

To get you started, we've put together a high-level timeline that gives you an idea of when you need to be thinking about your UAC application over the coming months (and when you don't). Take a look overleaf and maybe add some reminders to your calendar.

We've also broken down the application process into eight main steps, from researching courses to enrolling. Just follow these steps and you'll stay on track.

Getting help

If you have questions about the content or structure of a course, your best bet is to talk directly to staff at the university. Open days are a great opportunity to do this. I can't recommend them highly enough. While you're there, you'll also be able to talk to current students about their experiences and take a tour of the campus. Take a look at our website for a list of this year's open days.

Here at UAC, we hold regular application Q&A sessions on our Facebook and Instagram channels. Our Community Engagement team gets out and about to schools and expos, and runs a series of webinars on a wide variety of topics relevant to you as you progress through Year 12. Follow us on Facebook and Instagram for event notifications or keep an eye on the key dates on our website.

Our Customer Service team is always ready to take your calls and answer your online enquiries. Please get in touch with us if you ever need advice or reassurance.

In the meantime, good luck with your studies.

All the best,

A handwritten signature in blue ink that reads "Kim Paino".

Kim Paino

Steps to study through UAC

Step 1

Research

Search for courses in this Guide and on UAC's website.

Check selection rank information, admission criteria and pathway options for courses you're interested in.

Step 2

Apply for university

Apply and pay before 29 September.

Not sure what course to choose?
It's OK: you can change your course preferences later.

Step 3

Apply for entry schemes and Equity Scholarships

Schools Recommendation Scheme (SRS):

Get assessed on a range of criteria other than, or in addition to, your ATAR. Applications close at 11.59pm 18 September.

Educational Access Scheme (EAS):

Apply to have any educational disadvantages considered as part of the selection process.

Equity Scholarships:

Apply for financial support provided to disadvantaged students.

Step 4

Order preferences for early offers

The Schools Recommendation Scheme makes early offers in November. Make sure you have the course you most want to do as your first preference.

Step 5

Get your ATAR

You will receive your ATAR in December. The ATAR helps universities rank applicants for selection into their courses.

Step 6

Review your preferences

After you receive your ATAR, you will have a couple of days to update your preference list. Log in to your application on the UAC website to change, remove or add preferences.

Step 7

Get your offer

Most institutions make offers to Year 12 students in December and January.

Step 8

Accept and enrol

Accept your offer and follow the institution's instructions to start the enrolment process. Don't worry, you can still receive offers in later offer rounds, even if you've already accepted a previous offer.

<u>Glossary</u>	<u>49</u>

Choosing your courses

The essential questions

What can I apply for through UAC?

Domestic undergraduate students can choose from more than 2,000 courses at 30 institutions.

International undergraduate students can choose from more than 1,500 courses.

Search for courses using Course Finder.

For a list of courses offered at each institution, go to Part 2 starting on [page 55](#).

For courses listed by fields of study, follow these steps:

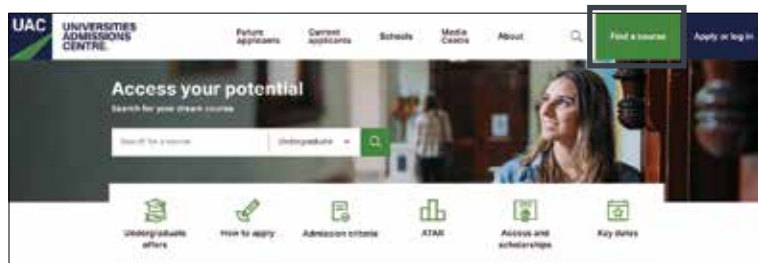

- 1 Go to the topic of interest index on [page 204](#).
- 2 Look up a topic that interests you (eg Aboriginal Studies) and you'll see the field of study it belongs to (eg Society and Culture).
- 3 Turn to 'Find your course' on [page 203](#).
- 4 Look up the field of study you found in step 2 and you'll find related courses listed by institution.

Search for courses on the UAC website: For the latest course information throughout the year, go to uac.edu.au/search.

How do I choose the right course for me?

- ✓ THINK about what you're interested in and what school subjects you enjoy most and do well in.
- ✓ INVESTIGATE careers that relate to the subjects you're studying at school.
- ✓ VOLUNTEER at a workplace to see if you enjoy it.
- ✓ VISIT careers expos and open days.
- ✓ RESEARCH areas of job growth and skills shortages.
- ✓ BEWARE of:
 - peer pressure (don't pick a course just because your friends choose it)
 - family expectations (choose a course that's right for you, not one you think your parents want you to do)
 - lack of direction (resist selecting a course because it looks easy or is close to home)
 - misguided perceptions (eg not wanting to 'waste' a high ATAR).

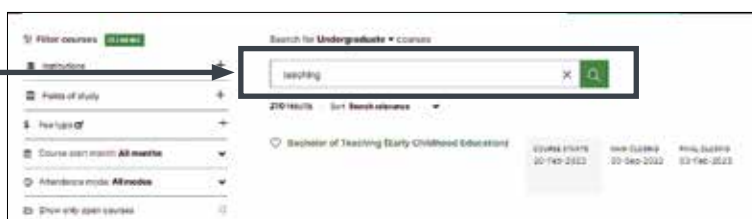

Find a course on the UAC website

Find a course >
Undergraduate
(or International)

Course search

Browse all
courses or use
the filter options

- ✓ FIND study paths taken by people with an academic background similar to yours – visit Course Compass at uac.edu.au/coursecompass.

What jobs could I get with this degree?

- ✓ Search for courses at uac.edu.au/search and read 'Career opportunities' in the course descriptions.
- ✓ Check 'Where to go for more information' at the end of this section for suggestions of other places to find career information and advice.
- ✓ Be inspired by our student stories on this page and in the Course Finder (from [page 203](#)).

How will the uni select students for this course?

Universities will:

- USUALLY select students based on their selection rank (ATAR + adjustment factors)
- SOMETIMES select students using additional criteria, such as HSC subject prerequisites, personal statements, interviews, tests or portfolios.

Check the course description for details of additional selection criteria – go to uac.edu.au/search.

If you're considering courses to do with health, welfare or teaching, read 'Special requirements and policies' on [page 07](#).

What are my chances of getting in?

Selection is a competitive process and your chances of being offered a place in your chosen course depend on how well you meet its selection criteria.

Student story

Neola Funes

Bachelor of Psychology (Honours)

Studying Psychology is something I've been interested in ever since I was young. I've always enjoyed listening to people and helping them with any problems or troubles they may be experiencing.

I am in my third year of study and so far I have experienced some ups and downs. Like any course, it can be really challenging. Some units are more difficult than others, which can make it stressful and hard to achieve the required distinctions and high distinctions to progress through to the honours year. However, it is really interesting to learn about why we do the things we do from early childhood to old age, and the multifaceted aspects of our mind and behaviour.

You can use the course's 2023 ATAR profile as a guide to the selection rank you'll need to be selected for semester 1, 2024.

- ✓ Search for your chosen course at uac.edu.au/search.
- ✓ Check the ATAR profile at the bottom of the course description. It shows previous students' ATARs and selection ranks. The lowest selection rank is the most important number. See the ATAR profile example below.

ATAR profile

ATAR PROFILE TABLE

ATAR-based offers only (semester 1, 2023)

Course code	Lowest ATAR (LA)	Median ATAR (MA)	Highest ATAR (HA)	Lowest selection rank (LSR)	Median selection rank (MSR)	Highest selection rank (HSR)
123456	73.30	78.95	83.95	77.30	79.60	83.95

Lowest selection rank includes the applicant's ATAR plus any applicable adjustments; if the applicant hadn't been eligible for the adjustments they may not have received an offer.

Teaching opens doors

Become a teacher in a NSW public school and find out how a career in teaching can open doors for you.

Teaching is no ordinary job. It's a flexible career that can take you places, and gives you numerous choices. It can take you from the classroom to leadership and rewarding community roles.

Teaching supports you as you learn in and out of the classroom, and is a profession that offers wellbeing support and mentoring.

Be financially supported while you train to become a teacher and unlock a world of opportunities.

Scan the QR code above to find out how you can become a teacher with the NSW Department of Education.

To find out more about scholarship programs, visit: tinyurl.com/teachscholarships

NSW Department of Education

In the course descriptions, some institutions will specify:

- a minimum ATAR or selection rank you'll have to achieve to be considered for a place
- an estimated selection rank you'll need to be offered a place
- a guaranteed ATAR or selection rank. If you achieve this ATAR or selection rank you are guaranteed to receive an offer to the course.

What if I don't think I'll get selected?

Don't think you'll meet the entry requirements for your chosen courses? Include pathway courses in your list of preferences in your application. Read 'Pathway options' on [page 27](#) or visit uac.edu.au/pathways.

Special requirements and policies

Special requirements and policies apply to students in health- and welfare-related courses and teacher education courses.

These requirements relate to:

- clinical/internship placements undertaken as part of your course
- proof of English language proficiency
- accreditation and procedures for employment after you have completed the course.

Note that requirements and policies in these areas are subject to regular review.

Teacher education courses

Academic standards

For accreditation as a teacher in NSW, you will need to meet the following requirements set by the NSW Education Standards Authority (NESA):

- If you're entering an accredited undergraduate teaching program, you must have either achieved a minimum of three Band 5s, one of which must be in English, in the HSC or meet a comparable academic standard early in the program.
- If you're entering a primary teaching program, you must have either achieved at least an HSC Band 4 in mathematics (any course) or demonstrate a comparable academic standard.

Ask institutions about their approved pathways into teaching and any specific academic and non-academic entry requirements for particular teaching programs.

Student story

Jaden Legaspi

**Bachelor of Commerce/
Bachelor of Advanced Studies**

I was always intrigued by how businesses function and utilise resources to maximise outputs. Commerce was the natural choice for me, and my majors of economics and business information systems are definitely meeting my interests.

My time in this course has been an expansive and diverse experience. The breadth of knowledge I am gaining in my majors, from resource allocation to IT-based management systems, is reflective of the flexible nature of Commerce. I particularly enjoy the security of developing transferable skills as the balance of written report, oral presentation, group task and calculation-based examinations have broadened my capabilities to advance my career.

Before graduation, you will also be expected to sit and meet the required standard of the national Literacy and Numeracy Test for Initial Teacher Education Students: teachertest.acer.edu.au/.

Working with Children Checks

To engage in child-related work in NSW, you must hold a valid Working with Children Check (WWCC) clearance provided by the Office of the Children's Guardian: ocg.nsw.gov.au. You will need your WWCC to undertake any school-based internships or placements. Visit teach.nsw.edu.au for more details or phone 1300 300 498.

Health- and welfare-related courses

National Police Checks

To complete clinical placements in the NSW public health system, you will be required to:

- obtain a National Police Check
- sign a Code of Conduct Agreement stating that you will abide by the NSW Health Code of Conduct.

For details, search for 'clinical placements' at heti.nsw.gov.au or health.nsw.gov.au.

Infectious diseases

To complete clinical training in NSW public health facilities, you must demonstrate your protection against specified infectious diseases in the first year of your course. For details, search for 'clinical placements' at health.nsw.gov.au.

Nursing and midwifery courses: English language proficiency

To become a nurse or midwife in Australia you are required to provide proof of proficiency in English. When you apply through UAC, you must provide either a written declaration that English is your primary language or evidence that you have achieved the institution's minimum English language test results. You can find information on which tests and qualifications are acceptable on UAC's website at uac.edu.au/elp.

Scan for detailed information about requirements for health, welfare and teaching courses or go to uac.edu.au/special-requirements.

Where to go for more information

There are many places you can go to research career information and seek advice.

UAC's participating institutions

- ✓ Read the course descriptions on the UAC website via uac.edu.au/search for a list of possible career opportunities for your chosen courses.
- ✓ Contact the careers service at individual institutions – visit uac.edu.au/institutions.

School careers advisers

- ✓ Talk to your school careers adviser – they can give you valuable careers advice and information.

Professional organisations

- ✓ Search online for careers information from societies, institutes or other industry organisations.
- ✓ Visit tertiary institutions' websites – they sometimes list professional organisations.

Online

Check out the following useful resources:

- ✓ compared.edu.au: CompareED helps you compare official study experience and employment outcomes. The data is from Quality Indicators for Learning and Teaching (QILT) surveys completed by students, graduates and employers.
- ✓ myfuture.edu.au: My Future is a government career information and exploration service that can help you manage your career with information on particular jobs, general career areas and courses.
- ✓ courseseecker.edu.au: Course Seeker provides easy access to details of all undergraduate courses offered by Australian higher education providers.
- ✓ yourcareer.gov.au: Your career offers tailored support to school leavers transitioning to work, training or further education. Search for the 'School Leavers Information Kit'.

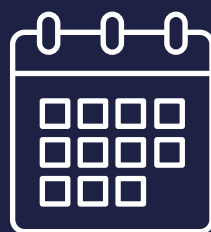

Where might your course take you?

We can help you explore your options.

Start your journey by visiting yourcareer.gov.au

2023 Open days

Get a taste of life on campus
and talk to faculty staff.

For dates and
locations, go to
uac.edu.au/open-days.

Have you experienced educational disadvantage due to circumstances beyond your control or choosing?

UAC

The Educational Access Scheme (EAS)

may help you gain admission to university.

Go to **uac.edu.au/eas** for more information.

Your application

Why apply through UAC?

Around 50,000 Year 12 students apply for uni through UAC each year.

Applying through UAC means you don't need to apply separately to each institution. And, if you're a domestic applicant, you can apply for the:

- Schools Recommendation Scheme
- Educational Access Scheme.

Through these schemes, institutions can consider factors in addition to your ATAR, such as your Year 11 results and any educational disadvantages you've experienced: read 'Applying for access schemes' on [page 20](#).

If you're in need of financial help, you can also apply for an Equity Scholarship.

Remember, UAC processes the applications but the institutions decide who receives an offer of a place.

Apply before 29 September 2023.

The application fee will increase after this date.

Action!

You can change your course preferences as many times as you like after you have applied.

Apply before 18 September 2023 if you also want to apply for the Schools Recommendation Scheme. It closes on this date.

Keep an eye out for **early course closing dates**. You can't select a course after it has closed.

Tip!

Early closing dates are indicated in the course search on the [UAC website](#).

- ✓ Change your UAC PIN once you've submitted your application and keep your UAC PIN in a safe place.

Tip!

- ✗ Don't give your UAC PIN to anyone else.

Application processing charges

The following charges are estimates for the 2023–24 admissions period and are subject to change after 30 June 2023.

UAC reserves the right to change its fees and charges during the admissions period. For a full list of the latest UAC fees and charges, go to uac.edu.au/fees.

Early bird applications

5 April 2023 to
11.59pm 29 September 2023
Approx. \$80

Standard applications

30 September 2023 to
11.59pm 2 February 2024
Approx. \$200

Payment methods

You can pay by debit card or credit card (Mastercard or Visa cards that have been enabled for online payment) or PayPal.

Domestic 2023 Year 12 students can also use BPAY.

All UAC fees and charges are in Australian dollars and include 10 per cent GST. They are not refundable under any circumstances, except as required by law.

What you need when you apply

- ✓ A current personal email address, not your school email address. Add the domain uac.edu.au to your list of safe email contacts so UAC emails don't end up in your junk folder.
- ✓ Your Year 12 student number and UAC PIN (emailed to NSW and ACT students on 5 April).

If you're an International Baccalaureate student or you're applying from other states, your UAC PIN is the first four digits of your date of birth (eg if your birthday is 3 October, your UAC PIN is 0310; if your birthday is 17 May, your UAC PIN is 1705.)
- ✓ Your Unique Student Identifier (USI) (if you don't already have one, get it now at usi.gov.au).

- ✓ A list of your chosen courses and their course codes.

- ✓ A credit card (Mastercard or Visa) or PayPal account to pay the processing fee. Domestic Year 12 students can also pay later using BPAY.

Applicants for medical degrees: You'll need to enter your UCAT (University Clinical Aptitude Test) or International Student Admission Test (ISAT) candidate number.

Applying for Medicine? Scan for application info for Medicine, Dentistry and Veterinary courses or go to uac.edu.au/medicine.

International students applying through an agent: You'll need to enter your UACID (UAC Identification Code). Your agent will have this.

Australian Government requirements for international students

There are several requirements international students must meet to study in Australia.

Student visa requirements

To study in Australia you need to apply for a student visa. A student visa allows you to come to Australia for a specified period to study at an educational institution. To be eligible for a student visa, you need to meet the conditions set by the Australian Government's Department of Home Affairs – search for 'visas' at immi.homeaffairs.gov.au.

After you accept your offer and pay your fees, you will receive a Confirmation of Enrolment from the institution. You must have a Confirmation of Enrolment at the time of making your student visa application.

Students under 18 years of age

If you will be under 18 years of age when you arrive in Australia to study, special requirements are in place. Before you are granted a student visa, the Australian Government must be satisfied that you have appropriate accommodation, support and general welfare arrangements in

place for the period that you will be under 18 years of age while in Australia.

Each institution decides whether they will accept responsibility for welfare arrangements for international students who are under 18 years of age.

Overseas Student Health Cover

Overseas Student Health Cover (OSHC) is insurance to help with medical and hospital care costs (not dental treatment) while you are in Australia. You are required to have it for the duration of your visa.

Once you receive an unconditional offer to study at an Australian educational institution, you will be asked to pay your OSHC charge at the same time that you pay your tuition fee deposit.

For further details about visa requirements, go to uac.edu.au/international-student-offers.

International students

You are an international student if **you're not**:

- an Australian or New Zealand citizen or
- a permanent resident of Australia or
- the holder of an Australian permanent resident humanitarian visa.

As an international student, you can apply through UAC if you're undertaking one of the following qualifications in 2023:

- an Australian Year 12 in Australia
- an Australian Year 12 outside Australia
- an International Baccalaureate (IB) Diploma
- a New Zealand National Certificate of Educational Achievement (NCEA) Level 3.

If you're not undertaking one of the above qualifications, apply directly to the institution.

Prospective permanent residents

If you are granted permanent resident status after you have applied to UAC as an international applicant, you need to apply again through UAC as a domestic undergraduate applicant. Contact UAC for instructions on how to do this.

If your status changes after you receive an unconditional offer, contact the institution.

MACQUARIE University
SYDNEY • AUSTRALIA

How to apply

Scan to start an undergraduate application, or follow the instructions in step 1.

- 1 Go to uac.edu.au.

The screenshot shows the UAC (Universities Admissions Centre) homepage. The header includes the UAC logo, navigation links (Future applicants, Current applicants, Schools, Media Centre, About), and buttons for 'Find a course' and 'Apply or log in'. The main banner area has a search bar and a dropdown menu set to 'Undergraduate'. Below this are icons for 'Undergraduate offers', 'How to apply', 'Admission criteria', 'ATAR', and 'Access and scholarships'. A 'Key dates' section shows 'Applications open for 2023 to 2024 domestic undergraduate admissions' starting 05 JUL 2023. A 'Featured news' section lists 'Top tips for starting university' (19 FEB 2023) and 'Year 12 offers are out: what to do next' (12 JAN 2023). A callout box on the right, titled 'Hover over 'Apply or log in' and select:', points to the 'Apply or log in' button and lists two options: 'Undergraduate application' (for domestic students) and 'International application' (for international students).

- 2 Select 'Start your application'.

- 3 Follow the prompts to get to the personal details page. This includes entering your Year 12 student number and UAC PIN.

The screenshot shows the 'Did you complete or are you completing one of the following:' section. The first option is 'a NSW or ACT Australian Year 12 qualification in 2023'. Below this is the prompt 'Enter your student number and UAC PIN:'. There are two input fields: 'Student number' and 'UAC PIN'. Both fields have a 'Required' label. Below the 'Student number' field is a callout box that says 'Enter your Year 12 student number (eg NESA number)'. Below the 'UAC PIN' field is a callout box that says 'Enter the UAC PIN emailed to you in April'.

- 4 Review/enter your personal details. Make sure:
 - your full name is as it appears on your official ID (ie birth certificate, passport or citizenship documents)
 - you provide a personal email address (not a school email address as it will expire). All official communication from UAC will be via email.
- 5 Enter your USI (Unique Student Identifier). If you don't have one, go to usi.gov.au.
- 6 Click 'Next'. At this point, you'll be given a nine-digit UAC application number. If you log out now, you can log back in at any time using your UAC application number and UAC PIN.
- 7 Review you school/qualification details.

- 8 Select your course preferences. You can change these later.
- 9 Read and accept the applicant declaration and pay the processing fee. **The fee is not refundable**, except as required by law.
- 10 Your application is now complete and you can apply for the Schools Recommendation Scheme and Educational Access Scheme. These applications are free.

The screenshot shows a 'Thank you' message at the top: 'Thank you. Your application has been submitted successfully.' Below this are two main sections: 'Manage your application' and 'Things to do'.

Manage your application includes links for 'Forgot something in your application or need to upload documents?' and 'Use your undergraduate application number and PIN to log back in to your application at any time.' There is a 'Log back in' button.

Things to do includes the text 'Your confirmation of application is a full record of your application.' and a 'Download confirmation of application' button.

Below these are two sections: 'Educational Access Scheme' and 'Other applications'.

Educational Access Scheme has the text 'Apply for EAS if you have experienced long-term educational disadvantage.' and a button labeled 'Apply for EAS'. A black box highlights this button, and an arrow points from a text box to it.

Other applications includes two bullet points:

- If you need financial support to go to uni, apply for an [Equity Scholarship](#).
- If you're a [2023 HSC applicant](#), you can apply for an early offer through the [Schools Recommendation Scheme](#).

 A black box highlights the 'Schools Recommendation Scheme' link, and an arrow points from the same text box to it.

Annotations: A dark grey text box on the right contains the text: 'From the final screen of your application, you can follow the links to apply for EAS or SRS.' Two arrows originate from this box: one points to the 'Apply for EAS' button, and the other points to the 'Schools Recommendation Scheme' link.

Can't find your UAC PIN?

2023 NSW HSC applicants and ACT Year 12 applicants: Check the inbox of the email address you have registered with NESA or ACT BSSS: UAC emailed your UAC PIN to this address in April. Your UAC PIN is different to your NESA PIN.

All other applicants: Your UAC PIN is the first four digits of your date of birth (eg if your birthday is 3 October, your UAC PIN is 0310; if your birthday is 17 May, your UAC PIN is 1705).

Tip!

International students

The person you authorise to act on your behalf can be a different person or the same person as the agent/representative who may be helping you with your application and visa.

Applying through an agent? You can add, change or delete your agent's UAC Identification Code (UACID) after you've submitted your international application.

Your agent will be able to access information about your application through [UAC's website](#).

Authorising someone to act on your behalf

Your application, and all the information within it, is confidential. For privacy reasons, we cannot discuss information relating to your application with anyone but you.

You can authorise another person to act on your behalf and speak to UAC about your application by:

- selecting this option **when you first apply** or
- emailing UAC and including the details of the person you are authorising **after you apply**.

Your UAC application is not complete until you've paid the processing charge. Your payment receipt and confirmation of application are your proof of payment – keep them safe!

Tip!

Applying directly to a uni for an early offer

Some of our participating institutions also take direct applications for early offers to their undergraduate courses. This means you can submit a UAC application and a direct application to the institution.

However, if you do complete both a UAC application and a direct application, we highly recommend that you don't duplicate your course preferences. Make the most of both applications and choose different preferences in each. That way, you can potentially receive offers to different courses.

Check with the uni as to how and when it will make direct offers.

Scan for details of early offer schemes or go to uac.edu.au/early-offers.

Applying interstate

Applications for most undergraduate courses in states other than NSW and the ACT are processed through each state's tertiary admissions centre. Like UAC, most tertiary admissions centres increase their processing charges at the end of September, so apply early to avoid higher charges and ensure you can apply for your chosen course.

Application processes and fees vary: visit the relevant tertiary admissions centre or institution website for further information.

State	Tertiary admissions centre	Website
Northern Territory and South Australia	South Australian Tertiary Admissions Centre (SATAC)	satac.edu.au
Queensland	Queensland Tertiary Admissions Centre (QTAC)	qtac.edu.au
Tasmania	There is no centralised admissions centre in Tasmania.	Apply to University of Tasmania at utas.edu.au/study/apply
Victoria	Victorian Tertiary Admissions Centre (VTAC)	vtac.edu.au
Western Australia	Tertiary Institutions Service Centre (TISC)	tisc.edu.au

Questions or problems?

To talk to someone about your application:

- call UAC on (+61 2) 9752 0200, Monday to Friday between 8.30am and 4.30pm Sydney time
- send your question via the enquiry form at uac.edu.au/contact
- send us a message on [Facebook](#) or [Instagram](#).

Have a question about admission criteria or course details? Contact the institution directly using the details on the [back cover](#).

Course preferences

How many course preferences can I have?

Domestic applicants can select up to five courses.

International applicants can select up to six courses.

What order do I put them in?

The order of your course preferences matters.

Domestic applicants can only get one offer in each offer round. It will be to the first course in your list for which you're eligible and competitive enough.

Order your course preferences like this:

1. the course you'd most like to do
2. your second favourite course
3. your third choice
4. your fourth choice
5. your final back-up course: a course you're confident you'll get an offer to if you miss out on all your higher course preferences.

Your chance of being selected for a course is not decreased because you placed it as a lower order preference. Similarly, you won't be selected for a course just because you entered that course as a higher order preference.

EXAMPLE

Anna, James and Sarah all applied for the Bachelor of Accounting. Anna put it as her fourth preference, while James and Sarah listed it as their first preference. Anna missed out on offers to her first, second and third preferences but was a more competitive candidate for the Bachelor of Accounting than both James and Sarah. So, Anna received an offer to the Bachelor Accounting (her fourth preference) while James and Sarah did not, despite them listing it first.

It works a little differently for **international students**: for details, go to uac.edu.au/international-student-offers.

What if I'm still deciding which courses to choose?

Don't worry; although you need to enter at least one course preference in order to complete your application, you can change your preferences as many times as you want before preference deadlines. For a list of key dates, see the inside front cover of this Guide or visit uac.edu.au/key-dates.

UAC Undergraduate application - UAC

2 Qualifications - Undergraduate - UAC

3 **Course preferences - Undergraduate - UAC**

4 Review and submit - Undergraduate - UAC

Course preferences

Reorder your preferences by using the buttons or drag and drop the cards in place.

No.	Code	Course	Course-specific requirements
1	543000	Bachelor of Game Development - Major in Game Art - full or part time AIE Institute Sydney campus Start date: 31-Jul-2024 Please visit https://aieinstitute.edu.au for information about admission requirements down	X
2	543001	Bachelor of Game Development - Major in Game Art - full or part time AIE Institute Canberra campus Start date: 31-Jul-2024 Please visit https://aieinstitute.edu.au for information about admission requirements down	X
3	543002	Bachelor of Game Development - Major in Game Design - full or part time AIE Institute Sydney campus Start date: 31-Jul-2024 Please visit https://aieinstitute.edu.au for information about admission requirements up down	X

Search to select a new course

Click x to delete a course

To change the order of your course preferences, select up or down or drag and drop

You even have time to change your preferences after you get your ATAR and have a much better idea about your chances of being selected.

Just make sure you submit and pay for your application before midnight on Friday 29 September 2023 – the processing charge increases after this date.

What if my course is not on the UAC website?

If you want to apply for a particular course but you can't find it on UAC's course search or as an option in your application, it means course details are being confirmed:

1. Select a different course to complete your application.
2. Check the course search regularly – new courses will be posted as they become available.
3. Once the course is available, include it in your preferences.

All courses should be published on the [UAC website](#) by August 2023.

You don't have to give UAC your Australian Year 12 results or ATAR.

The only rare exception is if you complete your studies mid-year: in this case, upload your results and ATAR asap.

Queensland students need to sign up to the QTAC ATAR portal and provide consent for QTAC to share your ATAR with interstate tertiary admission centres.

Tip!

How do I change my course preferences?

You can add, delete or change the order of your course preferences as many times as you like before the closing date for each offer round:

1. Log in to your application using your UAC application number and UAC PIN.
2. Select 'Course preferences'
3. Add or delete courses, or drag courses up and down to change their order.

**WE SEE YOU
SUCCEED**

Study with confidence at CQUniversity, with a range of support services and the flexibility to tailor your study to suit your lifestyle and career goals.

TAFE AND UNIVERSITY QUALIFICATIONS

BE WHAT YOU WANT TO BE

cqu.edu.au

CRICOS: 00219C | TEQSA: PRV12073 | RTO: 40939

After you apply

Keep your UAC application number and PIN in a safe place

You need them to log back in to your application. You also need your UAC PIN to view your ATAR.

Check your confirmation of application

Need to change your contact details, course preferences, or add other qualifications?

Log back in to your application and make your changes. For other changes, email UAC via the online enquiry form as soon as possible.

Need to provide documents to UAC in support of your application?

Most Year 12 students don't need to upload documents because UAC automatically receives your Year 12 results. If you do need to provide supporting documents, you will be prompted to do so in your application. The required documents will also be listed in your Confirmation of Application, which you can download when you complete your application. Read about providing documents at uac.edu.au/documents.

Are you completing an International Baccalaureate Diploma?

You must authorise the release of your International Baccalaureate Diploma to UAC. Ask your school's IB Diploma coordinator to request this on your behalf.

Check for non-ATAR selection criteria

Before you can be selected, some courses require you to meet a few extra requirements.

Examples are:

- external exams, such as the University Clinical Aptitude Test, which most institutions require you to sit if you want to study medicine
- questionnaires
- completion of (or minimum results in) specific Year 12 courses (aka prerequisites)
- portfolios
- interviews or auditions.

Track your application

You can track the progress of your application throughout the assessment process. When you log in to your application you'll be able to see when UAC has received your results and finalised the assessment of your qualifications, and if there are any issues preventing you from receiving an offer to your preferences.

Lock in your preferences before closing dates

You can change your preferences:

- after any round, whether you receive an offer or not
- until the closing date for the next offer round.

EXAMPLE

After	You can change your preferences for	Until
Dec Round 2	Jan Round 1	11.59pm Thu 4 Jan 2024
Jan Round 1	Jan Round 2	11.59pm Wed 17 Jan 2024

Applying for access schemes

Once you've completed your undergraduate application, you can go on to apply for the:

- Schools Recommendation Scheme (to apply for an early offer)
- Educational Access Scheme (to have your educational disadvantages taken into account).

Read about how these schemes work in the ['Admission and selection'](#) section.

You can apply for these schemes from the final screen of your initial application. See step 10 of 'How to apply' on [page 14](#).

If you've already applied and logged out, follow the instructions on the [next page](#).

Your responsibilities as an applicant

Your responsibilities as an applicant include:

- reading the relevant parts of this Guide or corresponding information on [UAC's website](#)
- following any institution-specific instructions
- providing true and complete information in your application
- providing true and complete copies of official documentation with your application where requested
- accepting the conditions set out in the application declaration (eg agreeing to the ways in which UAC uses the information you provide in your application and collects information from third parties)
- checking your emails (including in your junk folder) for any messages from UAC.

If you fail to meet your responsibilities

If you submit an application that contains information that UAC or a participating institution determines to be untrue or incomplete:

- UAC may cancel your application
- an institution may withdraw any place offered.

Services for applicants with a disability

If you have a disability or an ongoing illness that may disadvantage you during your studies, we encourage you to include this information in your application.

Any information you provide will:

- not affect your application for admission
- be seen only by disability services staff
- help the institution meet your education needs should you be offered a place in one of their courses.

Tip!

It's important to meet your responsibilities as an applicant – by doing so you'll ensure that your application is processed and assessed as soon as possible.

Institutions may be able to provide one or more of the following services:

- note takers
- personal readers
- examination provisions
- learning assistance
- alternative assessment methods
- academic material in alternative formats
- parking for holders of a Transport for NSW Mobility Parking Scheme permit.

Preparing for study

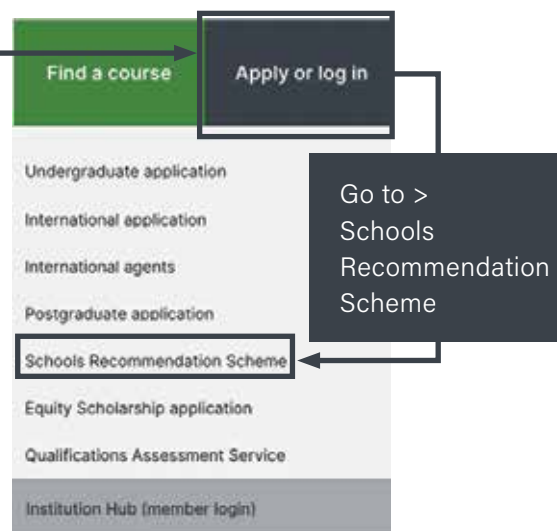

Information and advice about preparing for study when you have a disability is readily available:

- Talk to the institution's disability services staff about what services they can provide – visit uac.edu.au/disability.
- Visit westernsydney.edu.au/getreadyforuni for information on making the move from school to university.
- If you're having trouble applying through UAC, call us on (+61 2) 9752 0200, Monday to Friday between 8.30am and 4.30pm Sydney time – we'll help you through the application process.

Schools Recommendation Scheme

Go to uac.edu.au > Apply or log in.

- 1 Complete your SRS application by answering the questions and following the prompts.
- 2 Upload institution-specific documents if you're prompted to do so. Most institutions do not require you to upload documents.
- 3 Review your application summary.
- 4 Accept the declaration and authority and submit.
- 5 Download your confirmation of application.

Not in the NSW school system?

If you're studying in another state or territory's school system, you'll also need to:

- enter the details of your Year 11 studies
- upload a PDF of your Year 11 school report.

You will find complete instructions for applying for SRS at uac.edu.au/srs.

Educational Access Scheme

Log in to your application and select the EAS tab.

- 1 Open the category of disadvantage you wish to claim. Select the specific disadvantages that apply to you and answer the follow-up questions. When you have selected all the relevant disadvantages in that category, click 'Save'.
- 2 Repeat for each category you wish to claim.
- 3 Accept the declaration and authority and submit.
- 4 Download your confirmation of application and the document cover sheet for each of your claimed disadvantages. The document cover sheet details the eligibility criteria for the disadvantage and the supporting documents you need to provide.
- 5 Upload completed cover sheets and supporting documents to your application at least two weeks before the undergraduate offer round in which you wish to be considered – visit uac.edu.au/key-dates.

Educational Access Scheme

Tip!

Before you apply for EAS, check the eligibility criteria and documents required for each EAS disadvantage – visit uac.edu.au/eas-disadvantage.

International students

If you're an international applicant, you must also:

- satisfy your student visa conditions (eg maintaining full-time enrolment in your course, satisfactory class attendance and course progress)
- remain with the same university where you originally enrolled for at least the first six months of your principal course except under certain circumstances (for details, search for 'overseas student transfers' at internationaleducation.gov.au)
- maintain your Overseas Student Health Cover (OSHC) for the period of your stay
- if you are under 18, maintain your approved accommodation, support and general welfare arrangements
- inform your institution if you change your address
- provide details of your passport upon acceptance of an offer
- ensure you have sufficient financial capacity to support your study and stay in Australia
- return home immediately upon completion of your course or expiration of your visa.

If you breach your student visa conditions by failing to maintain full-time enrolment or satisfactory course progress, the institution will notify you and the Australian Government. This may result in your visa being cancelled immediately.

FAQs about applying

How many times can I apply?

You can apply once in each admissions period. If you change your mind about the courses you'd like to apply for in this period, you can easily change them by logging in to your application on [UAC's website](#) – read 'Course preferences' on [pages 17 to 18](#).

If you have applied to UAC in a previous admissions period, you will need to start a new application. You cannot use your previous UAC application number and PIN.

How many courses can I choose?

Domestic applicants can choose up to five course preferences. International applicants can choose up to six course preferences.

How long does it take to apply?

It should take you about 20 minutes to apply.

How much does it cost to apply?

From April until 29 September 2023, the cost is approximately \$80 (early bird processing charge). After that it is approximately \$200 (standard processing charge). We strongly encourage you to apply during the early bird period.

Why do I have to pay to apply through UAC?

UAC is a charitable organisation that earns most of its income from participating institutions and application fees. It does not receive any direct financial support from the government. In addition to processing applications, UAC provides many applicant services, including the calculation of the ATAR, school and community outreach and the administration of tertiary access schemes.

Want an early offer to uni? Apply for UAC's

UAC
**ACCESS YOUR
POTENTIAL.**

Admission and selection

General admission requirements

There are three general requirements for being offered a place in a course. You must:

1. **have paid the UAC processing charge**
2. **be eligible:**
 - by meeting the academic requirements outlined in this section
 - by meeting the specific requirements of each institution outlined under their 'Admission criteria' at uac.edu.au/institutions
 - by meeting the specific entrance requirements of the course (eg prerequisites or additional selection criteria) set out in the course descriptions at uac.edu.au/search
3. **compete against other eligible applicants.**

Check the course descriptions on the [UAC website](https://uac.edu.au) for:

- details of non-ATAR admission criteria (eg portfolio)
- information about the lowest selection rank required to get an offer to the course last year.

Action!

Academic requirements

Tertiary institutions in Australia have found that a student's overall academic achievement is the single best predictor of success in tertiary study. The ATAR is commonly used as a selection tool as it is a measure of your overall academic achievement.

2023 Year 12 students with an ATAR

ATARs are calculated in each state to reflect a student's rank against other students in their state. An ATAR of 85.00 in your state is equivalent to an ATAR of 85.00 in other states. For information on the ATAR in NSW, visit uac.edu.au/atar.

You usually do not need to provide UAC with your ATAR: we have direct access to it. The exception is Queensland applicants: you need to give permission for your results and ATAR to be released to UAC. You can do this through the ATAR portal on the QTAC website. Alternatively, you can upload a copy of your

official Senior Statement and ATAR Notice as soon as they become available. However, subject adjustment factors are not automatically applied to results provided to UAC by applicants. You'll need to contact the institutions to have these allocated to you.

Each course description on the [UAC website](https://uac.edu.au) will indicate, where relevant:

- the lowest ATAR previously required to receive an offer
- the lowest selection rank (ATAR + adjustments) previously required to receive an offer.

Use this data as a guide only to your chances of being selected for the course in 2024.

Some institutions also specify:

- the minimum ATAR or selection rank you'll need to achieve to be considered for a place in the course in 2024
- a guaranteed ATAR or selection rank (if you achieve these you are guaranteed a place in the course in 2024).

Head to the UAC website for everything you need to know about the ATAR: we explain how it's calculated and bust some common myths!

Tip!

Lowest ATARs and selection ranks for entry to semester 1 courses in 2024 won't be known until all offers have been made.

Lowest ATAR

Don't assume that the published lowest ATAR for a course is the ATAR you require to be made an offer to that course. The applicant who received that ATAR may have been eligible for adjustment factors and had their selection rank increased, making them more competitive for an offer.

Lowest selection ranks

The lowest selection rank for a course includes any increase to an applicant's selection rank made as a result of adjustment factors.

Three factors determine the lowest selection rank:

- the number of places available in the course
- the number of applicants for the course
- the quality of those applicants.

These three factors mean that lowest selection ranks change from year to year and are impossible to predict before applicants are selected for a particular course in a particular year. The lowest selection rank for any course can increase, decrease or remain the same.

The lowest selection rank doesn't represent the average ability of the students accepted for the course and does not reflect the difficulty or quality of the course.

Selection rank adjustments

Many applicants receive an offer to a course even though they have an ATAR below the published lowest selection rank. Why? Because other factors have been taken into consideration in combination with their ATAR and their selection rank for that course has been adjusted and is higher than their ATAR.

These adjustments are due to factors such as:

- strong performance in HSC subjects
- living or attending school in a certain area
- applying for consideration through the Educational Access Scheme.

Selection rank adjustments are applied differently from institution to institution and from course to course within the same institution. Visit each institution's website for details.

As selection rank adjustments are course specific, your selection rank can be different for each of your course preferences.

- Your selection rank = your ATAR + adjustments.
- Adjustments do not change your ATAR; they change your selection rank for a particular preference.
- Institutions automatically adjust your selection rank if you are eligible.
- You are not notified of changes to your selection rank.

Tip!

EXAMPLE

Course A has six applicants and only three places available. The six applicants have the following selection ranks:

Applicant	Selection rank
1	89.00 (ATAR of 89.00)
2	88.00 (ATAR of 87.00 plus adjustment of 1 point)
3	87.00 (ATAR of 83.00 plus adjustment of 4 points)
4	86.00 (ATAR of 86.00)
5	85.00 (ATAR of 83.00 plus adjustment of 2 points)
6	84.00 (ATAR of 84.00)

Offers will be made to applicants 1, 2 and 3. Applicant 4 won't receive an offer, even with an ATAR higher than applicant 3, and applicant 3 will receive an offer even though their ATAR is below the lowest selection rank. The lowest selection rank required to receive an offer to Course A will be 87.00.

The example also shows that an applicant with an ATAR above the published lowest ATAR for a course will not necessarily receive an offer. The lowest ATAR for this course is 83.00 (applicant 3). Even though applicants 4, 5 and 6 have ATARs of 83.00 and above, their selection ranks are below the lowest selection rank of 87.00 and therefore they will not receive an offer.

Guaranteed ATARs and selection ranks

Some institutions indicate a guaranteed ATAR or selection rank for each course. If you achieve the guaranteed ATAR or selection rank, and you have the course listed as your highest eligible preference in your UAC application, you are guaranteed to be offered a place in the course for semester 1, 2024.

Depending on the demand for the course, applicants with lower ATARs and selection ranks may also be eligible for offers.

2023 International Baccalaureate students

If you're an IB student, you don't receive an ATAR. Instead, we'll calculate an IB Admissions Score (IBAS) for you based on your diploma score. We'll send you your IBAS in early January. Then, when you apply through UAC, or any other tertiary admissions centre in Australia, your IBAS will be converted into an ATAR-like value (called the Combined Rank) so that you can be ranked against other applicants.

Getting your IB results to UAC

Ask your school IB Diploma coordinator to authorise the International Baccalaureate to release your IB Diploma results directly to UAC. This needs to be done in addition to any other request you make for results to be sent to an institution.

If UAC receives your results directly from the International Baccalaureate, any subject adjustment factors you are eligible for will be automatically allocated by the institutions.

Alternatively, provide a copy of your official Results Certificate and Diploma Certificate as soon as they become available. However, subject adjustment factors are not automatically applied to results provided to UAC by applicants. You'll need to contact the institutions to have these allocated to you.

Go to uac.edu.au/ib to:

- view the IBAS/Combined Rank conversion table
- compare IB courses to NSW HSC courses.

Students completing non-standard Year 12 programs in 2023

Non-standard Year 12 programs of study include those completed through:

- Australian Christian Education
- Rudolph Steiner Education
- home schooling
- Queensland Senior External Examination.

If you're studying these programs, select 'none of the above' in your application when you are asked if you're completing a Year 12 qualification in 2023.

Assessment

UAC assesses the Queensland Senior External Examination.

For all other non-standard Year 12 studies to be assessable by UAC, you must:

- provide proof of completion of an accredited Year 12 program of study
- have sat the American Scholastic Aptitude Test (SAT), results from which will be assessed by UAC.

UAC will also assess results from the Special Tertiary Admissions Test (STAT). Find out more about STAT at stat.acer.edu.au.

Contact the admissions offices of the institutions you are applying to for information on acceptance of STAT and on how they will consider your non-standard Year 12 studies.

2023 New Zealand NCEA Level 3 students

If you are completing the NCEA Level 3, an ATAR will be calculated by the New Zealand Qualifications Authority (NZQA) in January and provided to UAC. This will be used in the selection process, provided you have fulfilled NZQA's university entrance requirements.

You need to ask your school to check that your tertiary release indicator (privacy flag) on the school management system is set to 'Yes' so that UAC can access your results. If you don't do this, your results won't be provided to UAC and we won't be able to assess your application.

Direct queries about the ATAR and university entrance requirements to NZQA: visit nzqa.govt.nz.

Non-ATAR selection criteria

Some courses have selection criteria in addition to (or instead of) your ATAR and selection rank. This can include a personal statement, a questionnaire, a portfolio of work, an audition, an interview or a test. You can find details of any additional selection criteria in the course descriptions on the [UAC website](#).

Applying for Medicine? Scan for admission info for Medicine, Dentistry and Veterinary courses or go to uac.edu.au/medicine.

Prerequisites

Some courses require you to have studied specific HSC courses or equivalent in order to be considered for an offer. For details of prerequisites, read the course descriptions on the [UAC website](#).

If you're applying to NSW universities from another state, you can compare your courses and results to NSW HSC courses and results at uac.edu.au/year12-quals.

If you live in NSW or the ACT and are applying interstate, check if you meet the admission criteria of institutions in that state.

Tip!

Pathway options

Most institutions offer pathway options if you don't meet the entry requirements for their degree courses, or need further support and preparation before studying at degree level.

Non-degree courses

Pathway courses include:

- foundation studies
- university preparation courses (including the TAFE Certificate IV in Tertiary Preparation)
- certificate, diploma or associate degree courses.

If you successfully complete one of these courses, an institution may guarantee you entry into a particular degree course. Otherwise, you can use your non-degree studies to apply and compete for admission to other degree courses.

You may also be awarded credit for some studies undertaken in your non-degree course.

Offers to lower-level courses

Some institutions may offer you a place in a lower-level course – even if you don't apply for it – if you're not eligible or competitive enough to receive an offer to the course to which you've applied. This is sometimes called a 'slipback offer'.

English language proficiency

English language proficiency is an admission requirement for most tertiary courses. If you need to provide proof of your proficiency in English, this will be indicated in your application.

Applicants who don't need to provide proof

Most applicants – including those with an Australian Year 12 qualification – do not have to prove proficiency in English.

Students with assessable qualifications

For most institutions, you do not need to provide proof of English language proficiency if you have an assessable qualification – undertaken in English – from one of the following countries:

- | | |
|------------------|----------------------------|
| ■ American Samoa | ■ Liberia |
| ■ Australia | ■ New Zealand |
| ■ Bahamas | ■ Nigeria |
| ■ Barbados | ■ Papua New Guinea |
| ■ Belize | ■ Singapore |
| ■ Botswana | ■ Solomon Islands |
| ■ Canada | ■ South Africa |
| ■ Fiji | ■ Tonga |
| ■ Ghana | ■ Trinidad and Tobago |
| ■ Gibraltar | ■ United Kingdom |
| ■ Guyana | ■ United States of America |
| ■ Ireland | ■ Zambia |
| ■ Jamaica | ■ Zimbabwe |
| ■ Kenya | |
| ■ Lesotho | |

Assessable qualifications are:

- senior secondary studies comparable with the NSW HSC (including the IB Diploma or Bilingual Diploma)
- one full year of Australian or comparable tertiary studies, including associate degree, bachelor degree and postgraduate studies
- Australian non-award studies
- tertiary preparation courses, including the TAFE Certificate IV in Tertiary Preparation, with a full-time equivalence of one year.

The following qualifications may also be accepted as satisfying English language proficiency if you were born in and undertook the qualification in one of the countries listed above:

- AQF qualifications: AQF Certificate III or IV, diploma or advanced diploma (or equivalent)
- Special Tertiary Admissions Test (STAT)
- professional registration/qualification (eg nursing, trade, CPA).

Note: Some institutions may accept a different group of countries or have different qualification requirements. For institution-specific details, visit uac.edu.au/elp.

Students with qualifications specified by an institution

Each institution specifies additional qualifications it will accept as proof of English language proficiency, which may vary for specific courses. These qualifications are set out on the [UAC website at uac.edu.au/elp](http://uac.edu.au/elp).

Applicants who do need to provide proof

If you don't have the required tests or qualifications outlined above, there are two ways to prove your proficiency in English.

Method 1: Sit an English language proficiency test

There are a number of English language proficiency tests that are commonly accepted by institutions.

Check with your preferred institution to make sure it will accept the test results as proof of English language proficiency for the course you want to study. Include details of your proposed test in the English language proficiency question in your UAC application and submit it. Provide UAC with evidence of your results as soon as you receive them.

Register with the individual test centre:

International English Language Testing System (IELTS): Academic
Visit ielts.org.

Test of English as a Foreign Language (TOEFL)
Visit ets.org.

Pearson Test of English (PTE): Academic

Visit pearsonpte.com.

C1 Advanced

Formerly known as Cambridge English: Advanced (CAE). Visit cambridgeenglish.org/exams/advanced.

C2 Proficiency

Formerly known as Cambridge English: Proficiency (CPE). Visit cambridgeenglish.org/exams/proficiency.

Method 2: Write to the institution admissions office

If you believe you can demonstrate your proficiency in English but your test or qualification is not included here or on the UAC website, write to the admissions office at each institution to which you're applying. Include supporting documentation so that the acceptability of your test or qualification can be determined. **Do not send this information to UAC** – we cannot make decisions about your English proficiency on behalf of institutions.

International students

The Australian Government has separate English language requirements for students applying for student visas from some countries. For more information, visit homeaffairs.gov.au.

Year 12 students born in non-English-speaking countries**Tip!**

You will see the following statement under each of your course preferences: Results pending – English language requirements.

Don't worry: you do not need to do anything.

All applicants born in non-English-speaking countries are required to provide proof of their English language proficiency, no matter how long they have lived in Australia. Your Year 12 qualification will provide this proof. Once you have received your ATAR (or IB Admissions Score) this statement will disappear.

If you apply for an early offer through the Schools Recommendation Scheme, you can still receive an offer before your Year 12 results are released. It is assumed that all applicants who receive an SRS offer will successfully complete Year 12.

Selection process

Once you've met all the admission requirements for a course, you will compete against other applicants for a place.

If you're not successful in gaining a place in the course listed as your first preference, your second preference will be considered and so on until an offer can be made or you have no more preferences.

You'll only receive **one offer per offer round** to your highest preference for which you're:

- eligible
- competitive enough.

In some cases you may also receive an offer to a lower-level course that you haven't applied for – read about slipback offers on [page 34](#).

International students

In each round, you can receive one offer from each institution listed in your preferences.

You compete against other applicants for a place in a course.

Entry schemes

Some institutions have a specific scheme or program for applicants who don't meet the usual admission criteria of the institution. For details, refer to the information about each institution on the [UAC website](https://uac.edu.au/institutions) at uac.edu.au/institutions.

Educational Access Scheme

Most of UAC's participating institutions have an Educational Access Scheme (EAS) to help students who have experienced educational disadvantage gain admission to university.

To be eligible for an equity adjustment under EAS, you must be:

- a UAC domestic applicant for undergraduate admission
- an Australian or New Zealand citizen, or a permanent resident of Australia (includes holders of permanent humanitarian visa)
- able to demonstrate that you've experienced educational disadvantage because of circumstances beyond your control.

International students cannot apply for EAS.

For detailed information, visit uac.edu.au/eas.

EAS applications

Before you apply for EAS you need to complete an application for undergraduate admission. Once you've submitted your undergraduate application, you'll have the option to immediately access the EAS application via the 'Apply for EAS' button or you can log back in to your undergraduate application at any time and apply for EAS.

You're encouraged to apply by the early bird closing date of Friday 29 September 2023, but if you miss this date the following EAS application and documentation deadlines apply:

- 23 November 2023:
 - to guarantee receipt of your eligibility letter the day NSW ATARs are released and ensure you have time to change preferences for December Round 2
 - to be included in December Round 2.
- 26 December 2023:
 - to be included in January Round 1.

If you have any questions, you can call UAC.

Notification of EAS eligibility

After your application has been assessed, UAC will send you an email to notify you of your EAS eligibility at each institution. However, being eligible for EAS does not guarantee you an offer to a course. You still need to compete with other applicants.

EAS applications and supporting documents received by UAC on or before 23 November 2023: EAS eligibility notifications sent on 14 December 2023.

This means that if you want to change your course preferences for December Round 2, you will know your EAS eligibility for every institution.

EAS applications received by UAC after 23 November 2023: EAS eligibility notifications issued progressively.

Individual uni entry schemes

Some institutions have their own entry schemes that you can apply for directly via their websites. They might look at criteria like leadership, extracurricular activities or community service. Your applications to these schemes won't affect your UAC application.

Most institutions have an admission scheme specifically for Aboriginal and Torres Strait Islander students.

Read about these schemes in the institution entries starting on [page 55](#) or access them via uac.edu.au/institutions.

Early offer schemes

Applying directly to the uni

Many institutions have early offer schemes for Year 12 students. Through these schemes, the institutions will assess you using criteria other than (or in addition to) your ATAR. Always check the institution websites to make sure the courses you are applying for are covered by the schemes.

Applying through UAC: Schools Recommendation Scheme

When you apply for the Schools Recommendation Scheme (SRS), institutions can assess your UAC application for admission using a wide range of selection criteria other than, or in addition to, the ATAR. This means that you could get an offer – conditional or unconditional – before ATARs are released. Institutions can make offers based on:

- Year 11 results
- school ratings
- ATAR (or equivalent) or selection rank
- equity criteria
- institution-specific conditions.

How to apply

1. Submit your UAC undergraduate application.
2. Apply for SRS via the [UAC website](#).

Applications close at 11.59pm on **18 September 2023**.

Who can apply

SRS is open to all Year 12 applicants who are:

- completing either an Australian Year 12 qualification or an International Baccalaureate (within Australia) in 2023
- UAC domestic applicants for undergraduate admission for 2023–24.

International students cannot apply for SRS.

Individual institutions may have additional requirements for applicants. To find out more, access the link to institution-specific criteria at uac.edu.au/srs.

Course preferences

Finalise your course preferences by 11.59pm on 3 November 2023.

Place the course you would most like to do at the top of your list, your next most preferred second, and so on down the list.

SRS offers

Most SRS offers will be made in November Round 1 on 10 November 2023.

There are two types of SRS offers:

- unconditional offers (which have no further conditions for you to meet)
- conditional offers (which require you to meet additional conditions, such as a minimum ATAR).

In November, you can receive one unconditional offer and one or more conditional offers.

Unconditional offers: Accept your unconditional offer, even if it's for your lowest course preference. You will automatically be considered for your higher preferences in later rounds.

If you receive an unconditional offer to one of your higher preferences and want to be considered for all your other preferences in later rounds:

- accept the offer
- log in to your UAC undergraduate application, go to 'Update course preferences' and move that course down to the bottom of your course preference list or remove it entirely (as long as you have accepted the offer, you can't lose it).

If you then receive an offer to a course in your new list, you can decide whether to accept it and withdraw from your original course, or not accept the new offer and keep your place in your original course.

Conditional offers: To convert your conditional offer to an unconditional offer, you must:

- meet the condition/s stipulated in the offer
- meet all other institution requirements for that course
- include the course in your list of preferences by 11.59pm 15 December 2023 (closing date of change of preference for December Round 2).

Unsuccessful applicants

UAC won't advise applicants who do not receive an offer through SRS. An unsuccessful SRS application has no effect on your UAC undergraduate application.

For further information about SRS, visit uac.edu.au/srs.

Scan for details of early offer schemes or go to uac.edu.au/early-offers.

Offers and enrolment

Why preferences matter

You can receive only one offer in each offer round. That offer will be to the highest preference for which you:

- meet the admission requirements (ie you are 'eligible')
- successfully compete against other applicants who also meet the admission requirements.

For example, if you meet the admission requirements and are competitive enough for the first preference you've listed, you'll be made an offer to that course only. If you're not made an offer to your first preference, but meet the admission requirements and are competitive enough for your second preference, you'll be made an offer to your second preference.

Always keep your courses listed in your preferred order.

Tip!

Timing of offers

Offers are made on scheduled dates throughout the year. These are called offer rounds.

The most important 2024 semester 1 offer round dates for Year 12 students are set out in a table on the inside front cover of this Guide. The table also shows the dates by which you need to apply, provide documents and change your preferences to be guaranteed consideration in each offer round.

Although some Year 12 applicants receive early offers (before ATARs are released), most will receive their offers in:

- December Round 2
- January Round 1.

Offer rounds after January Round 1 are for entry to courses that still have vacancies.

Early offers

The offer rounds before December Round 2 are usually for early offer schemes such as the Schools Recommendation Scheme, ADFA (Australian Defence Force Academy) courses, non-Year 12 applicants, or for courses that don't require an ATAR. If you don't receive an early offer and aren't in one of the categories listed, there's no need to worry.

If you get a **conditional** early offer, to convert it into an unconditional offer you have to:

- leave the course in your list of preferences.
- satisfy the conditions set out by the uni in your offer email.

Tip!

Sometimes the uni will tell you that your early conditional offer will only convert to an unconditional offer if it is your 'highest eligible preference'. This is true, but take note of the word 'eligible'. You can still place other courses higher in your preference list; if you miss out on offers to these higher preferences, your conditional offer will still become unconditional.

Action!

Accept any offer you receive: don't assume you'll receive another offer later. You can then review your preferences for the next offer round.

International applicants

Conditional offers

Approximately 48 hours after you have applied through UAC, you'll receive a conditional offer via email. The email will list all the courses you've applied for, and you can use it as part of your pre-visa assessment. It is a conditional offer of admission only; it does not mean you are able to enrol. To be eligible to enrol in a course of study you need to receive an unconditional offer.

Unconditional offers

To receive an unconditional offer, you must have the course listed in your application when offers are made, meet the minimum admission criteria of the institution and any other specific entry requirements for the course, and successfully compete against other applicants for a place. Most offers will be made after you receive your final Year 12 results in December.

Your courses are considered in the order you have listed them in your application. However, each institution you have applied to will consider your application separately. Therefore, you can receive an offer to your highest preference at each institution included in your application (if you are eligible and competitive enough).

Getting your offer

UAC will send you your offer via email. Read the email carefully and follow the instructions. Your offer will also be recorded in your application.

Slipback offers

If you apply for a course but miss out on an offer, you might receive an offer to a lower-level course – in the same area at the same institution – instead. For example, you may get an offer to a Diploma in Marketing if you applied for, but missed out on, the Bachelor of Marketing at the same institution.

If you successfully complete a course such as a diploma, some institutions guarantee you entry into a degree course. You might also be awarded credit for some of your studies.

Direct offers from the unis

If you have applied directly to an institution, as well as through UAC, you can receive offers from both UAC and the institution. Then it's up to you to decide which one to accept.

Accepting your offer

Accept your offer by following the instructions the institution gives you in your offer email. Do this promptly, otherwise your offer might lapse and be given to another applicant in the next round.

Accepting an offer doesn't stop you from being considered in later offer rounds, but you must remove the successful course from your preferences list (or move it to the bottom) to prevent it blocking offers to lower preferences in future rounds.

What to do when you get an offer

10 Nov

Before you get your ATAR
SRS offers released: November Round 1

21 Dec

After you get your ATAR
Offers released: December Round 2

01.

What happens

You get a **conditional** early offer

You get an **unconditional** early offer

You get an offer to your **first course** preference

You get an offer but it's **not** to your first course preference

You **don't get** any offers

02.

What you need to do

Leave the course in your application in your preferred order

Accept the offer

Accept the offer

Accept the offer to keep as a backup

- Compare your ATAR to course lowest selection ranks
- Consider pathway courses (eg diploma in same subject area)

03.

What happens next

Satisfy conditions set by the university
Receive an **unconditional offer** after you get your ATAR

Happy with the offer?
Proceed to enrol

- Or want another offer?
- Remove offered course from preference list
 - Review your preference list for post-ATAR offers

Happy with the offer?
Proceed to enrol

- Or want another offer?
- Remove offered course from preference list
 - Review your preference list for post-ATAR offers

- Remove offered course from preference list
- Review your preference list for post-ATAR offers

Review your preference list for next offer round

04.

What to do in later rounds

- If you get an offer to your preferred course:
- Accept the new offer and enrol
 - Contact uni to withdraw acceptance of first offer

- If you get an offer to your preferred course:
- Accept the new offer and enrol
 - Contact uni to withdraw acceptance of first offer

- If you get an offer to your preferred course:
- Accept the new offer and enrol
 - Contact uni to withdraw acceptance of first offer

- If you get an offer:
- Accept the offer and enrol
-
- If you don't get an offer:
- Discuss your options with different unis
 - Change your course preferences

If you receive an offer in one round and accept it, then receive another offer in a later round, you can choose to:

- keep your previous offer and not accept your new offer or
- accept your new offer and withdraw from the course you've already accepted.

Once you accept your offer, the next step is enrolment.

International applicants

Your offer will include an explanation of how to accept your offer, enrol and pay the required compulsory Overseas Student Health Cover (OSHC) charge. Take particular notice of any deadlines the institution has for accepting the offer.

Once you have accepted your offer and sent your payment, the institution will send you a Confirmation of Enrolment. This document will allow you to obtain your student visa.

Got a question?

If you want to know why you didn't get an offer, or what other study options are available to you, get in touch with the admissions office staff at the uni. The institutions make the decisions about who receives an offer to a course.

Tip!

Receiving further offers

Once you've received an offer, you can't be made an offer to any lower course preferences unless you change your preferences.

So, if you receive an offer to your first preference, you won't be considered for further offers in subsequent rounds unless you move that course down to the bottom of your list or remove it entirely. (Before you do this, don't forget to accept the course you've already been offered!)

If you receive an offer to a lower preference, you will automatically be considered for higher preferences in the next round.

EXAMPLE

You have the following five courses listed as preferences and you receive an offer to your second preference:

Preferences	
1	B Life Science
2	B Animal Science
3	B Science (Physics)
4	B Human Sciences
5	B Natural Science (Animal Science)

- 1 **Accept** your offer to B Animal Science.
- 2 **Remove** B Animal Science. As long as you've accepted your offer to this course, you won't lose your place. If you leave your preferences as they are, in subsequent rounds you will only be considered for your first preference, B Life Science.
- 3 **Change** your preferences in any way you like – even add new courses to your list. Just make sure you have a realistic chance of meeting the lowest selection rank and can satisfy any additional course requirements.

Say you change your preferences to the following:

Changed preferences	
1	B Science (Physics)
2	B Science (Flexible)
3	B Biotechnology
4	B Human Sciences
5	B Teaching/B Science

- 4 **Receive** an offer to a course in your new list.
- 5 **Decide** whether to accept it and withdraw from B Animal Science or not accept the new offer and keep your place in B Animal Science.

If you change your mind

If you reject an early round offer or let it lapse and then change your mind, you'll need to speak with the institution's admissions office, as only the institution can reinstate the offer. Also, if the course you've rejected was your first preference and you don't remove it, no further offers can be made because the rejected offer will 'block' any new offers to other preferences.

Tip!**Deferring your start date**

You can often delay starting your course for six months or one year. All deferments are granted subject to the course being offered the following semester or following year. Each institution has its own policy regarding deferment – refer to the institution information at uac.edu.au/institutions.

How to defer

Sometimes you have to accept the offer before you can defer. Follow the institution's instructions for accepting your offer. You will then be given the option to 'accept' or 'defer' your place in the course.

Most institutions will ask you to provide a statement to explain why you wish to defer and what you'll be doing during this period.

Once your deferment has been granted, the institution will confirm it in writing and give you instructions on how to take up your deferred course.

Your deferred offer can lapse

If you undertake degree studies or certain levels of TAFE study other than NSW HSC courses during your deferment period, your offer at many institutions will lapse. You will need to reapply through UAC and declare all of your studies. Check with each institution for specific policies.

Tip!**Changing your mind**

If, at the end of the deferment period, you decide you'd like to be considered for other courses, you can complete a new UAC application and include these course preferences.

If you receive an offer to one of the new courses, you can then decide whether to accept the offer or take up your deferred course.

Unsuccessful applicants**Take action**

Contact the relevant institutions for advice on alternative study options, then change your course preferences for the next offer round.

Think ahead

When you apply through UAC, you'll be asked if you'd like to receive information about alternative study options should your application be unsuccessful. If you select 'Yes', institutions (including some not in your preferences) can contact you with details of other available study options. You can always opt out of receiving this information by logging in to your application on the [UAC website](http://uac.edu.au).

Enrolment

Enrolment is the next step after you accept your offer. Your institution will let you know when enrolments are open and what you need to do.

You usually enrol online and it often involves:

- registering for your semester 1 subjects
- setting up a student email account
- completing a form to request a HECS-HELP or FEE-HELP loan (you'll need your Australian Tax File Number)
- entering your unique student identifier (USI). You will have already entered this in your UAC application but the institution may ask you to provide it again.

After you enrol in a course, you have until the census date to pay your fees or withdraw without penalty from the course. The census date varies depending on when your course starts, but it is usually at least a couple of weeks after the course start date.

International applicants

If you apply through an agent, your agent will help you enrol.

Orientation week

Before classes start at the beginning of the year, most institutions run an orientation week (often called 'O-Week'). The aim is to help you transition into university life. During the week you can:

- get to know your way around the campus
- socialise with other new students
- join clubs and societies that interest you
- find out more about your course and the academic support that will be available to you.

It's not compulsory to attend orientation week but it will help you get off to a good start.

International applicants

International students are strongly encouraged to attend orientation programs as they are specifically designed to help with adjusting to life as a student in Australia. For more information, read the institution entries at uac.edu.au/institutions.

Transferring to another course

Many students enrol in a course with a view to transferring into another course after completing a year's study. A typical example is completing one year of a general degree (such as Arts) and then transferring to a more specialised degree (such as Arts/Law).

How to transfer

In most cases you're not actually transferring; you're withdrawing from one course and applying for entry to another. You usually need to submit a new application through UAC for the new course.

If you're transferring to another course in the same admissions period, you don't need to reapply because your application is still active – you just need to change your preferences. Then, if you get an offer you can formally withdraw from your current course. It's important to do this to avoid additional HECS fees or absent fail results on your academic record.

Get advice early

Transferring is not an automatic process. Places in your new course will be very competitive, and you usually need to achieve excellent results in your first year. Each institution has its own requirements for transfers and you should seek more information before you enrol.

FAQs about offers

Can I receive an offer in more than one round?

Yes, domestic students can receive one offer per round. If you receive an offer in one round and accept it, then receive an offer in a later round, you can either keep your first offer and not accept the second offer, or withdraw from the first offer (that you accepted) and accept the second offer.

International applicants can receive one offer per institution in each round.

Most offers are made in December and January.

Should I accept my offer? I might receive another offer in the next round.

Yes, you should accept your offer. If you receive an offer in one round, don't assume you'll receive another offer in a subsequent round. If you don't accept your offer and you don't receive another one in later rounds, you may miss out on a place.

Accept your offer by the date specified by the institution, otherwise you may lose your offer. Accepting an offer doesn't stop you from being considered for your higher preferences in subsequent offer rounds.

How do I receive more offers after I accept an offer?

If you receive an offer to your first preference but you'd like to be considered for other courses in subsequent offer rounds, you need to accept the offer, then remove your first preference and reorganise the order of your preferences before the next offer round (read the example on [page 36](#)).

If you receive an offer to a lower preference in an offer round, you'll automatically be considered for your higher preferences in subsequent rounds.

Course costs and financial assistance

Types of courses

Your course costs will depend on the type of course in which you're enrolled. There are two main types of courses:

- Commonwealth-supported place (CSP)
- domestic fee-paying (DFEE).

Not all institutions offer CSP courses and not all institutions offer DFEE courses.

The course descriptions at uac.edu.au/search indicate the types of fees charged.

A small number of courses are:

- ADF: student contribution paid by the Australian Defence Force
- C3F: three years Commonwealth-supported, fourth year fee-paying
- CBF: a combination of CSP and DFEE (ie bachelor program is CSP, masters program is DFEE)
- ENA: Commonwealth-supported and exempt from student contributions
- OTH: DFEE with no government loan scheme for students
- VET: DFEE with VET Student Loans for eligible students.

Get a tax file number from the Australian Taxation Office at ato.gov.au. You'll need it if you pay your course costs using a loan from the Australian Government.

Heading to university next year?

You'll need a Unique Student Identifier (USI) to:

- access HECS-HELP
- enrol in a Commonwealth Supported Place
- graduate from your degree.

Find or create your USI now at usi.gov.au

Commonwealth-supported place courses

CSP courses:

- are subsidised by the Australian Government so typically cost you less than equivalent DFEE courses
- require you to pay part of the cost of the course (a student contribution set by the institution, within a range set by the Australian Government).

Student contribution amounts

The Australian Government classifies your courses into funding clusters. The amount you pay is usually the maximum allowed by the government. The maximum student contributions for 2023 are set out below.

These amounts are indexed each year and are based on one year of full-time study. For the most up-to-date information, search for 'funding clusters and indexed rates' at [education.gov.au](https://www.education.gov.au).

Funding cluster	Max. student contribution in 2023
Funding Cluster 1 Law, accounting, administration, economics, commerce, communications, society and culture	\$15,142
Funding Cluster 2 Education, clinical psychology, English, mathematics, statistics Allied health, other health, built environment, computing, visual and performing arts, professional pathway psychology, professional pathway social work	\$4,124 \$8,301
Funding Cluster 3 Nursing, Indigenous and foreign languages Engineering, surveying, environmental studies, science	\$4,124 \$8,301
Funding Cluster 4 Agriculture Pathology Medicine, dentistry, veterinary science	\$4,124 \$8,301 \$11,800

Paying your student contribution

Australian citizens and holders of an Australian permanent humanitarian visa can pay their student contribution in three ways:

- pay the entire student contribution upfront
- receive a HECS-HELP loan for the whole student contribution
- pay some of the student contribution upfront and receive a HECS-HELP loan for the balance.

Holders of an Australian permanent resident visa must pay all of the student contribution upfront.

The institution will give you a 'Request for Commonwealth support and HECS HELP' form. All CSP students (including upfront payers) must submit this form, regardless of their payment option.

HECS-HELP loans

You don't have to start repaying your HECS-HELP loan until your income reaches a certain level. To find out more, visit ato.gov.au and search 'HECS'.

For more information about HECS-HELP loans and student contributions visit:

- institution websites
- studyassist.gov.au.

New Zealand citizens

To access HECS-HELP loans, New Zealand citizens must:

- hold a Special Category visa (SCV)
- meet **all** of the long-term residency requirements
- study the entire course while living in Australia.

Other New Zealand citizens must pay all of the student contribution upfront.

International students

Tuition fees

Tuition fees for international students:

- vary between institutions and courses
- vary depending on the specific units of study in which you enrol
- are generally based on an average course load of two semesters of full-time enrolment.

Tuition fees are listed in the course descriptions at uac.edu.au/search and are indicative and subject to change.

What do tuition fees cover?

Tuition fees generally cover teaching costs only but they may also include:

- reception at the airport nearest to campus
- assistance in finding accommodation
- orientation program
- access to all available student services and facilities
- special uniforms for nursing courses.

What don't tuition fees include?

Tuition fees do not include:

- accommodation expenses
- costs of textbooks, course materials, study aids and equipment
- living expenses such as food, transport and clothing
- costs of field trips
- health cover and medical costs
- the Student Services and Amenities Fee (not charged by all institutions).

Living expenses

The Australian Department of Home Affairs requires prospective international students to demonstrate that they have adequate funds to cover their living expenses in Australia.

Living expenses include items such as:

- accommodation
- electricity and/or gas and telephone/ internet bills
- food and entertainment
- personal incidentals
- public transport.

Your living expenses are separate from your tuition fees and will vary depending on many things (eg where you live, your type of accommodation and lifestyle).

Establishment costs and other expenses

You'll also need to meet establishment costs such as rental bonds for accommodation, furniture and general household items. Other expenses may include textbooks, study aids, vacations or the running of a car or motorbike.

You will find useful information on costs and other aspects of living in Australia at studyaustralia.gov.au.

Domestic fee-paying courses

DFEE courses:

- are not subsidised by the Australian Government so typically cost more than equivalent CSP courses
- require you to pay the full cost of your course (a tuition fee set by the institution).

Paying your tuition fee

Australian citizens and holders of an Australian permanent humanitarian visa can pay their tuition fee in three ways:

- pay the entire tuition fee upfront
- receive a FEE-HELP loan or VET Student Loan for the whole tuition fee
- pay some of the tuition fee upfront and receive a FEE-HELP loan or VET Student Loan for the balance.

Holders of an Australian permanent resident visa must pay the tuition fee upfront.

FEE-HELP loans and VET Student Loans

FEE-HELP loans help eligible fee-paying students pay all or part of their tuition fees.

VET Student Loans help eligible students studying higher level vocational education and training (VET) qualifications (diploma level and above) pay their tuition fees.

Loan fees

The following loan fees apply:

- 20 per cent for FEE-HELP loans
- 20 per cent for VET Student Loans.

The loan fee does not apply to students at Torrens University, Bond University or the University of Divinity.

For more information about FEE-HELP loans and VET Student Loans, visit studyassist.gov.au.

HELP loan limit

The HELP loan limit is a cap on what you can borrow from the Australian Government to cover the costs of your tuition fees. The HELP loan limit includes all HECS-HELP, FEE-HELP, VET FEE-HELP and VET Students Loans.

For 2023, the HELP loan limit is \$113,028 for most students.

The loan limit is \$162,336 if you're studying:

- medicine
- dentistry
- veterinary science
- an eligible aviation course.

You don't have to start repaying your loan until your income reaches a certain level.

You will not be eligible for any Australian Government assistance if you have a fail rate of more than 50 per cent in your tertiary studies. For details, search for 'low completion rate' at studyassist.gov.au.

New Zealand citizens

New Zealand citizens can access FEE-HELP loans and VET Student Loans if they:

- hold a Special Category visa (SCV)
- meet **all** of the long-term residency requirements
- study the entire course while living in Australia.

Other New Zealand citizens must pay all of the student contribution upfront.

Student services and amenities fee

Most institutions charge a Student Services and Amenities Fee (SSAF) for student services and amenities of a non-academic nature, such as:

- sporting and recreational activities
- employment and career advice
- child care
- financial advice
- food services.

The SSAF is annually indexed and charged regardless of whether students intend to use the services and amenities provided.

Not all institutions charge international students the SSAF.

Visit:

- education.gov.au for more information on SSAF
- uac.edu.au/institutions for individual institution policies.

Australian Government payments

The Australian Government provides financial help to eligible Australian students through payments administered by Services Australia.

The following information is correct as at February 2023.

Payment	Details
Youth Allowance	A fortnightly payment for people aged 16 to 24 who are: <ul style="list-style-type: none"> ■ studying full-time or ■ doing a full-time Australian Apprenticeship. Some job seekers aged 16 to 21 can also access these payments.
Austudy	A fortnightly payment for people aged 25 or over who are: <ul style="list-style-type: none"> ■ studying full-time or ■ doing a full-time Australian Apprenticeship.
ABSTUDY	A group of payments for Aboriginal and Torres Strait Islander students and Australian Apprentices.
Pensioner Education Supplement	A fortnightly payment to help with study costs if students also get certain income support payments from Centrelink or the Department of Veterans' Affairs.
Student Start-up Loan	A voluntary loan students getting Youth Allowance, Austudy or ABSTUDY Living Allowance can get up to twice a year. You have to pay the loan back once you start earning a certain amount of income.
Relocation Scholarship	An annual payment to help students getting Youth Allowance or ABSTUDY who need to move to or from a regional or remote area for higher education study.
Tertiary Access Payment	A one-off payment of up to \$5,000 for people moving from a regional or remote area for tertiary study within the year directly after completing Year 12.
Fares Allowance	Help with the costs of travel for students who need to live away from their family home to study.
Education Entry Payment	Help with the costs of study or training if you've been on certain payments from Services Australia.

You can claim most payments online 13 weeks before your course starts using your myGov account linked to Centrelink.

Visit servicesaustralia.gov.au/studentpayments for full, up-to-date details of payment eligibility and how to claim.

Equity Scholarships available through UAC

Equity Scholarships help disadvantaged students with costs associated with higher education.

Institutions award Equity Scholarships to Australian students from low socio-economic backgrounds, particularly those who receive Centrelink income support payments.

There are two types of Equity Scholarships:

- Institution Equity Scholarships (IES) funded by individual institutions
- Indigenous Student Success Program (ISSP) funded by the Australian Government.

Applying for an Equity Scholarship

By submitting just one Equity Scholarship application during UAC's admissions period you'll be considered for all available Equity Scholarships for which you're eligible at participating institutions.

Your application remains active for the entire 2023–24 admissions year, so if you miss out on a scholarship in one round, you may be considered again in subsequent offer rounds.

Do not apply multiple times for an Equity Scholarship; UAC will delete subsequent applications. One application is eligible for the entire admissions year.

Equity Scholarship applications and supporting documents received by UAC 10 working days before an offer round will be assessed for that offer round.

Visit uac.edu.au/es-offer-rounds for details of:

- offer rounds
- participating institutions.

To apply for an Equity Scholarship:

1. Go to uac.edu.au/es to research the categories of educational disadvantages you can claim and the documents you will need to provide.
2. Select 'Apply or log in' at the top right of the screen, then select 'Equity Scholarship application.'
3. Follow the prompts to the personal details section and enter the required information. Make sure you provide a personal email address: your school email address will expire.

Tip!

If you need to provide supporting documents, a document package will be generated after you submit your Equity Scholarship application.

No document package = no documents required.

4. Complete all sections covering the disadvantages you are claiming.
5. Accept the declaration and authority.
6. Review your application summary and submit.
7. Download your confirmation of application.
8. Upload supporting documents to your application **at least 10 days before** the undergraduate offer round in which you wish to be considered.

If your circumstances change after you've submitted an application, you can log back in and add disadvantages.

Visit uac.edu.au/es for details of:

- participating institutions
- offer rounds and application dates.

Other scholarships

Institutions offer a range of merit scholarships, from book vouchers to full bursaries. Apply directly to the institutions.

Go to uac.edu.au/institutions to check for financial assistance and scholarships provided by each institution.

International students

Sponsorship

Sponsored international students receive financial support for their study and/or other agreed educational expenses from sources other than their own funds. Your sponsoring authority must be recognised by the institution.

Working while studying

International students can work for:

- up to 40 hours per fortnight during teaching periods (limit may change due to workforce shortages)
- unlimited hours when your course is not in session.

Don't rely on working to fund your tuition or living expenses while in Australia – work cannot be guaranteed and spending excessive amounts of time working may adversely affect your studies.

The Department of Home Affairs determines work entitlement for students. For more information, visit 'Visas' at immi.homeaffairs.gov.au.

Scholarships funded by the Australian Government

The Australia Awards Scholarship program provides opportunities for people from selected developing countries to study in Australia.

To apply, visit dfat.gov.au/people-to-people.

Scholarships funded by institutions

Institution scholarships may be targeted to students from specific countries or to particular areas of study. Apply directly to the institutions.

Need help with money to go to or stay at uni?

HSC Board Developed courses to be examined in 2023

Here's a list of all the HSC courses that will be examined in 2023. To be eligible for an ATAR in NSW, you must satisfactorily complete at least 10 units of courses. These ATAR courses must include at least:

- 8 units from Category A courses
- 2 units of English
- three Board Developed courses of 2 units or greater
- four subject areas.

Your ATAR is then calculated from your:

- best 2 units of English
- best 8 units from your remaining units, which can include no more than 2 units of Category B courses.

For details on how the ATAR is calculated, go to uac.edu.au/atar.

Category A courses

Number	Course name	Unit value	Subject area
15000	Aboriginal Studies	2	Aboriginal Studies
15010	Agriculture	2	Agriculture
15020	Ancient History	2	Ancient History
15280	History Extension ¹	1	Ancient History
15030	Biology	2	Biology
15040	Business Studies	2	Business Studies
15050	Chemistry	2	Chemistry
15060	Community and Family Studies	2	Community and Family Studies
15070	Dance	2	Dance
15080	Design and Technology	2	Design and Technology
15090	Drama	2	Drama
15100	Earth and Environmental Science	2	Earth and Environmental Science
15110	Economics	2	Economics
15120	Engineering Studies	2	Engineering Studies
15155	English as an Additional Language or Dialect	2	English
15130	English Standard	2	English
15140	English Advanced	2	English
15160	English Extension 1	1	English
15170	English Extension 2	1	English
15180	Food Technology	2	Food Technology
15190	Geography	2	Geography
15200	Industrial Technology	2	Industrial Technology
15210	Information Processes and Technology	2	Information Processes and Technology

Number	Course name	Unit value	Subject area
15215	Investigating Science	2	Investigating Science
15220	Legal Studies	2	Legal Studies
15236	Mathematics Standard 2	2	Mathematics
15255	Mathematics Advanced	2	Mathematics
15250	Mathematics Extension 1 ²	1/2	Mathematics
15260	Mathematics Extension 2	2	Mathematics
15270	Modern History	2	Modern History
15280	History Extension ¹	1	Modern History
15290	Music 1	2	Music
15300	Music 2	2	Music
15310	Music Extension ³	1	Music
15320	Personal Development, Health and Physical Education	2	Personal Development, Health and Physical Education
15330	Physics	2	Physics
15345	Science Extension ⁴	1	Same as corequisite 2-unit science course
15350	Society and Culture	2	Society and Culture
15360	Software Design and Development	2	Software Design and Development
15370	Studies of Religion I ⁵	1	Studies of Religion
15380	Studies of Religion II ⁵	2	Studies of Religion
15390	Textiles and Design	2	Textiles and Design
15400	Visual Arts	2	Visual Arts

Number	Course name	Unit value	Subject area
Languages			
15510	Arabic Continuers	2	Arabic
15520	Arabic Extension	1	Arabic
15530	Armenian Continuers	2	Armenian
15540	Chinese Beginners	2	Chinese
15550	Chinese Continuers	2	Chinese
15557	Chinese in Context	2	Chinese
15565	Chinese and Literature	2	Chinese
15570	Chinese Extension	1	Chinese
15580	Classical Greek Continuers	2	Classical Greek
15590	Classical Greek Extension	1	Classical Greek
15600	Classical Hebrew Continuers	2	Classical Hebrew
15610	Classical Hebrew Extension	1	Classical Hebrew
15620	Croatian Continuers ⁶	2	Croatian
15640	Dutch Continuers	2	Dutch
15660	Filipino Continuers	2	Filipino
15670	French Beginners	2	French
15680	French Continuers	2	French
15690	French Extension	1	French
15700	German Beginners	2	German
15710	German Continuers	2	German
15720	German Extension	1	German
15730	Hindi Continuers	2	Hindi
15740	Hungarian Continuers	2	Hungarian
15750	Indonesian Beginners	2	Indonesian
15760	Indonesian Continuers	2	Indonesian
15775	Indonesian and Literature	2	Indonesian
15780	Indonesian Extension	1	Indonesian
15790	Italian Beginners	2-Jan	Italian
15800	Italian Continuers	2	Italian
15810	Italian Extension	1	Italian
15820	Japanese Beginners	2	Japanese
15830	Japanese Continuers	2	Japanese
15837	Japanese in Context	2	Japanese
15850	Japanese Extension	1	Japanese

Number	Course name	Unit value	Subject area
15860	Khmer Continuers	2	Khmer
15870	Korean Beginners	2	Korean
15880	Korean Continuers	2	Korean
15887	Korean in Context	2	Korean
15895	Korean and Literature	2	Korean
15900	Latin Continuers	2	Latin
15910	Latin Extension	1	Latin
15940	Macedonian Continuers ⁶	2	Macedonian
15970	Modern Greek Beginners	2	Modern Greek
15980	Modern Greek Continuers	2	Modern Greek
15990	Modern Greek Extension	1	Modern Greek
16000	Modern Hebrew Continuers	2	Modern Hebrew
16015	Persian Continuers	2	Persian
16020	Polish Continuers	2	Polish
16030	Portuguese Continuers	2	Portuguese
16035	Punjabi Continuers	2	Punjabi
16045	Russian Continuers	2	Russian
16050	Serbian Continuers ⁶	2	Serbian
16070	Spanish Beginners	2	Spanish
16080	Spanish Continuers	2	Spanish
16090	Spanish Extension	1	Spanish
16100	Swedish Continuers	2	Swedish
16110	Tamil Continuers	2	Tamil
16120	Turkish Continuers	2	Turkish
16140	Vietnamese Continuers	2	Vietnamese

Category B courses

Number	Course name ⁷	Unit value	Subject area
26098	Automotive (Examination)	2	Automotive
26199	Business Services (Examination)	2	Business Services
26299	Construction (Examination)	2	Construction
26399	Electrotechnology (Examination)	2	Electrotechnology
15126	English Studies (Examination)	2	English
26499	Entertainment Industry (Examination)	2	Entertainment Industry
27299	Financial Services (Examination)	2	Financial Services
26587	Hospitality (Kitchen Operations and Cookery) (Examination)	2	Hospitality
26589	Hospitality (Food and Beverage) (Examination)	2	Hospitality
27199	Human Services (Examination)	2	Human Services
27398	Information and Digital Technology (Examination)	2	Information and Digital Technology
15232	Mathematics Standard 1 (Examination)	2	Mathematics
26899	Primary Industries (Examination)	2	Primary Industries
26999	Retail Services (Examination)	2	Retail Services
27499	Tourism, Travel and Events (Examination)	2	Tourism, Travel and Events

Board Endorsed courses

NESA endorses a range of other courses offered by schools and VET providers. However, these courses cannot be included in the calculation of your ATAR. For more information, search for 'Board Endorsed courses' on the NESA website.

Notes

1. You can study both Ancient History and Modern History, but there is only one History Extension course. It is considered a course within the subject of either Modern History or Ancient History.
2. The unit value of this course changes depending on whether the course is taken in combination with Mathematics Advanced or Mathematics Extension 2.
3. You must study Music 2 if you wish to study Music Extension.
4. You can study more than one science course but there is only one Science Extension course. It is considered a course within one of the following subject areas: Biology, Chemistry, Earth and Environmental Science, Investigating Science, Physics.
5. You can study either Studies of Religion I or Studies of Religion II, but not both.
6. You can study only one of the following languages: Croatian Continuers, Macedonian Continuers, Serbian Continuers.
7. An optional HSC written examination in Category B courses is offered to eligible students. Subject to ATAR rules, you must undertake the optional written examination to have the results from this course available for inclusion in the calculation of your ATAR. Check with your school or the NESA website at educationstandards.nsw.edu.au for more information.

For interstate Year 12 and International Baccalaureate (IB) comparable courses, visit uac.edu.au/year12-quals.

Glossary

Here are definitions of many of the terms and abbreviations used by UAC and tertiary institutions. Knowing these terms will help you understand the tertiary admissions process.

Academic record (see Transcript)

Academic year

The part of the year when classes are held at a university. The academic year usually starts in February/March when classes begin, and ends with the examination period in November/December. It may comprise two semesters or three terms/trimesters. Some institutions also have an additional study period from December to February.

Additional selection criteria

Compulsory or optional requirements, either in addition to or instead of admission criteria such as the ATAR, which you must meet to be considered for selection into a course.

Examples include a personal statement, a questionnaire, a portfolio of work, an audition, an interview or a test. If a course has additional selection criteria, it is specified in the course description.

Adjustment factors

Factors that institutions consider in order to increase your selection rank for a particular course (eg achievement in an HSC course related to your preferred degree or eligibility for the Educational Access Scheme). They do not change your ATAR.

Admission criteria

The minimum qualifications required for you to be considered for entry to a particular course. You then need to compete against other applicants who also meet the admission criteria.

Admissions period

The period when applications are open for tertiary study. Applications through UAC open in April.

Advanced diploma

An award requiring two or three years of full-time, or equivalent part-time, study. This is the highest of the undergraduate diploma awards.

Apply direct institution

An institution that lists its courses through UAC but which manages its own admissions. UAC does not process applications for these institutions; students apply directly to the institution.

Areas of study

Areas of study within a course, which may consist of a sequence of subjects/units in a single discipline (generally studied throughout the course as major areas of study or specialisations or sub-majors) or additional or supporting subjects or units.

For details of areas of study offered in a course, read the course description on the [UAC website](#).

Associate degree

An award requiring two years of full-time, or equivalent part-time, study. It equates to the first two years of a designated three-year degree course.

Associate diploma

An award requiring two years of full-time, or equivalent part-time, study.

Assumed knowledge (see also Prerequisites)

Some institutions assume you have knowledge of specified NSW HSC courses or equivalent before beginning your course. If you do not have the assumed level of knowledge but have met the admission requirements, you can still be selected for the course but you may have some difficulty coping with your studies. Bridging courses may be recommended for some students who do not have the assumed level of knowledge. If an institution recommends assumed knowledge for a course, it is specified in the course description on the UAC website.

Australian Qualifications Framework (AQF)

A national policy for qualifications in the school, vocational education and training (VET) and higher education sectors in Australia. All AQF qualifications are quality assured.

Australian Tertiary Admission Rank (ATAR)

A measure of academic achievement in the HSC that helps institutions rank applicants for selection to tertiary courses. The ATAR is a rank, not a mark.

ATAR courses

Board developed courses for which the NSW Education Standards Authority (NESA) conducts examinations that yield graded assessments. Classified as Category A courses or Category B courses, these are the only courses that can be included in the ATAR calculations.

Bachelor degree

An award requiring three or four years of full-time, or equivalent part-time, study.

Bridging courses

Courses that enable you to achieve the required level of assumed knowledge. The inclusion of one or more of these courses (also called introductory courses) in the first-year program, however, could prevent you from completing your course in the minimum time.

Combined/double/dual degrees

Degrees structured to allow students to complete two degrees in less time than would be taken if the two degrees were studied sequentially.

Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS)

A register of all Australian educational providers and their courses offered to students studying in Australia on student visas.

Commonwealth-supported place (CSP)

A place in a course to which the Australian Government contributes towards the cost, and the student pays a student contribution.

Deferment

Permission to delay starting a course, usually for one year. Refer to each institution's entry for deferment information specific to that institution.

Diploma

An undergraduate award that usually places more emphasis on practical skills than on theoretical content. Also a postgraduate award requiring one year of full-time, or equivalent part-time, postgraduate study.

Distance education

A form of full-time or part-time study that takes place outside the institution, either at a study centre, online or at home by correspondence. Periodic residential attendance at on-campus sessions is usually required.

Domestic fee-paying (DFEE) course

A course not subsidised by the Australian Government; the student meets the entire cost of their studies through tuition fees.

Education Services for Overseas Students (ESOS) framework

A combination of the ESOS Act, associated legislation and a National Code that protects the interests of students studying in Australia on student visas. Regulated by the Australian Government Department of Education, it provides tuition and financial assurance and ensures there is a nationally consistent approach to registering education providers so that the quality of the tuition and services offered to students remains high.

Educational Access Scheme (EAS)

A scheme for university applicants who have experienced educational disadvantage due to circumstances beyond their control or choosing.

Enrolment

Formal registration as a student at an institution after receiving and accepting an offer. Each institution has its own enrolment procedures. Successful applicants will receive enrolment details with their offer.

Equity Scholarships (ES)

Scholarships offered by institutions to help financially disadvantaged students with the costs of higher education.

Exclusion

A decision by an institution to exclude a student from continuing their study at that institution, usually because they have breached a regulation, such as failure in their program of study. In most cases they may reapply for admission to the course/institution after a set period of time from the date of exclusion (usually one or two years).

Faculty

A department within a university in a particular area of study, such as arts, law, engineering or medicine.

FEE-HELP

A loan for eligible fee-paying students to pay their tuition fees.

Fee-paying students

Students who meet the entire cost of their studies through tuition fees. They can be domestic or international students.

Graduate

A person who has received a degree or diploma.

HECS-HELP

A loan for eligible Commonwealth-supported students to pay their student contributions.

Higher Education Loan Program (HELP) *(see also FEE-HELP, HECS-HELP and VET Student Loans)*

A loan program available to Australian citizens, holders of Australian permanent humanitarian visas and New Zealand citizens who are Special Category Visa (SCV) holders (and meet the requisite criteria) to enable them to pay their student contributions or tuition fees or their overseas study expenses. Loans are repaid later through the taxation system once income has reached a certain level.

Honours

In a three-year undergraduate course (or part-time equivalent), honours is an additional year of study to meritorious students. In a four- or five-year course, honours is awarded on the basis of superior performance in the course.

Institution

A provider of tertiary study, such as a university or a college. UAC's participating institutions are those for which you apply through UAC.

International fee-paying students (IFEE)

Students who are not Australian or New Zealand citizens or permanent residents of Australia and who meet the entire cost of their studies through tuition fees.

Lowest ATAR

The lowest ATAR of an applicant to receive an offer to a course. Lowest ATARs can only be determined when offers are made each year.

Lowest selection rank

The minimum selection rank required for selection into a course. Lowest selection ranks published in this Guide are from semester 1, 2023. They are intended to be used as a guide only and are supplied to help you assess your chances of getting into a particular course and decide on your preferences.

The lowest selection ranks can only be determined when offers are made each year.

Moderation

A process undertaken by NESA to remove differences between how schools assess their students. It involves the comparison of school-based assessment marks with state-wide examination marks and their alignment to course standards to produce an assessment mark for each student.

Non-award program

A course of study that acts as a pathway into a bachelor degree. It allows students to study individual units (subjects) that, when successfully completed, can enable entry into a degree course.

Non-standard Year 12 applicant

An applicant who is completing a Year 12 program through Australian Christian Education, Rudolph Steiner Education, home schooling or the Queensland Senior External Examination.

NSW Education Standards Authority (NESA)

The body that sets the core curriculum for Kindergarten to Year 12 for government and non-government schools in NSW; sets guidelines for school assessment tasks and sets, organises and marks the HSC examinations; and sustains and improves the standards of achievement in NSW schools.

Open days

Days set aside by an institution for prospective students to visit their campus, view their facilities and meet academic staff and students.

Overseas Student Health Cover (OSHC)

Compulsory health insurance for international students studying on a student visa in Australia to cover any costs for medical and hospital care. Students must purchase an approved OSHC policy before enrolment.

Participating institution

An institution that lists its courses through UAC. UAC manages its admissions process, including applications and offers.

Pathway courses

Non-degree courses – such as foundation studies, preparatory courses and certificates, diplomas or associate degrees – offered by institutions to applicants who don't meet the entry requirements for their degree course or need further support and preparation before studying at degree level. Some institutions offer pathway courses through UAC – read the 'Admission criteria' section and the institution entries at uac.edu.au/institutions for details.

Percentile

Calculating percentiles is part of the process of calculating ATARs. The percentile indicates a student's position in a course against other students. For example, a student in the 73rd percentile is in the top 27 per cent of students in that course.

Postgraduate courses

These are courses usually available only to people who have qualified for an appropriate first degree or diploma. They are not available to school leavers. They include:

- graduate/postgraduate certificates
- graduate/postgraduate diplomas
- postgraduate degrees such as masters or doctorates.

Practical experience

A requirement of some courses, it involves supervised practice that takes place in an approved workplace and helps students develop skills relevant to their area of study. It may be undertaken during a semester or in semester breaks and can vary from regular one-day placements to block periods of several weeks. Costs may be involved, such as instruments, uniform, accommodation or travel. Courses requiring practical experience will list it in the course description.

Preparation courses

Courses offered by most institutions, including TAFE colleges (ie Certificate IV in Tertiary Preparation), as a preparation for further study. They are usually undertaken by students with insufficient formal entry qualifications, or those who have not participated in formal education for some time.

Prerequisites (see *also* Assumed knowledge)

Year 12 courses that must be completed in order to be considered for admission to certain tertiary courses. Some tertiary courses require applicants to have completed a specific HSC course or equivalent before they will be offered a place in those courses (course prerequisites). Some subjects within a tertiary course require applicants to have completed a specific HSC course or equivalent before they are able to enrol in those particular subjects (subject prerequisites).

Professional recognition

A course that has been approved by a professional body, which enables graduates to apply for membership and/or registration to practise in the profession.

Recommended studies

NSW HSC or equivalent courses that the institutions suggest will help students in their chosen university course. However, if they haven't studied these courses their chances of selection are not affected. If a course has recommended studies they are specified in the course description.

Record of failure

Appears on a student's academic record due to withdrawing from a course or a single unit where that withdrawal is counted as a failure, or where the student has failed to satisfy the assessment requirements for one or more units.

Scaling

The first step in calculating the ATAR. It enables the many different courses taken by students to be compared fairly.

The scaling process is designed to encourage students to take courses for which they are best suited and which best prepare them for future studies. The underlying principle is that you should be neither advantaged nor disadvantaged by choosing one HSC course over another. The scaling algorithm estimates what your marks would have been if all courses had been studied by all students.

Scaling modifies the mean, the standard deviation and the maximum mark in each course. Adjustments are then made to the marks of individual students to produce scaled marks. Although scaled marks are generally different from the raw marks from which they are derived, the ranking of students within a course is not changed.

Schools Recommendation Scheme (SRS)

A scheme that enables institutions to make early offers of undergraduate admission to Year 12 students. They do this by using criteria other than (or in addition to) the ATAR (mainly school recommendations and senior secondary studies results). SRS is processed through UAC.

Although most institutions make early offers of undergraduate admission under SRS, institutions have their own policies on determining SRS eligibility and making offers.

Semester

The division of the academic year into study periods. Students can start courses at the beginning of the first and, in some cases, second semester. Some institutions call their study periods 'autumn' and 'spring' semesters. Others use the terms 'session' or 'half-year'. Some institutions have trimesters or terms, with an additional study period over summer.

Slipback offer

An offer to a lower level of study than you applied for. For example, if you applied for a bachelor degree and the institution decides that, while you are not eligible and competitive enough for entry to the bachelor degree, you are eligible for a lower level of study (such as a diploma), the institution makes you an offer to the lower level.

Special requirements and policies

Special requirements and policies apply to students in health- and welfare-related courses and teacher education courses.

These requirements relate to:

- clinical/internship placements undertaken as part of your course
- proof of English language proficiency
- accreditation and procedures for employment after you have completed the course.

Note that requirements and policies in these areas are subject to regular review.

Student contribution

The amount that Commonwealth-supported students must pay towards their study costs. This amount is determined by each institution, although the Australian Government sets the maximum contribution a student can be asked to pay, depending on their area of study.

Student Services and Amenities Fee (SSAF)

Supports the delivery of student services, including counselling, employment, orientation, career advice, child care, financial advice, health services, food services, sporting and recreational activities, student advocacy and legal services. The maximum SSAF amount chargeable is determined by the Australian Government.

Students studying on a part-time basis cannot be charged more than 75 per cent of the maximum amount that students studying on a full-time basis are charged.

Tertiary Education Quality and Standards Agency (TEQSA)

Regulates and assures the quality of Australia's higher education sector. TEQSA also maintains the National Register of Higher Education Providers. The register includes information on whether higher education institutions are self-accrediting or non self-accrediting and the courses they are accredited to deliver.

Transcript

An official copy of a student's complete academic record at a post-secondary or tertiary institution, issued by the institution.

Tuition fee

The amount that domestic fee-paying students or international students must pay for their course. Tuition fees are determined by each institution.

Undergraduate course

A course leading to a first qualification, namely a bachelor degree, an associate degree, an associate diploma or a diploma.

Unique Student Identifier (USI)

A government-issued student reference number that you keep with you for life. You need it to apply through UAC, enrol at an institution and receive Commonwealth financial assistance, including HECS-HELP and FEE-HELP.

Universities Admissions Centre (UAC)

The central office that receives and processes applications for admission to most undergraduate courses at its participating institutions as well as applications for the Educational Access Scheme, Schools Recommendation Scheme and Equity Scholarships. UAC notifies NSW HSC students of their ATAR (ACT students are notified by their school) and makes offers of admission on behalf of participating institutions. It also processes applications for postgraduate courses.

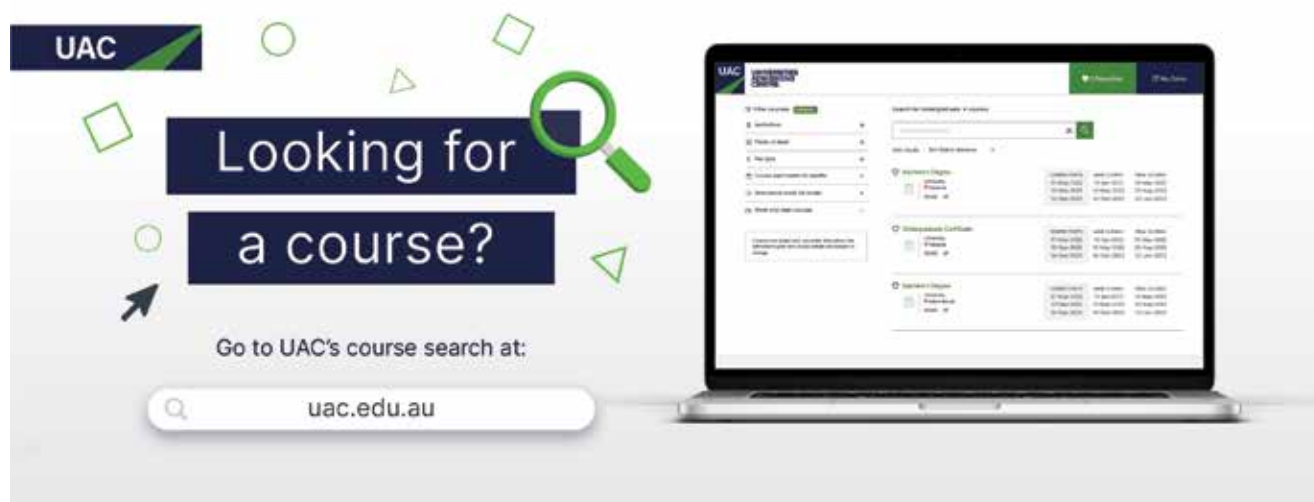

As a private company owned by universities in NSW and the ACT and a registered charity, UAC aims to provide excellence in admissions services and promote equity of access to tertiary education.

VET Student Loans

A loan for eligible fee-paying students studying higher level vocational education and training (VET) qualifications to pay their tuition fees.

Year 12 applicant

A student who is sitting one or more units of Year 12 in Australia or outside Australia (except Queensland Year 12 external students) or sitting the International Baccalaureate in Australia in 2023. Also referred to as a 2023 Year 12 or current Year 12 applicant.

Part 2:

Sydney Institute of Business and Technology	117		
Southern Cross University	119		

Introduction

Part 2 contains general information about each of UAC's participating institutions, including:

- an overview of the adjustment factors they will consider when determining your selection rank for a particular course
- any early offer schemes available to you
- a list of the courses to be offered through UAC in semester 1, 2024.

Comprehensive information about each institution's admission criteria, access schemes and equity scholarships is available at uac.edu.au/institutions.

Full course descriptions will be published on the [UAC website](#) when details have been confirmed. All course descriptions will be published by August 2023. Institutions may change, cancel or add courses throughout the admissions period, so check the course search on [UAC's website](#) before you finalise your preferences.

Reading the course lists

Course name

B	= Bachelor
M	= Master
Dip	= Diploma
AdvDip	= Advanced Diploma
AssocDeg	= Associate Degree

Fee type

The fee type indicates how much domestic students pay towards the cost of the course. The two main types of courses are:

CSP	= Commonwealth-supported place (subsidised by the Australian Government)
DFEE	= domestic fee-paying (not subsidised – you pay the full cost of the course)

A small number of courses are:

- ADF: student contribution paid by the Australian Defence Force
- C3F: three years Commonwealth-supported, fourth year fee-paying
- CBF: a combination of CSP and DFEE (ie bachelor program is CSP, masters program is DFEE)
- ENA: Commonwealth-supported and student contribution exempt
- OTH: domestic fee-paying with no government loan scheme for students
- VET: domestic fee-paying with VET Student Loans for eligible students.

All international students pay the full cost of their course. For more information, read '[Course costs and financial assistance](#)'.

Course code

This is the code used in the UAC application and in the course search on the [UAC website](#).

Duration

3F	= 3 years of full-time study
6P	= 6 years of part-time study
3F/EqP	= 3 years of full-time or equivalent part-time study
D	= Distance or online

Prev LSR

Prev LSR = previous lowest selection rank for domestic applicants in the main offer round for Year 12 students (December Round 2, 2022 and January Round 1, 2023). The lowest selection rank is determined by the interaction of three factors:

- 1 the number of places available in the course
- 2 the number of applicants for the course
- 3 the quality of those applicants.

Lowest selection ranks include any increases made as a result of adjustment factors (see below), so many applicants will have received an offer to that course even though their ATAR was below the lowest selection rank.

N/A	= not applicable: selection not based on the ATAR; or the course is not offered to current Year 12 applicants; or no offers were made to Year 12 applicants in these rounds
new	= new course offered through UAC

Selection rank adjustments

When determining your selection rank for a course, institutions often take other factors into consideration in addition to your ATAR. This means that your selection rank for that course will be adjusted and will be higher than your ATAR.

Factors that can increase your selection rank include high achievement in specified HSC courses relevant to your preferred course, living in or attending school in an area defined by the institution, or assessment of your Educational Access Schemes (EAS) application.

As selection rank adjustments are course specific, your selection rank can be different for each of your course preferences. Read more about selection rank adjustments in '[Admission and selection](#)'.

Avail INT

Avail INT = available to international students through UAC. Where this column does not appear, international applicants cannot apply through UAC. Check the institution websites for details of all courses offered to international students.

Studying at Academy of Interactive Technology

Creatives see the world differently!

Are you ready to unleash your potential and be on your way to a creative career in film, animation, games, 3D animation, or mobile app development?

For 25 years, AIT has delivered progressive education in interactive media, animation, film, gaming, design and information technology. We replicate the studio and cloud work environments of your favourite tech-makers, with all our programs using the technology and software the professionals use. Many professional studios have even had a hand in designing our programs, so they're as authentic as possible.

Most of our teachers are industry practitioners, and we expose you to as many different professionals as we can find; to assess your portfolio items, work with you on internships, mentor you, and share their experience with you at master talks, industry events and awards nights. We have a close affiliation with partners such as Unreal Engine, Toon Boom, Wacom, Adobe, the Australian Computer Society, the Australian Production Design Guild, the Australian Screen & Sound Guild, the Australian Cinematographers Society, the Australian Writers Guild and many more.

So if you're dreaming of gaining a bachelor degree or diploma in film, 2D animation, 3D animation, mobile app development, games design and games programming, and ultimately taking your place in the expanding interactive media sector, come and talk to us so we can get that network started for you.

What's the campus like?

AIT has two campuses. Our Sydney campus is in a funky old warehouse in Ultimo, surrounded by gaming studios and start-ups. Our Melbourne campus is conveniently located opposite Southern Cross Station, with a tram stop at our door and sweeping views across Melbourne. We've got industry-standard equipment and the latest industry software installed on every computer, as well as a state-of-the-art post-production studio and green screen room.

Our classes are small, so we can personally guide you based on your skill level and experience. We pride ourselves on knowing you by name and taking the time to invest in your creative aspirations. We also have a 'cloud campus' that allows you to learn online from wherever you feel most inspired, just like they do in the work world of your future.

What are the classes like?

This is where you'll meet like-minded people and create amazing things together. We ensure you consistently produce work, gradually building your practical skills and learning to problem-solve within a close-knit team of fellow creatives.

We give you all the knowledge and skills you need to succeed, from mastering tech to storytelling and presentation skills and more.

Tell stories, create worlds at AIT.

Studying at AIE Institute

AIE Institute is a specialist game development higher education provider that offers a Bachelor of Game Development with three separate majors in game art, game design and game programming. AIE Institute provides students with real avenues to employment and further studies through innovative programs that combine current knowledge and role-based learning within a project-based professional environment.

AIE Institute's programs mirror the practices, workflows and standards of the game development industry. Diverse teams with a range of skills collaborate to create, innovate, respond to challenges and develop new digital experiences. Developed in conjunction with Australia's leading game studios, AIE Institute degree programs are continuously reviewed in close consultation with industry and delivered by industry-experienced faculty.

AIE Institute builds upon the Academy of Interactive Entertainment's history as Australia's most awarded 3D animation, game development, film and visual effects educator. Created in 1996 as a vocational non-profit organisation to grow the creative digital sector, the Academy of Interactive Entertainment pioneered the development of specialist game qualifications. Academy graduates can be found working at top studios around the world.

AIE Institute has leveraged the best aspects of the Academy of Interactive Entertainment's focus on practical skills and industry relevance and applied the academic rigour of higher education. AIE Institute empowers students to be active learners and creators ready for the career opportunities of tomorrow.

International Year 12 students apply directly to AIE Institute.

Aboriginal and Torres Strait Islander applicants

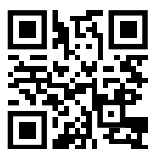

AIE Institute provides an annual scholarship for Aboriginal and Torres Strait Islander students studying in the discipline of game development. For more information, visit aieinstitute.edu.au/apply-to-study/scholarships.

Studying at Asia Pacific International College

At APIC we meet the needs and aspirations of individuals, and of organisations that seek to employ the best available talent. The next decade will see dramatic changes in how we work, and APIC courses are designed to prepare students to meet the challenges that this rapid evolution will pose.

At APIC, we equip students with key skills for lifelong success by providing transformational learning experiences that are active, collaborative and applied.

APIC curriculum is underpinned by core professional competencies related to professional and ethical behaviour and communication. In a world where the only certainty is change, investing in an education that prepares you to be innovative and flexible is essential. Beyond the impact on the individual, education is a positive force for development that is crucial to the future of all organisations, communities and countries.

Why should you choose APIC? The answer is simple: APIC offers many opportunities that support students to realise their talent and achieve their goals. We aim to build our students' capabilities so that they can thrive in a rapidly changing and globalised world. At APIC, you will learn to be self-directed, professional, confident and competent.

APIC offers flexible payment options, including payment plans, as well as access to FEE-HELP and scholarships.

Thank you for considering APIC. We are committed to working with you on your educational journey.

Studying at Australian Catholic University

An ACU education builds on the Catholic understanding of faith and reason working together in pursuit of knowledge and promotion of human dignity and the common good.

An ACU education seeks to transform lives and communities. Students are challenged to look beyond the classroom, solve real world problems, develop their own search for meaning, and cultivate strong professional ethics. They are invited to stand up for people in need and causes that matter.

ACU is open to all. As is common with great Catholic institutions the world over, the university is inclusive and supportive of everyone, every day – regardless of their faith or tradition.

ACU is a young university making a serious impact. Ranked in the top two per cent of universities worldwide¹ and in the top 10 Catholic universities², ACU is also first in Australia for graduate employment³. The university has seven campuses around Australia, a campus in Rome, Italy, and an online campus – ACU Online.

Opportunities for personal and professional growth are critical to ACU. This is a university of service – so much so that it is built into the curricula. All ACU courses offer work placements, internships, or volunteering opportunities.

- ¹ *Times Higher Education World University Rankings 2023. Percentage calculated as ACU's world rank as a proportion of the total number of universities in the world: International Handbook of Universities 2019, Palgrave MacMillan.*
- ² *International Federation of Catholic Universities members ranked on Times Higher Education World University Rankings 2023*
- ³ *Graduate Outcomes Survey – Longitudinal 2022, medium-term, full-time employment 2020–2022 for domestic undergraduate students*

Aboriginal and Torres Strait Islander applicants

If you are an Aboriginal or Torres Strait Islander applicant and apply for entry to an ACU course, you may be eligible for our Aboriginal and Torres Strait Islander Admission Process. Through the process you will meet with a member of the Indigenous Higher Education Unit and a faculty representative.

Your potential to undertake study will be based upon any of your formal qualifications, life experiences and achievements. Applications for most courses are made through UAC.

Selection rank adjustments

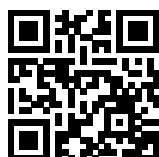

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

ACU may award **up to 12 adjustment points** in total across the following categories. For details, search for 'adjustment factors' on the [ACU website](#).

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC. For details, go to uac.edu.au/eas
Location adjustments For students who attend schools or live in areas identified by ACU's programs	Schools Relationship Program / Campus Program / Regional Schools Program ■ Automatically applied To find out if you're eligible, search for 'adjustment factors' at acu.edu.au
Elite athlete and performer adjustments For athletes who compete at – and performers who have had success at – a state, national or international level	Elite Athlete and Performer Program ■ Apply through UAC then submit a direct application to ACU: search for 'Elite Athlete and Performer Program' at acu.edu.au
Subject adjustments For students with outstanding achievement in subjects relevant to ACU course preferences	ACU Subject Program ■ Automatically applied

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
ACU Guarantee	Guarantee your place at ACU, even before your Year 12 exams. The ACU Guarantee program offers eligible Year 12 students a place at ACU based on their Year 11 results. Offers may be made as early as September. Successful applicants must still complete their Year 12 exams and can do so secure in the knowledge that their Year 11 marks meet our entry requirements. You may also enhance your entry score by including a short personal statement that gives ACU an insight into your achievements and aspirations. Applications are made through ACU's website. For more information and to register your interest, visit acu.edu.au/study-at-acu/admission-pathways/acu-guarantee

For the latest course information and detailed admission criteria visit uac.edu.au/acu

Studying at Australian College of Applied Professions

ACAP is a specialised tertiary education institute offering in-person learning on campuses around Australia, as well as effective online learning. A deep understanding of human behaviour and a desire to contribute to the social wellbeing of society resonates throughout ACAP's courses in psychology, counselling, social work, criminology, coaching and management.

Established in 1983, ACAP has educated more than 20,000 graduates who have studied on campus, online or by blended delivery. ACAP courses prepare students from diverse backgrounds for rewarding professions working with people in the community. There are also pathway options to further study to suit students' priorities and career aspirations.

Why do students choose ACAP?

Our approach to teaching in the specialist field of human behaviour is what truly sets us apart.

Our academic staff have extensive experience both as teachers and practitioners, with a breadth of research interests.

Our small class sizes allow for in-depth discussion, a high level of support and the opportunity to ask questions, all of which help students achieve success.

Student placements, another advantage of studying at ACAP, help prepare students for professional practice after graduation. In courses with placement included, students have the opportunity to apply theory in a professional workplace for a set period of time, gaining essential real-life experience in their chosen field. Our courses are also professionally accredited.

Scholarships

Each year, ACAP offers a range of scholarships to help students pay part or all of their tuition fees.

For more information, visit

acap.edu.au/pages/fees-payments/scholarships/.

International Year 12 students apply directly to ACAP.

For the latest course information and detailed admission criteria visit uac.edu.au/acap

Studying at Australian College of Physical Education

Excellence in sport education since 1917

ACPE is Australia's leading specialist independent higher education provider with more than 105 years of excellence in sport, health, education, dance and football.

We outshine our counterparts based on the Australian Government-endorsed Quality Indicators of Learning and Teaching (QILT) Student Experience Survey (2021). This is important because it tells you what our current students have said about their experiences at ACPE.

Compared to other universities and education providers, in 2021, ACPE was rated in the top 15 for the overall quality of the student experience. We achieved a 94.4 per cent rating for teaching quality, 88.5 per cent for the quality of the overall student experience, and 92.9 per cent for student support, making ACPE the leading provider of sport, health and dance courses.

Located at Sydney Olympic Park, we are surrounded by sport organisations and industry partners presenting opportunities at our doorstep. Why go anywhere else?

Changing the game for you

Our degrees are co-designed and delivered by industry experts to ensure they are current and relevant. This is evident from the outstanding overall employment rate of 89.5 per cent and the 100 per cent employment rate for Education graduates. Our students are in demand.

ACPE is also home to the Liverpool FC International Academy Australia, where students become accredited coaches. We are proud to have Australia's first Bachelor of Football (Development, Management and Performance), together with an associate degree and a diploma that covers all football codes.

Gain entry into ACPE

Entry into ACPE is not dependent on your ATAR. We also have a range of scholarships available for undergraduate students and our courses are FEE-HELP approved.

For more on all you need to know about applying to ACPE, visit acpe.edu.au/admissions/entry-requirements/

At ACPE you will never be just a number. It's a place where you can enjoy being you, where your achievements are celebrated, and everyone works to help you succeed. We know our approach works and our students have loved being a part of it since 1917. We look forward to welcoming you into our ACPE family!

Aboriginal and Torres Strait Islander applicants

The ACPE Aboriginal and Torres Strait Islander Scholarship supports new students who have an Aboriginal or Torres Strait Islander background.

International Year 12 students apply directly to ACPE.

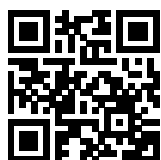

Selection rank adjustments

ACPE courses do not have an ATAR requirement. However, ACPE will consider equity factors and achievements when assessing your application.

Studying at Australian National University

At ANU in Canberra you'll be part of a talented community of original thinkers from around the globe. Learning in small classes with renowned teachers and world-class researchers, you'll build exceptional knowledge and skills for a range of rewarding careers.

We offer 599 flexible double degree combinations and 50 single degrees – and internships with industry that are unique to the national capital. At ANU, you can also study abroad while gaining credit towards your degree.

Our campus is a diverse and vibrant community of 200-plus clubs and societies, with medical, counselling, mentoring and security services to help you thrive. In fact, there is nothing quite like campus life at ANU. The friendships you'll make will last a lifetime – and if you choose to live in one of our student residences, you'll have Canberra's CBD, your classes and much more right on your doorstep.

As a Year 12 school leaver, you can apply for admission, campus accommodation and scholarships in one direct application. This could see you receive an offer from ANU for study in 2024 as early as September 2023. Direct applications open on 1 March and close 15 May 2023.

Find out more about applying to study at ANU:

- Talk to your careers adviser and start your direct application at apply-asa.anu.edu.au/anu/.
- Find the right degree for you at anu.edu.au/study/apply.

Welcome to your place. ANU. Australia's #1 university (QS World University Rankings 2023).

Aboriginal and Torres Strait Islander applicants

We acknowledge the pressures that may prevent Indigenous Australians from accessing educational opportunities. At ANU, we are committed to the advancement of Australia's Indigenous people.

As an Australian Aboriginal or Torres Strait Islander student, you are eligible for priority admission. This means that if you

meet the admission criteria for your ANU program of choice and declare your Indigenous heritage, you will be given preference. You may also be eligible for the selection rank adjustments listed below.

For details about entry schemes, scholarships and accommodation, go to anu.edu.au/study/apply/access-for-indigenous-students.

Selection rank adjustments

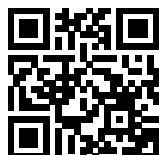

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [pages 25](#) for an explanation of how selection rank adjustments work.

ANU may award **up to 15 adjustment points** in total across the following categories. For details, search for 'ANU adjustment factors' on the [ANU website](#).

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) <ul style="list-style-type: none"> ■ Submit an EAS application via UAC ■ Must achieve a min. ATAR of 70.00 For details, go to uac.edu.au/eas
Location adjustments For students who attend a Regional Partnership School	Regional Partnership Schools <ul style="list-style-type: none"> ■ Automatically applied ■ Must achieve a min. ATAR of 70.00 For details of partnership schools, search for 'National Access Scheme' at anu.edu.au
Elite athlete and performer adjustments For students who are elite athletes or who have achieved Music AMEB Grade 8	Elite athletes <ul style="list-style-type: none"> ■ Submit supporting documents to ANU: for details, search for 'Elite Athlete Entry Scheme' at anu.edu.au ■ Must achieve a min. ATAR of 70.00 Performers <ul style="list-style-type: none"> ■ Submit a scanned copy of your AMEB certificate to domestic.admissions@anu.edu.au and include your university application number ■ Must achieve a min. ATAR of 70.00
Subject adjustments For students who achieve the required results in selected Year 12 subjects	National Access Scheme <ul style="list-style-type: none"> ■ Automatically applied ■ Must achieve a min. ATAR of 70.00 For details of specific Year 12 courses and required results, search for 'National Access Scheme' at anu.edu.au

Early offer schemes

Direct application early admission	Important dates Applications open: 1 March 2023 Applications close: 15 May 2023 Early offers released: 4 September 2023 (Early offers are based on your ANU selection rank. This is calculated using a mathematical model incorporating your Year 11 results and your school's average ATAR performance in previous years.) First unconditional offers released: Late December

Australian National University

ANU offers Flexible Double Degrees that allow you to choose from hundreds of possible combinations across three groups:

1. Arts, Social Sciences, Business and Science (4 years)
2. Engineering and Advanced Computing (5 years)
3. Law (5 years)

From these three groups, you can combine any two courses for which you meet the published selection rank. The previous LSR indicated against each group at the end of the following course list was the lowest selection rank for the group. The actual selection rank may have been higher depending on the double degree combination because the program-specific selection ranks still applied.

For more information, visit anu.edu.au.

Semester 2

starts Monday 8 July 2024

Studying at Charles Darwin University

Whether you're looking to study 100 per cent online or build lifelong connections with a tight-knit campus community – including at our central Sydney campus – there's a place for you at CDU.

Join a connected university that's ranked in the top 5 in Australia for undergraduate employment outcomes (Good Universities Guide 2023) and graduate industry-ready with a salary to match.

Connect your passion to a profession and choose from more than 100 undergraduate and postgraduate degrees, including nursing, midwifery, law, environmental science, sustainable business, First Nations knowledges and emergency and disaster management, as well as highly specialised courses in health, technology and more.

We believe you make CDU

At CDU, we recognise that every connection creates opportunities. We are a university that thinks differently. We act with openness and kindness, and we have the courage to change and challenge conventions. We foster a culture where innovation flourishes, and we're about what you can give to the world, rather than what you can take.

Positive change will be created by people like you. Your diverse background will help us break new ground and your fresh perspective is what we're looking for. We believe the unique experiences, perspectives and opinions you bring help make us the highly ranked and flexible university we are.

Connect your lifestyle with your learning

Studying at CDU means you'll have the flexibility to connect to your classes and schedule university around your home and work commitments.

We've been delivering online and distance education for more than 30 years and offer flexible degrees, so you don't have to put your life on hold.

Most degrees are offered 100 per cent online or on campus, part-time or full-time, and you can switch between these options during your degree.

Our lecturers and staff know how to support you from a distance. You'll also have access to an easy-to-use online study platform powered by world-class technology and 24/7 technical support.

Personalised support

Whether you study online or on campus, you'll be more than just a student number. We offer small class sizes and our lecturers, tutors and student support teams are never more than a phone call, email or appointment away. Rest assured, they'll work hard to get to know you and support your study goals.

You'll also have access to free academic skills programs and career advice, as well as an online and on-campus library.

We have dedicated support services for First Nations students and students with a disability and/or a health condition.

Pathways to study

We believe it's the experiences you bring to university that make you a great student. For those without an ATAR, we offer entry qualification pathways into university.

Our Tertiary Enabling Program can be studied online or on campus, full-time or part-time. In just 16 weeks you'll meet the entry requirements to most undergraduate degrees at CDU.

Visit cdu.edu.au/study/pathway-courses.

Aboriginal and Torres Strait Islander applicants

We value and respect the place, history and culture of First Nations people. We're all about bringing people together for the future prosperity of Australia's First Nations peoples and the betterment of all Australians.

Our dedicated team provides high-level admissions and academic support to First Nations students, as well as pastoral care, advocacy and referrals to mainstream CDU support services.

Aboriginal and Torres Strait Islander students who don't meet minimum entry requirements for our undergraduate degrees are encouraged to consider an enabling program, such as our First Nations Introduction to University Program or Tertiary Enabling Program.

Visit cdu.edu.au/first-nations-leadership.

Selection rank adjustments

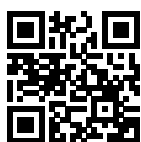

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

CDU may award **up to 4 adjustment points** in total. For details, search for 'pathways to study' on the [CDU website](#).

Equity adjustments	None
Location adjustments	None

Studying at Charles Sturt University

When you join Charles Sturt University, you'll make connections for life. Our university is grounded in the qualities we draw from our regional roots – our sense of community, our will for hard work and our resilience when times get tough. Yindyamarra winhanganha – the wisdom of respectfully knowing how to live well in a world worth living in – is at the heart of everything we stand for at Charles Sturt. When you study with us, you are joining a community that's committed to changing things for the better.

From the friends you make to the inspirational lecturers and tutors who spark your interest, it's an experience you'll never forget. We know what it takes to help you develop the right skills to make a real difference. That's why we're Australia's top university for graduate employment – and have been for six years (QILT Graduate Outcomes Survey 2022). So, when you graduate with a degree from Charles Sturt, you'll be the sought-after person employers are looking for – a job-ready professional, ready to hit the ground running from day one.

Hands-on learning is at the heart of your degree. Live, breathe and practise your career in world-class facilities with expert academics and on work placements with employers. And become the best nurse, teacher, data analyst, social worker, environmental scientist – or whichever role fires your imagination – that you can be. Our facilities are some of the best in the world and will allow you to learn in real-world scenarios. You can learn on our global digital farm, in our simulation ambulance and hospital wards, fully functioning newsroom and radio station, or at our ecologically significant wetlands. Our strong connections with industry also mean that you could have the opportunity to do work experience and cadetships with companies who are pioneers in their space – all while getting credit for your course and that real-world experience that employers seek.

The world is changing, and we're looking for changemakers like you who want to use their ability, knowledge and innovation to make our world a better place to live for future generations. When you study with Charles Sturt, you'll work alongside academics whose research contributes solutions to real-world problems. And we've partnered with leading

organisations, including IBM, Axiom Connected, Marathon Health and Transgrid, to address regional issues and open doors to evolving careers for students just like you.

We believe in making a difference with our actions, which is why we are Australia's first carbon neutral university (National Carbon Offset Standard). Plus, we're in the top 2 per cent of universities worldwide for climate action (Times Higher Education Impact Rankings 2022). And because we've integrated sustainability into our undergraduate courses, you'll make real and lasting changes – whichever degree you choose.

So, together, let's create a world worth living in.

Undergraduate certificates

Want to get a taste of a course before committing to a full bachelor degree? Our undergraduate certificates have you covered. It's the ideal stepping stone to further study, and you can transition to a related bachelor degree with credit for the subjects you've completed. For details, visit engage.csu.edu.au/undergrad-certificates.

Scholarships, grants and financial assistance

You want the best education, but it's got to be affordable. We get that. That's why we offer more than \$5 million in scholarships and grants – to make studying that little bit easier for students just like you. There are plenty of scholarships available, you just have to be in it to win it. Browse our full range of scholarships at study.csu.edu.au/scholarships.

Aboriginal and Torres Strait Islander applicants

Charles Sturt University's Connections – First Nations Direct Entry Program is a supported personalised pathway into university that assesses skills and suitability for academic life. Search for 'First Nations student support' at study.csu.edu.au.

International Year 12 students apply directly to Charles Sturt University.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. If your ATAR is below 55.00, your selection rank for education courses will not be increased. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Charles Sturt University may award **up to 12 adjustment points** in total across the following categories. For details, visit study.csu.edu.au/study-options/pathways.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students completing school in a regional area	Regional Location Adjustment ■ Automatically applied ■ Excludes Doctor of Medicine (Joint Program)
Elite athlete and performer adjustments	■ Submit a direct application to Charles Sturt University For details, search for 'Elite Athlete and Performer Program' at csu.edu.au
Subject adjustments For students who have performed well in specific Year 12 subjects	■ Automatically applied

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
Charles Sturt Advantage	Important dates Application rounds close at midnight: 7 April, 30 June and 31 August Offers released: Early May, late July and late September
	Assessment criteria ■ Short written submission demonstrating soft skills such as resilience, empathy and the motivation to create a world worth living in ■ Year 11 results

Studying at CQUniversity

At CQUniversity Australia, we believe higher education should be for everyone – no matter your postcode or educational background. That's why we offer a wide range of up-to-date, industry-aligned courses, from TAFE certificates right through to research degrees, online and across our many locations nationally.

When you choose CQUniversity, you'll benefit from our convenient campus location and enjoy flexible course options, smaller, more intimate class sizes, and accessible teaching and professional staff. Our Sydney campus is situated in the heart of the CBD, a five-minute walk from Town Hall Station. We offer a range of on-campus courses in accounting, business, echocardiography, IT, medical sonography and more, as well as access to facilities and support for online students.

We're committed to student success and providing positive graduate outcomes – and it shows. In fact, we have excellent graduate outcomes, receiving a five-star rating for undergraduate full-time employment rates, and are ranked in the top three Australian unis for undergraduate starting salaries by the Good Universities Guide 2023. We're also known for our excellent student support services. Data released by ComparED in 2022 shows that more CQUniversity undergraduate students rate our support services positively compared to the national average.

So, rest assured that when you choose CQUniversity, you're choosing a high-quality education to help you be what you want to be.

International Year 12 students apply directly to CQUniversity.

Aboriginal and Torres Strait Islander applicants

CQUniversity has a dedicated student support team that provides Aboriginal and Torres Strait Islander students with guidance and support. We also offer a range of pathways into our courses, including our free enabling course, Skills for Tertiary Education Preparatory Studies (STEPS). Our STEPS course provides a pathway for you to gain entry into and excel in higher education. To find out more, visit cqu.edu.au/steps.

Selection rank adjustments

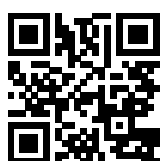

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

CQUniversity may award **up to 10 adjustment points** in total across the following categories. For details, search for 'adjustment factors' on the [CQU website](#).

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students who live or attend school outside a capital city	Regional Adjustment Scheme ■ Automatically applied
Elite athlete and performer adjustments	None
Subject adjustments	None

Monday 26 February to Friday 1 March 2024

Trimester 1

starts Monday 4 March 2024

Studying at Griffith University

When you choose Griffith University, you're choosing a world-class education that will prepare you to thrive professionally and personally, long after you graduate.

Ranked in the top 2 per cent of universities globally, Griffith has a proud history of driving innovation and achievement in higher education. Our degrees are developed in consultation with industry, based on cutting-edge research and taught by Australia's most-awarded teachers, so you'll be equipped with the skills, experience and work ethic you'll need to succeed.

You'll have inside access to industry, with many Griffith degrees offering work placements, field trips and projects for real clients. Our domestic and international connections provide practical experience that helps to make sense of the knowledge you're gaining in the classroom, while also enhancing your job-ready skills.

We're committed to giving our students as much flexibility as possible in how they participate in their studies. Depending on your degree, you'll have the choice to study at one of our five campuses in South East Queensland, online, or a combination of both, either part-time or full-time over two or three trimesters. However you study, you'll be able to make the most of your university experience with access to sport and recreation facilities across our campuses and more than 100 social, cultural, professional, educational, political and sporting clubs and societies.

At Griffith, we believe education is for everyone – and that your high school results aren't the only indicators of your abilities and potential. That's why we offer a range of admission pathways to study with us, including through bridging courses, Vocational Education and Training (VET) qualifications and beyond.

And once you join us, you'll be supported in every aspect of your studies, from scholarships and study skills to finding employment opportunities when you graduate. Whether you need learning, personal or financial assistance, we're here to help make your time at university a more manageable, memorable and enriching experience.

Griffith Sports College

Griffith has one of the highest numbers of elite athlete students in the country. Through the Griffith Sports College, you can access support to help balance the high demands of elite sport with your university studies. Visit griffith.edu.au/sport/griffith-sports-college.

Undergraduate diplomas

Undergraduate diplomas provide a supported start to your university studies and help you to transition to your chosen bachelor degree. Once you've successfully completed the diploma, you'll be offered guaranteed entry into the second year of the corresponding bachelor degree. You'll undertake your first year of study alongside your peers in the bachelor degree and finish your studies in the same amount of time, at no extra cost. Visit griffith.edu.au/apply/undergraduate-diplomas.

Accommodation

On-campus student accommodation is available at the Gold Coast campus and is provided by Campus Living Villages. We can also help you find a place to call home through our preferred accommodation partners. Visit griffith.edu.au/accommodation.

Aboriginal and Torres Strait Islander applicants

With dedicated centres on each campus, our GUMURRII Student Success Unit offers safe and culturally appropriate learning environs (including online) for all First Peoples students throughout their university journeys. Visit griffith.edu.au/gumurrii.

First Peoples students who do not meet the standard admission criteria for their chosen program may be considered for admission via other pathways. Visit griffith.edu.au/gumurrii/apply-to-study.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Griffith University may award **up to 8 adjustment points** in total across the following categories. For details, visit griffith.edu.au/adjustment-factors.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Schemes (EAS) <ul style="list-style-type: none">■ Submit an EAS application via UAC■ Some programs are excluded; refer to griffith.edu.au/adjustment-factors For details go to uac.edu.au/eas

Open days

Open Day on Sunday 6 August 2023 is a great opportunity to experience the ICMS difference while exploring our beautiful Northern Beaches campus in Manly.

Learn about our courses and student experience; take a campus tour; meet our academics, students and graduates; and find out how our unique industry training (internship) program will help you build your career faster.

Learn more at icms.edu.au/open.

Campus tours

Visit our campus anytime for a tour and a personalised course consultation. To book, call 1800 110 490 or visit icms.edu.au/book-campus-tour.

Important dates

Main intake

starts Monday 5 February 2024

For more information on the ICMS academic calendar, visit icms.edu.au/important-dates.

Studying at International College of Management, Sydney

International College of Management, Sydney (ICMS) is a leader in career-focused education offering undergraduate bachelor degrees and postgraduate masters degrees.

At ICMS we work with you to create a personalised educational experience to ignite your career and mentor you to professional success.

How ICMS prepares you for professional success

- You study business-focused degrees specialising in various exciting and potentially lucrative industries such as business, entrepreneurship, marketing, events, fashion and global brand management, accounting, hospitality, sports management, international tourism, and property.
- Industry Training (also known as an internship or Work Integrated Learning) is included as part of your degree – and we organise it all for you through our network of partners. Our contacts become your contacts.
- Degrees have been designed in conjunction with industry, so you develop skills your future employers want.
- Active learning means you do work-relevant assessments as you would in the real world. Most degrees have no exams; authentic assessments are preferred.
- From the start, you will develop a career mindset through professional attire, CV writing and interview skills, mentoring and access to the ICMS Student Success Centre.

Your time at ICMS will be career-focused but you'll also want a memorable, fun campus experience. ICMS offers everything that you'd expect from a traditional university, such as on-campus accommodation, sporting teams, student clubs and world-class facilities.

Operated by ICMS, the Aspire Institute and the International Sport College of Australia (ISCA) are pathway institutions offering diplomas that can be standalone qualifications or used as a pathway to the second year of a bachelor degree should students wish to continue their tertiary studies.

As well as online and hybrid classes, ICMS and its pathway institutions offer spectacular campus locations:

- the iconic traditional sandstone Northern Beaches campus, affectionately called the 'castle on the hill', which offers sweeping views over Manly Beach
- the new modern City campus, conveniently located near Central Station
- the International Sport College Australia (ISCA) at the Valentine Sports Park in Glenwood.

These spectacular locations offer students an experience that would be hard to beat anywhere in the world.

Selection rank adjustments

ICMS courses do not have an ATAR requirement. However, ICMS will consider equity factors and achievements when assessing your application.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments	None
Elite Athlete and Performer Program For students who have represented their school or state at national level competitions, or who have performed in extended or significant productions	Elite Athlete and Performer Program ■ Applications close: 2 February 2024 ■ Submit a direct application to ICMS: icms.edu.au/elite-athletes-performers
Subject adjustments	None
Leadership adjustments	Leadership Entry Program ■ Applications close: 2 February 2024 ■ Submit a direct application to ICMS: icms.edu.au/leadership-entry-program

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
Early Entry For students with a strong academic record.	Important dates Applications close: 8 September 2023 How to apply Submit a direct application to ICMS: icms.edu.au/early-entry

ICMS Scholarships, unlock your potential.

Available for all bachelor degrees. Apply at icms.edu.au/scholarships

Scholarships range from \$5,000 - \$50,000

ICMS

Almost \$1.5 million of scholarships to over 120 recipients were awarded in 2022. Our corporate partners that support this prestigious Scholarship Program are an invaluable endorsement for many students. In 2023/2024 it is expected that more scholarships will be awarded. The goal is to use opportunities to give back and to recognise students from all backgrounds. This year over 50 school leavers were awarded a scholarship to ICMS. Have a go! To find out more about benefits, eligibility and how to apply please visit:

www.icms.edu.au/scholarships or call 1800 110 490.

Studying at La Trobe University

For over 50 years, La Trobe University has been transforming people and societies.

At La Trobe, students are placed at the centre of everything we do. That means providing a leading study experience, ensuring your safety and wellbeing, and connecting you to community and industry. We'll help you develop every part of your skillset, including the human skills you need in any workplace – like leadership, collaboration, critical thinking, creativity and adaptability.

We embrace the power of equality, diversity and inclusivity. We exist for the good, both locally and around the world. That's why we're in the top 20 universities globally for our overall contribution to advancing the United Nations' Sustainable Development Goals,¹ including being in the top 10 universities worldwide for gender equality.²

We've risen to the top 1 per cent of universities worldwide³ by addressing the major issues of our time. Whether it's helping solve issues with global food insecurity, protecting the world's biodiversity, understanding and preventing disease, or leading social change, La Trobe is at the forefront of research that makes a real impact – all our broad areas of research are rated at above or well above world standard.⁴

At La Trobe, you won't be just shaping the future – you'll be part of a community of academics, researchers, graduates and industry professionals who are on the ground, transforming lives every day, including today.

1. *Times Higher Education Impact Rankings 2022*
2. *Times Higher Education Impact Rankings 2022: Gender Equality*
3. *Times Higher Education World University Rankings 2023; Consejo Superior de Investigaciones Científicas 2021; Ranking Web of Universities*
4. *Australian Research Council 2019; Excellence in Research for Australia Outcomes 2018*

Aboriginal and Torres Strait Islander applicants

First Nations Australian applicants are welcome to contact Indigenous Student Services for advice about courses, application procedures, scholarships and other aspects of studying at La Trobe University.

To find out more, visit latrobe.edu.au/indigenous.

Selection rank adjustments

Refer to [page 25](#) for an explanation of selection rank adjustments.

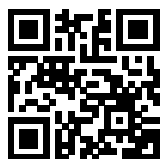

La Trobe University's selection rank adjustment factors are being reviewed for the 2024 admissions period. For the latest information, go to latrobe.edu.au.

Early offer schemes

At La Trobe, there's more than one way into uni. The Aspire Early Entry Program is a way to access an Aspire ATAR for your preferred course and secure an early conditional offer.

We have multiple Aspire streams to choose from. So whether you've given back to your community, achieved good results in Year 11 or undertaken extra university studies, meeting the requirements of this program provides you with reassurance that you have a place in your preferred course before you complete Year 12.

For further information about the Aspire program, including 2024 selection requirements and dates, go to latrobe.edu.au/aspire.

For the latest course information and detailed admission criteria visit uac.edu.au/ltu

Session 2

Monday 22 July to Friday 22 November 2024

Studying at Macquarie University

It's our mission at Macquarie to nurture and empower you to reach your full potential, as well as prepare you for the future – whatever it may look like for you. So, we offer degrees that are not only flexible and designed with your future employability in mind, but degrees that are delivered on a campus that's innovative and built for collaboration. We'll help you develop your practical know-how alongside your technical skills, encourage you to experience new opportunities in Australia and across the globe, and assist you to build your networks with our industry and community partners – all things employers look upon favourably.

Why study at Macquarie?

Rankings success: Macquarie is ranked #1 in Sydney for graduate employment rate¹. We're also ranked among the top 1 per cent of universities in the world², with three subjects ranked in the top 50 globally and 11 in the top 100.

Degrees co-designed by industry: Many of our degrees are shaped by the latest industry trends and can be adjusted to respond to the needs of industry in real time.

Degrees with in-built internships: Practical experiences are built into all of our degrees, which means that when you graduate, you'll have the knowledge and skills you'll need to meet the current and future challenges of your chosen profession.

Personalised degrees: All universities offer double degrees, but we allow you to personalise your double degree by choosing the combination you consider will best kickstart your career.

¹ QS Graduate Employability Rankings, 2022

² QS World University Rankings by Subject, 2022

Aboriginal and Torres Strait Islander applicants

The Aboriginal and Torres Strait Islander Entry Pathway is an admissions pathway aimed at increasing Aboriginal and Torres Strait Islander participation within undergraduate degrees.

It provides opportunities to Aboriginal and Torres Strait Islander peoples who may:

- not have completed their HSC
- not have acquired a necessary selection rank for entry into their undergraduate degree of choice
- like peace of mind with an early offer.

This pathway involves a two-stage process: an online application and then a face-to-face interview. Offers will be made according to merit, based on demonstrated capacity and readiness to undertake university study.

Applicants are encouraged to contact Walanga Muru prior to applying. Call (02) 9850 6023 or visit mq.edu.au/walanga-muru-pathway

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Macquarie University may award **up to 15 adjustment points** in total across the below categories. For details, search for 'adjustment factors' on the Macquarie University website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme(EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students from regional or remote Australia who don't have access to the same resources as students in cities and larger towns, and students who live in Macquarie's catchment region	Regional Entry Scheme ■ Automatically applied Macquarie Catchment Scheme ■ Automatically applied For details, visit mq.edu.au/adjustment-factors
Elite athlete and performer adjustments For students with competitive commitments, such as training or performing, that have affected their Year 12 studies	Elite Athletes and Artistic Performers Scheme ■ Submit a direct application to Macquarie For details, visit mq.edu.au/adjustment-factors
Subject adjustments For students who perform well in HSC subjects related to specific Macquarie course preferences	Academic Advantage Scheme ■ Automatically applied For details, visit mq.edu.au/adjustment-factors
Extracurricular adjustments For students with extracurricular accomplishments or commitments	Big History Scheme ■ Complete Macquarie's Big History: Connecting Knowledge MOOC (massive open online course) ■ In your UAC application, declare a Big History MOOC qualification and upload a copy of your verified certificate For details, visit mq.edu.au/adjustment-factors Duke of Edinburgh's, Queen's Scout and Queen's Guide Award Schemes ■ Submit a direct application to Macquarie For details, visit mq.edu.au/adjustment-factors

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023. Visit uac.edu.au/srs and mq.edu.au/srs
Macquarie Leaders and Achievers Early Entry Scheme	<p>Important dates</p> <p>Applications open 1 June 2023. Applications close 31 August 2023</p> <p>Assessment criteria</p> <p>Applicants need to demonstrate their leadership qualities and/or how they've contributed towards positive change in their community, as well as how they've consistently achieved good results at school. There are two selection components:</p> <ol style="list-style-type: none"> 1. demonstration of leadership and service to their community by completing the Macquarie Leaders and Achievers Early Entry Scheme questions when applying online 2. Year 11 studies <p>Notes:</p> <p>Applicants for the Bachelor of Marketing and Media and the Bachelor of Actuarial Studies and its double degrees are required to have undertaken specific English and/or maths subjects in the HSC, ACT Senior Secondary Certificate or International Baccalaureate.</p> <p>Applicants for teaching degrees need to complete and pass a survey before an offer is made.</p> <p>All applicants must complete their Year 12 examinations (10 units of HSC courses, including at least 8 units from Category A courses and 2 units of English) or comparable ACT Senior Secondary Certificate or International Baccalaureate subjects.</p> <p>How to apply</p> <p>Apply directly to Macquarie. For details visit mq.edu.au/leaders-and-achievers</p>

Monday 15 July to Saturday 19 October 2024

Trimester 3
Monday 11 November 2024 to Saturday 22 February 2025

Studying at MIT Sydney

MIT Sydney, in the Sydney CBD, offers accredited degrees with a specialised focus on business, IT networking and data analytics. You can choose to major in cyber security, software engineering, accounting, management, marketing or digital marketing. Our degrees are aligned to industry standards, as employability is at the heart of courses and student life at MIT Sydney.

The Bachelor of Networking is accredited by the Australian Computer Society. The majors in cyber security and software engineering have been designed specifically to respond to market needs. As malware and cybercrime become more sophisticated, more cyber security specialists will be required in the years to come. Similarly, software engineering knowledge and skills to produce reliable and quality-assured software solutions in networking and other emerging areas are in high demand by the ICT industry.

The Bachelor of Data Analytics is designed to provide our graduates with a comprehensive knowledge of data analytics lifecycles and the necessary skills in data analytics tools and methodologies to meet future demands of the data analytics industry. It is a new course and is under consideration for professional accreditation by the Australian Computer Society.

The Bachelor of Business (major in marketing or digital marketing) is accredited by the Australian Marketing Institute, while the Bachelor of Business (major in accounting) is accredited by peak bodies, including CPA Australia, Chartered Accountants Australia and New Zealand, and the Institute of Public Accountants.

Embedded into every degree are real-world projects in the business and IT industries so you will have plenty of opportunities to be challenged to think outside the box. At MIT Sydney we offer 1:1 career advice, interactive workshops, industry-based projects and more.

Students enjoy studying in the heart of Sydney. The city campus is easy to get to and has everything you need to excel in your studies – high-tech computer labs, fast wireless internet, a library, plus plenty of study spaces and chill-out areas.

Want to know more? Visit mit.edu.au or call 1800 648 669.

Aboriginal and Torres Strait Islander applicants

Indigenous students studying with MIT are provided with the academic and personal support they need to enjoy and complete their studies.

Selection rank adjustments

MIT courses do not have an ATAR requirement; however, you must successfully complete the HSC (or equivalent).

Early offer schemes

There are no MIT early offer schemes.

Campus visits

You are welcome to visit the campus at any time during the year. To take a tour of the campus and meet with academic staff or our student recruitment team, call (02) 9339 8651, email student.services@nas.edu.au or stop by the student services' desk during business hours.

The National Art School campus is open from 9am to 5pm Monday to Friday and includes a cafe and art supplies store.

The NAS Gallery is open from 11am to 5pm Monday to Saturday during advertised exhibitions.

During semester, the campus is open to students for extended hours Monday to Saturday.

Important dates

Contact NAS for information about 2024 intakes.

Studying at National Art School

The National Art School (NAS) is a culturally significant Australian visual arts institution with origins that can be traced back to 1843. Situated within the historic walls of the old Darlinghurst Gaol, the school has a rich tradition of artistic practice and has produced generations of many of the country's best-known artists. The campus, located in inner-city Darlinghurst, offers a select number of full-time programs – B Fine Art and M Fine Art – as well as a comprehensive range of part-time and intensive short courses.

The National Art School uses practice-driven teaching methods and maintains a high staff-to-student ratio. Intensive instruction by over 80 eminent practising artists and art historians takes place in a studio environment. Drawing, art history and theory and their relationships to contemporary culture are taught each year in the undergraduate programs. Specialist study is offered in the studio disciplines of ceramics, painting, photography, printmaking and sculpture.

The fully accredited B Fine Art program is designed to develop the creative independence, knowledge and experience required for a career as a professional artist and the academic rigour required for further study at postgraduate level. The program is delivered full-time over three years and involves a comprehensive investigation of studio practices and historical and theoretical reflection supported by individual tutorials, peer discussions and reviews.

Aboriginal and Torres Strait Islander applicants

There is no separate admissions process for Aboriginal and Torres Strait Islander applicants.

First Peoples Scholarship

The NAS First Peoples Scholarship aims to contribute to Aboriginal and Torres Strait Islander students successfully attaining a higher education degree in the visual arts sector. Two scholarships are offered to commencing students each year. For more information, visit nas.edu.au/students-internships.

Selection rank adjustments

NAS courses do not have an ATAR requirement.

As Australia's leading independent fine art school, NAS attracts exceptional students from across the country. The BFA degree is focussed on studio-based learning, designed to impart the skills, knowledge and creative independence required to sustain a career as an artist. As a student of NAS, you will join a vibrant community of artists and art professionals, students and teachers, who are devoted to pursuing the highest aspirations for contemporary art practice.

Orientation weeks are conducted every trimester, one week prior to the commencement of study periods.

Studying at SAE Creative Media Institute

SAE Creative Media Institute is a leading global specialist in creative media education, with campuses worldwide. SAE is committed to providing innovative, real-world learning that challenges, develops and inspires. Offering postgraduate, bachelor, associate degree, diploma and certificate courses in animation, audio, design, film, games, creative industries and music, SAE's students receive an outstanding industry-focused and internationally recognised education.

In Australia, SAE provides courses to more than 3,000 students across six campuses in Brisbane, Byron Bay, Sydney, Melbourne, Adelaide and Perth.

For more than 40 years, SAE has maintained a strong commitment to providing high-quality practical education in creative media technologies, producing graduates with industry skills to fill integral professional roles within the sector. With accredited fast-tracked learning pathways, graduates can be on their way to their dream job sooner.

Each course at SAE focuses on teaching high-end technical production techniques specific to its niche, as well as developing broader industry perspectives and creative, analytical, communication and project management skills.

Course content has been structured to align with current industry practices and includes intensive training in world-class facilities with cutting-edge equipment and software, as well as industry-based internships.

As part of SAE courses, students engage in many collaborative multidiscipline real-world projects that replicate industry scenarios. This ensures students hone their technical knowledge and analytical skills while developing their creativity.

SAE offers flexible payment options, including payment plans, as well as access to FEE-HELP or VET student loans, scholarships and study grants.

Aboriginal and Torres Strait Islander applicants

All Aboriginal and Torres Strait Islander students who do not meet the entry requirements for our courses are encouraged to call the SAE admissions team on 1800 723 338 and arrange for an interview.

SAE acknowledges that many factors could demonstrate your suitability for entry to SAE courses, including community engagement, prior work history and family commitments.

Selection rank adjustments

SAE courses do not have an ATAR requirement.

Studying at Sydney Institute of Business and Technology

SIBT is your direct pathway to Western Sydney University, Sydney City campus. Our flexible entry criteria will allow you to complete a diploma program and fast-track to the second year of your university studies. If you successfully complete your diploma, you are guaranteed a place at Western Sydney University, Sydney City campus.

Why study at SIBT?

A range of pathways to degrees

We have a wide variety of study options for you, including accounting, business, communications (advertising, journalism, public relations), engineering, information technology and social science (criminology and criminal justice).

Flexible study options

You can start in March, July or October and choose to accelerate your studies and complete a diploma in just eight months.

Personalised learning

At SIBT, we offer smaller classes, student support and a personalised learning experience, so that we can help you improve your academic performance and prepare you for life beyond the lecture room.

Help when you need it

Our Student Services team is here to help you and guide you throughout your journey. Whether you are having trouble studying, with assignments or any other personal matter, our staff will support you.

University preparation programs

We offer programs to all students to help improve their skills in areas such as literacy, time management, self-directed learning, assignment preparation and stress management.

Guidance from peer mentors

Selected senior SIBT students work as trained peer mentors who will share their passion and experience to make you feel welcome and provide you with essential information about campus life.

Sydney City is your campus

Located in the heart of Sydney CBD on Western Sydney University's Sydney City campus, SIBT's central location provides convenient access to transport and all the facilities and services you may need.

Since 1997, over 25,000 graduates have successfully completed their SIBT diploma program and 90 per cent of students have progressed to university.

Begin your study journey with SIBT and we'll help you find your path.

International Year 12 students apply directly to SIBT.

Aboriginal and Torres Strait Islander applicants

Aboriginal and Torres Strait Islander people who don't meet the academic requirements may be admitted to a foundation or diploma program (depending on the level of high school they completed) based on demonstrable expertise and relevant work experience.

Applicants are required to provide a Statement of Purpose, information on work experience and details of any studies undertaken since leaving high school.

For details, call the admissions office on (02) 9964 6555.

Selection rank adjustments

ATARs are not used for admission to SIBT. Admission is based on successful completion of an Australian Year 12 qualification (or international equivalent).

SIBT will give special consideration to students who have experienced disadvantage in education and employment in the past, including those from an Aboriginal and Torres Strait Islander background, people with a disability and people from culturally and linguistically diverse backgrounds.

For details, call the admissions office on (02) 9964 6555.

Early offer schemes

There are no SIBT early offer schemes.

Studying at Southern Cross University

At Southern Cross University, we are driven by a clear purpose: to change lives through revolutionary learning and research with real impact.

Our game-changing Southern Cross Model is focused on deeper, more immersive learning and increased student success. The Model is an integral part of our diverse academic portfolio, with courses in business, creative arts, education, engineering, health, humanities, Indigenous knowledge, information technology, law, science, social work and tourism.

Southern Cross University is ranked among the world's top 200 young universities (Times Higher Education Young University Rankings 2022) with outstanding facilities located in stunning natural environments. Established in 1994, Southern Cross University now boasts three main campuses in the Northern Rivers, at the Gold Coast and Coffs Harbour as well as the National Marine Science Centre in Charlesworth Bay, Coffs Harbour.

A unique partnership with Mulpha Australia enables study at The Hotel School in Sydney, Melbourne and Brisbane. Branch campuses also operate in Sydney, Melbourne and Perth in partnership with EduCo, and at the Coomera Creative Campus in partnership with TAFE Queensland. More than 75,000 Southern Cross graduates live and work in more than 100 locations around the world.

We were the first university in Australia to introduce a degree in tourism and the first to establish a Naturopathy Clinic on a university campus and we continue to break new ground with world-leading research activity in fields like coral reproduction, biogeochemistry and regenerative agriculture, producing knowledge that has an impact not just in the regions where the university is located, but all over the world. Together, we are Transforming Tomorrow.

International Year 12 students apply directly to Southern Cross University.

Aboriginal and Torres Strait Islander applicants

If you are an Indigenous Australian and do not receive an offer to Southern Cross University based solely on your application, there is a pathway scheme available.

The Testing and Assessment Program allows you to sit an assessment task and then discuss your options for university admission. This may include you receiving an offer into the course you have applied for or considering a pathway into your preferred course.

Indigenous Australian Student Services (IASS) provides an extensive service to all Aboriginal and Torres Strait Islander students who are studying at Southern Cross University. There are IASS officers at each campus.

For all details, search for 'IASS' at scu.edu.au.

Selection rank adjustments

There are no SCU selection rank adjustments.

Session 2: starts Monday 8 April 2024

Session 3: starts Monday 1 July 2024

Session 4: starts Monday 23 September 2024

Studying at Torrens University Australia

As the country's fastest-growing university, Torrens University Australia brings a fresh approach to higher education, with employability at the centre of everything we do. A progressive university that fosters passion, we take a strengths-based approach to teaching. Recognising individuality and potential as better indicators of future success than exam scores, we do not consider ATAR our primary entry requirement (exceptions may apply to some courses). Our focus on transferable soft skills means everyone has the chance to achieve their academic and career goals.

Built on the strong foundations of our distinguished schools and colleges, such as Billy Blue College of Design and Blue Mountains International Hotel Management School, Torrens University offers undergraduate and postgraduate courses designed with and for industry.

Our future-focused courses in business, design and creative technology, health and hospitality are taught by leading experts and delivered on campus, online and as a blend of both. With locations in Sydney, Melbourne, Brisbane and Adelaide, our national campus network and flexible study options allow students to tailor their learning journey.

Academic staff and industry partners help students bridge the gap between study and work. Our small lecture sizes and personalised approach to teaching ensure students develop strong, relevant skills and thrive in their chosen field. We offer partnerships with industry, allowing students to complete practical experience with some of the most influential brands on the planet.

From enrolment through to graduation, students are supported every step of the way by a passionate network of Success Coaches. Offering guidance and encouragement, our coaches help students excel in their studies and create the right trajectory for their chosen career.

At Torrens University, we give students the tools they need to create their own success. Call 1300 575 803 or email futurestudents@torrens.edu.au to talk to one of our Future Student Advisors.

Aboriginal and Torres Strait Islander applicants

Torrens University is committed to ensuring that Aboriginal and Torres Strait Islander students have access to all our services and are supported throughout their academic journey.

We have a range of support services and scholarships available. For further information, search for Indigenous student scholarships on our website at torrens.edu.au.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Torrens University may increase your selection rank across the following categories. For details, search for 'adjustment factors' on the Torrens University website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) <ul style="list-style-type: none">■ Submit an EAS application via UAC■ For details, go to uac.edu.au/eas Other consideration <ul style="list-style-type: none">■ To discuss options, call 1300 575 803
Location adjustments For students who live in regional areas	<ul style="list-style-type: none">■ Automatically applied
Elite athlete and performer adjustments	None
Subject adjustments For students who achieve a Band 2 or above in three subjects (one related to the field of study)	<ul style="list-style-type: none">■ Automatically applied■ For details, call 1300 575 803

Studying at University of Canberra

The University of Canberra is a young, vibrant and energetic university serving the community of Canberra and the surrounding regions – city to coast, alpine to tablelands. Our home in Canberra is a place where ideas are born, creativity is explored and opportunity is created.

Whether it's solving environmental challenges, meeting the healthcare needs of our community or equipping the leaders of the future, our university is an embodiment of our city. Though Canberra is home, our global connections are deep and far-reaching through our research, business connections, alumni networks and partnerships.

With a real-world, practical approach to education and deeply embedded work-based learning, we're ranked #1 in Canberra for undergraduate employment and starting salaries (Good Universities Guide, 2023). Many of our 99,000 alumni hold influential positions in public and private sectors in 120 countries.

Our ambition, talent and drive have seen us rocket up the rankings, placing us in the top 2 young universities in Australia (Times Higher Education Young Universities Rankings, 2022).

UC is a leading sports institution with strong ties to elite sporting teams. We also have world-class health facilities, including our integrated health precinct, which provides access to cutting-edge learning and research environments.

Aboriginal and Torres Strait Islander applicants

If you do not meet standard entry requirements, you may apply for admission to the UC College Aboriginal and Torres Strait Islander Foundation Program. The university also reserves places in nominated courses in each intake. These places are awarded on merit, including performance in an interview.

If you identify as Aboriginal or Torres Strait Islander when you apply through UAC, you may be eligible to have your selection rank increased: see 'Selection rank adjustments' on the next page.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

The University of Canberra may award **up to 20 adjustment points** in total across the following categories. For details, search for 'adjustment factors' on the University of Canberra website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas Aboriginal or Torres Strait Islander applicants Refer to the University Priority Groups below
Location adjustments For students who attend a rural or regional school	Refer to the Educational Access Scheme For details, go to uac.edu.au/eas
Elite athlete and performer adjustments For elite athletes or sporting coaches whose sporting commitments have affected their academic performance	Refer to the University Priority Groups below
Subject adjustments For students who perform well in HSC subjects (or equivalent) related to specific University of Canberra course preferences	■ Automatically applied ■ Excludes preferences to B Physiotherapy and B Midwifery For details, search for 'adjustment factors' at canberra.edu.au
University Priority Groups For students from priority groups defined by the university	Aboriginal or Torres Strait Islander applicants ■ Identify as Aboriginal or Torres Strait Islander in your UAC application Australian Defence Force (ADF) personnel and reservists ■ Submit a direct application to University of Canberra Elite athlete and performer adjustments ■ Submit a direct application to University of Canberra. Max. 5 points across all University Priority Groups For details, including supporting statement and evidence requirements, search for 'adjustment factors' at canberra.edu.au

Orientation: Monday 19 to Friday 23 February 2024

Trimester 2

Monday 24 June to Sunday 29 September 2024
Orientation: Friday 21 June 2024

Trimester 3

Monday 21 October 2024 to Sunday 9 February 2025
Orientation: Friday 18 October 2024

Studying at University of New England

At the University of New England (UNE), our mission is to help people 'future fit' their lives in response to the rapidly changing world in which we live. When you study at UNE you get more than a degree, you get a complete university experience: a vibrant, supportive community, small classes, and easy access to your expert lecturers. This means that you get every opportunity to reach your potential and get the very best start (plus some great memories along the way).

UNE remains one of the few universities to provide the complete on-campus experience, combining affordability, student support and community, as well as extensive sporting facilities. Study with UNE and see why we get the maximum five-star rating from graduates for overall experience and teaching quality in the Good Universities Guide year after year (Good Universities Guide Ratings, 2007 to 2023).

Life on campus

Living on campus gives you the benefit of academic and social support networks and a rich tradition of vibrant intercollege sporting and cultural competitions. It means you are in the ideal position to enjoy the living and learning experience to the fullest. Both academically and socially, you are right at the heart of the action. Lectures, libraries, cafes and services, such as shopping and hairdressing are all within walking distance on campus. A free safety shuttle bus service allows students to travel to and from their college and the city centre.

Campus accommodation

UNE's residential accommodation consists of five colleges, including four traditional college residences, one with 211 modern studio apartments, and a village of self-contained units. Each college has its own distinct character and all of them welcome students into friendly, inclusive and supportive communities.

Visit une.edu.au/living for more information.

Study online

UNE pioneered distance education back in the 1950s, so we have a lifetime's experience behind us. We now have more than 18,000 online students studying over 150 online courses.

Studying online means that you can access your course content when it suits you. You are not limited by your proximity to the university and can receive your education through a variety of the latest digital technologies. A course might include materials like a set of readings, immersive learning experiences, interactive content, videos, quizzes, forums, and exams – all delivered online.

To make sure your learning can take place when it suits you, UNE provides online facilities which allow you to send questions, submit assignments, order library books, check your results and access other resources 24 hours a day, seven days a week. UNE also pioneered supervised online exams and now all of our exams have transitioned to this mode.

Pathways to study

UNE offers a range of pathways to tertiary study, including our Pathways Enabling Course, Science Pathways and TRACKS Tertiary Preparation Program for Aboriginal and Torres Strait Islander students.

Our fully online Pathways Enabling Course is the only fee-free uni entry course in Australia that also gives you two free units of credit into 25 courses, which means you'll reduce both the study time and the cost of your undergraduate degree by two units.

Visit une.edu.au/pathways for more information.

International Year 12 students apply directly to UNE.

Aboriginal and Torres Strait Islander applicants

For over 35 years, UNE's Oorala Aboriginal Centre has provided coordinated academic services and study facilities for Aboriginal and Torres Strait Islander students.

Oorala also offers dedicated pathways to Aboriginal and Torres Strait Islander applicants seeking admission to UNE. The Internal Selection Program is a one-day testing and assessment program which focuses on each participant's study skills and career goals. Following an interview, participants are recommended for admission to either mainstream UNE courses or the TRACKS Tertiary Preparation Program, and advised on suitable alternatives for study in their chosen field.

The TRACKS Tertiary Preparation Program is a flexible, on-campus or online university preparation course that is completely free. The program has been specifically devised to provide Aboriginal and Torres Strait Islander students with the opportunity to access and explore tertiary education, while also developing the skills required for undergraduate study. Successful completion of TRACKS will provide entry into an undergraduate degree program.

Our study mentors will guide you through the TRACKS program, step by step. You can complete your study in your own time at your own pace, allowing you to maintain the support of your connections on country, as well as being part of an online community of students with similar goals and aspirations to you.

To find out more, visit une.edu.au/oorala.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

UNE may award **up to 5 adjustment points** in total across the following categories. For details, search for 'adjustment factors' on the UNE website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) <ul style="list-style-type: none">■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students who live in regional, rural and remote locations	<ul style="list-style-type: none">■ Automatically applied■ Excludes B Laws (3 years), Joint Medical Program and B Music For details, and a link to an eligible postcode look-up tool, search for 'adjustment factors' at une.edu.au
Elite athlete and performer adjustments	None For details of UNE's Elite Athletes Program, search for 'Elite Athletes Program' at une.edu.au
Subject adjustments	None

Semester 2

starts Monday 22 July 2024

Mid-semester recess

Monday 30 September to 11 October 2024

Exams

Monday 4 to Friday 15 November 2024

Studying at University of Newcastle

We take education outside the classroom and beyond textbooks. Our strong partnerships with local and global organisations ensure everything you study is shaped by the real world. Whether you study at our Newcastle (Callaghan), Newcastle City, or Central Coast (Ourimbah and Gosford) campus, access to internships, work experience and industry connections are embedded in all our degrees.

When it comes to lifestyle, you can't go wrong. Think stunning beaches, public art, a buzzing music scene, chilled-out cafes, eclectic markets, micro-breweries and small bars. The people are friendly, and the coffee culture is taken seriously. If sports are your thing, make sure you experience the excitement of an A-League or NRL game.

Maybe you're keen to take your studies around the world? With more than 100 partner universities spanning all major continents, we've got you covered.

Or, if you're not quite sure whether attending university is possible for you – we hear you. Helping people access higher education is in our DNA.

We're proud to be the largest provider of pathway programs in Australia. So, if you didn't quite get the marks you expected, or financial stress is holding you back, get in touch with us.

We also offer hundreds of scholarships to support our Indigenous students, students with educational or financial disadvantages, elite athletes, students who have achieved academic excellence and many more.

Need a place to stay? Take advantage of our award-winning student accommodation. Living on-campus is ideal if you're looking to meet new friends, get involved with social activities and have access to countless amenities.

So, take the leap. Choose a university that has leading-edge teaching spaces, embraces new technologies and pushes boundaries. That connects you with industry and helps you stand out in the crowd. Graduate ready to make an impact.

For detailed information visit uac.edu.au/uon

International Year 12 students apply directly to UON.

Aboriginal and Torres Strait Islander applicants

Aboriginal and Torres Strait Islander students are enrolled in a variety of degrees and preparatory courses across the University of Newcastle.

Aboriginal and Torres Strait Islander applicants who wish to access university entry pathways will be invited to the University of Newcastle to participate in an interview prior to admission. Applicants may gain direct entry or be advised to undertake an enabling program offered through the university's Pathways and Academic Learning Support Centre.

For more information, visit newcastle.edu.au/atsi.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

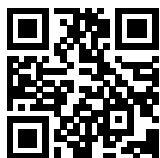

The University of Newcastle may award **up to 12 adjustment points** in total across the following categories. For details, search for 'selection ranks and entry schemes' on the University of Newcastle website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students who attend school in selected regions	Regional and Rural Adjustment Scheme ■ Automatically applied For details, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes
Elite athlete and performer adjustments For exceptional athletes, performers, artists and leaders	■ Apply via UAC, then complete an online application for Elite Athletes or Leaders and Performers via the University of Newcastle website For details, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes
Subject adjustments For students who perform well in HSC subjects related to their Newcastle course preferences	Year 12 Adjustment Scheme ■ Automatically applied For details, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
Early Entry Scheme	Important dates Applications open: Early May 2023 (applicants connected with a mentor) Offers released: before the HSC (offers conditional on completing the HSC)
	Assessment criteria Strong performance in Year 11
	How to apply ■ Submit direct application to the University of Newcastle For details and to apply, go to newcastle.edu.au/early
Indigenous and Refugee Law Early Entry Program For Indigenous and refugee HSC students applying for entry to 483100 B Laws (Honours) Combined	Important dates Newcastle Law School application deadline: midnight 11 September 2023 Offers released: 6 October 2023 (October Round 1)
	Assessment criteria ■ Strong performance across Year 11 ■ School recommendation ■ Selection interview For details of requirements, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes
	How to apply ■ Submit direct application to Newcastle Law School by midnight 11 September 2023 For details and to apply, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes
Year 12 Subject Spotlight Your performance in your Year 12 subjects is matched to related degrees	Important dates Offers released: 21 December 2023 (December Round 2)
	Assessment criteria Strong performance in HSC English and at least one other subject related to your degree For details, go to newcastle.edu.au/study/undergraduate/getting-in/entry-schemes
	How to apply No separate application required. Apply via UAC

Details of selection rank adjustments and early offer programs are subject to change.

For the latest course information and detailed admission criteria visit uac.edu.au/uon

Studying at University of Notre Dame

Our students have chosen a university community where they are valued as individuals, supported to excel, and equipped to make a difference. You can too.

At the University of Notre Dame Australia, we're here to empower you to enact positive change in the world through our unique, holistic approach to education. You are immersed in an intellectual tradition that has inspired the world's best thinkers for centuries and, as industry professionals and leaders in their field, our lecturers guide you to realise your academic potential. Our degrees offer practical, career-focused learning which combines theoretical knowledge and workplace experience so you graduate job-ready with a competitive edge in the employment marketplace. It's why we are the number one university in Australia for Overall Employment of Graduates (QILT 2021 Graduate Outcomes Survey – Longitudinal (medium term outcome), undergraduate category).

Notre Dame is a national university with campuses in Sydney, Fremantle and Broome. Our Sydney campuses are centrally located in the vibrant inner-city suburbs of Chippendale and Darlinghurst, which are close to public transport, Sydney's CBD, and a wide variety of cafes and restaurants.

Notre Dame's admissions process goes beyond just academic results and is – like our university experience – focused on the whole person. We consider your academic record, personal qualities, gifts and talents, motivation to study, and contribution to community life. Notre Dame's holistic admissions process also includes assessing applicants' eligibility to have adjustment factor points applied to their ATAR. Our adjustment factors are designed to address adversity faced by students, reward exceptional performance and recognise extracurricular activity with the goal of offering every student the opportunity to gain entry to, or pursue study at, Notre Dame. Current Year 12 students are also able to receive early offers to study at Notre Dame when they apply via UAC's Schools Recommendation Scheme.

Notre Dame is committed to providing Aboriginal and Torres Strait Islander students with the support needed to succeed in their university studies and beyond.

Aboriginal and Torres Strait Islander applicants

Commencing students have the opportunity to participate in our Aboriginal and Torres Strait Islander Mentoring Program. In your first semester, your Aboriginal peer mentor will help you to navigate university, answer any questions that you have and be a friendly face around campus.

As a Notre Dame student, you will have access to the Indigenous Student Success Program, a government-funded program which enables us to offer tutorial assistance to Aboriginal and Torres Strait Islander students in need of additional support.

You will also have the opportunity to gain practical work experience through industry internships with our partner, CareerTrackers.

For further information visit notredame.edu.au/indigenous-support.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Notre Dame may increase your selection rank by **up to 10 points** in total across the following categories. For details, visit notredame.edu.au/study/how-to-apply/adjustment-factors.

Individual factor adjustments Applicants are considered for more than their academic record alone	You are invited to provide details of personal qualities, experience and contribution to community life by submitting an Individual Factors form along with your application: notredame.edu.au/forms/applying-to-notre-dame-individual-factors The number of points awarded depends on the level of your contributions
Equity adjustments For students who have experienced significant educational or other disadvantage due to circumstances beyond their control	Educational Access Scheme (EAS) <ul style="list-style-type: none"> ■ to be considered, you will need to submit an EAS application through UAC and provide supporting documents ■ the number of points awarded will depend on the level and/or severity of disadvantage experienced For details, go to uac.edu.au/eas
University priority group adjustments For students from priority groups defined by the university	Notre Dame recognises the following as being priority groups: <ul style="list-style-type: none"> ■ Aboriginal and Torres Strait Islander ■ Australian Defence Force (ADF) personnel Points will be applied for applicants who indicate that they identify as part of these priority groups. This can be indicated in your UAC application
Elite athlete and performer adjustments For athletes and artistic performers who compete at a state, national or international level	At the time of application, clearly indicate and provide evidence that you are an elite athlete or artistic performer. This can be indicated in your Individual Factors form and evidenced by uploading supporting documents. Individual Factors forms can be found at: notredame.edu.au/forms/applying-to-notre-dame-individual-factors
Location adjustments For current and recent school leavers who live, or have attended school, in designated areas	Adjustment points automatically applied: <ul style="list-style-type: none"> ■ if the area you live in or attended school in is classified as being of socio-economic or socio-educational disadvantage ■ if you attended a school in an area classified as rural or regional
Subject adjustments For current and recent school leavers who achieve outstanding results in school subjects that are relevant to their chosen program at Notre Dame	Adjustment points automatically applied for designated subjects The number of points awarded will depend on the level of results achieved For details go to notredame.edu.au/study/how-to-apply/adjustment-factors

Studying at University of Sydney

Leadership is yours to define

The University of Sydney undergraduate experience is like no other. Our flexible degree structures give you access to 400+ study areas so you can create a path unique to you. Apply your passions inside and outside the classroom as you:

- **work with industry and community leaders** through internships and work placements to get job-ready, no matter what you study
- **follow all your interests** through our shared pool of majors and minors and gain expertise in other fields that sit outside your primary degree
- **develop a global mindset** by taking advantage of one of the largest study abroad and exchange programs in Australia
- **gain an edge** by combining your primary degree with our Bachelor of Advanced Studies, which lets you access advanced coursework and projects, develop specialist skills and tailor your degree to your passions
- **pursue research opportunities** leading to a PhD – the highest possible qualification – through our many honours pathways
- **build your academic and leadership capabilities** with our innovative Dalyell stream for high-achieving students
- **master new skills** with our Open Learning Environment, which gives you access to online learning modules and workshops to develop your special interests.

The University of Sydney undergraduate experience is open to all. That's why we've introduced entry and scholarship schemes like MySydney, which offers entry on a reduced ATAR and an annual scholarship to every MySydney eligible student.

Whatever the path you choose at Sydney, you'll gain the technical knowledge and expertise, along with the practical skills and real-world experiences that employers are looking for – and that the world needs.

Join the University of Sydney and discover why we are number one in Australia and fourth in the world for graduate employability in the QS Graduate Employability Rankings 2022.

Aboriginal and Torres Strait Islander applicants

The University of Sydney's Gadigal Program supports Aboriginal and Torres Strait Islander students to succeed. The Gadigal Program gives you access to lower minimum ATAR requirements, the opportunity to apply for a Gadigal Early Conditional Offer, and mentoring and academic support throughout your degree.

Any course we offer can be studied through the Gadigal Program. Submit your application via UAC.

The University of Sydney has introduced four extended bachelor degrees. These extended degrees include an additional foundation year, with culturally relevant literacy

and mathematics studies. These studies will equip you with excellent communication, critical and analytical skills that will prepare you for university studies and beyond.

The available Extended Bachelor Program courses are:

- Bachelor of Arts (Extended)
- Bachelor of Liberal Arts and Science (Extended)
- Bachelor of Science (Extended)
- Bachelor of Science (Health) (Extended)

Submit your Extended Bachelor Program application via UAC.

For more information, visit gadigal.sydney.edu.au.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

The University of Sydney does not accumulate points across the following categories. You will be awarded the points that benefit you the most.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS)/Broadway Scheme <ul style="list-style-type: none"> ■ Submit an EAS application via UAC ■ Depends on course demand, availability of courses and severity of the disruption to your studies ■ Excludes Medicine double degrees, B Science/Doctor of Dental Medicine, B Oral Health
	MySydney Entry and Scholarship Scheme <ul style="list-style-type: none"> ■ Automatically applied (no separate application required) to domestic students residing in an area listed in the bottom 25 per cent of the Australian Bureau of Statistics Socio-Economic Index for Areas (SEIFA) – Index of Education and Occupation ■ Eligibility based on the residential address you enter in your UAC undergraduate application For more information, visit sydney.edu.au/mysydney
Location adjustments	Refer to MySydney Entry and Scholarship Scheme above
Elite athlete and performer adjustments For athletes or performers whose rehearsal, training and/or competitive commitments have significantly impacted their Year 12 studies	<ul style="list-style-type: none"> ■ Submit two applications: <ul style="list-style-type: none"> • your UAC application • a separate application form (and supporting documentation) for the Elite Athletes and Performers Scheme: visit sydney.edu.au/admission-pathways
Subject adjustments For students who have achieved Band 5 or 6 in English Advanced or Mathematics Advanced (or E4 in extension courses)	Academic Excellence Scheme <ul style="list-style-type: none"> ■ Automatically applied to eligible domestic applicants For more information visit sydney.edu.au/study/aes

Early offer schemes

Gadigal Program	Important dates For consideration in our Gadigal Early Conditional Offer round, submit your complete Gadigal application via UAC by 7 August 2023 Conditional offers released: September 2023
	Assessment criteria <ul style="list-style-type: none"> ■ Gadigal application form ■ Confirmation of Aboriginality (COA)
	How to apply <ul style="list-style-type: none"> ■ Complete your UAC undergraduate application, ensuring you self-identify as Aboriginal and/or Torres Strait Islander, then put at least one University of Sydney course in your UAC preference list

Calendar: Monday 15 July to Saturday 23 November 2024

Summer session (10 weeks)

Orientation: Monday 4 to Friday 8 December 2023

Calendar: Monday 4 December 2023 to Friday 16 February 2024

Studying at University of Technology Sydney

UTS is a city university, like no other. Located in the heart of Sydney, there are lots of reasons why we're Australia's #1 young university¹ and #8 in the world². Here are just a few.

We're changing the game

True innovation is a catalyst for change – and at UTS, it's part of our DNA. When you study with us, we'll help you imagine new ways of creating and doing, rather than being driven by the status quo. We're also building innovation and entrepreneurship opportunities into our courses and extracurriculars to prepare you for a truly disruptive career.

We've got our sights set on the future

We pride ourselves on staying ahead of the curve. We're constantly adding, changing and adapting our courses to meet the needs of the future workforce – and we take the same approach to your learning, too. We'll equip you with the expertise to pursue a career, not just a job, as well as the agility to apply your skills in more than one field.

We're getting hands on with technology

We're a university of technology in more than just our name: we see tech as a tool to drive transformational learning. Engage with the tools that are shaping your profession and study in digital learning environments that have tech at their core. You'll emerge ready to thrive in an increasingly digital world, no matter which profession you pursue.

We're building networks that matter

We're known as the most industry focused uni in the Sydney metro region (RepTrak Survey 2019) – and when you leverage our industry connections for your own professional gain, you'll understand why. Engage with industry-relevant curriculum, access internships and work placements and soak up case studies and guest lectures delivered by leaders in your field.

1 QS Top 50 Under 50 2021

2 Times Higher Education Young University Rankings 2022

Aboriginal and Torres Strait Islander applicants

The Jumbunna Institute for Indigenous Education and Research provides support and access to all Australian Aboriginal and Torres Strait Islander applicants who would like to study at UTS via the Jumbunna Pathways Program.

In collaboration with UTS College, a number of tuition-free scholarships are available to applicants of the Jumbunna Pathways Program. Upon successful completion of the UTS College diploma program (and depending on your grade point average and chosen degree), you will be offered a place in an undergraduate degree at UTS.

For further information, visit uts.edu.au/future-students and select 'Indigenous Australians'.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

UTS may award **up to 10 adjustment points** for Business courses and **up to 13 adjustment points** for courses in Design, Architecture and Building, Engineering and IT. For details go to uts.edu.au/admission-schemes.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) <ul style="list-style-type: none"> ■ Complete an EAS application via UAC ■ Must achieve a min. ATAR of 69.00 (80.00 for Law) For details, go to uac.edu.au/eas
Location adjustments	None
Elite athlete and performer adjustments For students whose studies have been impacted by representing their school or state at a national level competition/event	<ul style="list-style-type: none"> ■ Submit an Elite Athletes and Performers application directly to UTS For details, search for 'admission schemes' at uts.edu.au
Subject adjustments For students who perform well in HSC subjects related to specific UTS courses	<ul style="list-style-type: none"> ■ Automatically applied ■ Min. ATAR (or equivalent) of 69.00 required ■ Excludes courses from the Faculty of Law and Health, and Education courses from the Faculty of Arts and Social Sciences
Work experience adjustments For applicants with work experience relating to your course of interest	<ul style="list-style-type: none"> ■ Automatically applied ■ For select courses in Business, Criminology, Engineering, Information Technology and Science For details, search for 'admission schemes' at uts.edu.au
Gender adjustments For applicants who identify as female and have applied for Engineering, IT or Construction Project Management courses	<ul style="list-style-type: none"> ■ Automatically applied ■ Min. ATAR (or equivalent) of 69.00 required ■ For all courses in Engineering, Information Technology and Construction Project Management

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
Early Entry Program	Designed for high-achieving school students, the UTS Early Entry Program allows you to secure a place in your preferred UTS degree based on your Year 11 academic achievements Applications are direct to UTS. For more information on how to apply, visit uts.edu.au/early-entry

For the latest course information and detailed admission criteria visit uac.edu.au/uts

UOW Wollongong

5 August 2023

See our campus for yourself, have all your questions answered by University of Wollongong (UOW) experts and learn more about our world-class programs and facilities. Visit uow.edu.au/openday for the details.

Campus tours

Spend some time at UOW and take a guided tour of either Wollongong or Liverpool campus. Our tours are run by current students who will answer all your questions about study and student life. Tours of UOW's student accommodation can be included in Wollongong campus tours. Book online at uow.info/campustours.

If you can't visit our campuses but would like to look around, take a virtual tour of our grounds and facilities anytime at uow.info/virtual-tours.

Important dates

First session

Starts Monday 26 February 2024

Orientation

Tuesday 20 to Thursday 22 February 2024

Mid-year recess

Monday 24 June to Friday 19 July 2024

Second session

Starts Monday 22 July 2024

Orientation

Monday 15 July 2024

Studying at University of Wollongong

UOW allows you to turn your passion into purpose through a world-class degree. We are a young, dynamic and innovative university, known for producing quality graduates who are ranked first in Australia for employers' overall satisfaction*.

Set in native Australian bushland at the base of Mount Keira, UOW is one of the most picturesque university campuses in Australia. Located 90 minutes south of Sydney, and a few kilometres from Wollongong CBD and beaches, the Wollongong campus is perfect for those looking for the perfect balance between a coastal and city study experience.

UOW also has metro campuses in Liverpool, Sutherland, and Sydney CBD, as well as regional campuses in UOW Eurobodalla, Bega Valley, Shoalhaven and the Southern Highlands for those looking to study close to home.

For those wanting a worldwide experience, UOW has connections with over 400 overseas institutions in 45 countries, giving you ample opportunity for study abroad and exchange programs. UOW connects people who want to learn new things and improve the world around them.

UOW provides a range of supportive educational facilities, including Woolyungah Indigenous Centre, a purpose-built space tailored to help Aboriginal and Torres Strait Islander students thrive at university, including study rooms, computer labs, a cultural fire pit and mentoring programs.

* QILT Employer Satisfaction Survey 2021 ranked employers' overall satisfaction with UOW graduates at 91.7 per cent (84.7 per cent national average), placing UOW first among all universities nationally.

Aboriginal and Torres Strait Islander applicants

UOW's Indigenous Admissions Program, run by the Woolyungah Indigenous Centre (WIC), is an alternative pathway for Aboriginal and Torres Strait Islander people over the age of 17 seeking entry into our undergraduate programs.

WIC is a dedicated space on our Wollongong campus for Aboriginal and Torres Strait Islander students. Blending culture and the surrounding Dharawal country, the centre provides academic support, internships, career advice and a sense of community at UOW.

For more information and to apply via this pathway, visit uow.info/WIC or call (02) 4221 3776.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

UOW may award a maximum of **11 adjustment points** (16 for the Bachelor of Pre-Medicine, Science and Health applicants from regional and remote areas) across the following categories. For details, visit uow.edu.au/study/high-school/apply.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, visit uac.edu.au/eas
Location adjustments For students who attend school in UOW's catchment area or in regional and remote areas	Completing the HSC at a school in the UOW catchment area or regional NSW ■ Automatically applied Adjustments are based on the school attended. To check if your school is eligible, visit uow.info/catchment-adjustments Applicants for B Pre-Medicine, Science and Health ■ Applies to students living in regional or remote areas defined by the Australian Statistical Geographical Classification – Remoteness Area (ASGC-RA) (abs.gov.au) ■ Automatically applied For more information visit uow.info/atar-admission
Subject adjustments For students who perform well in HSC subjects related to specific UOW course preferences	■ Automatically applied For details, visit uow.info/subject-adjustments

Early offer schemes

Early Admission	Important dates Applications open: June 2023 Applications close: August 2023
	Assessment criteria ■ On track to complete an Australian senior secondary qualification (eg HSC or interstate equivalent) or the IB diploma in Australia ■ Year 11 and 12 results, including trial results ■ Responses to questions in your application addressing the themes of academic readiness, motivation and passion, planning and persistence, communication and collaboration
	How to apply Submit a direct application to UOW. Visit uow.info/early

For the latest course information and detailed admission criteria visit uac.edu.au/uow

UNSW Sydney Open Day

Saturday 2 September 2023

UNSW Canberra Open Day

Saturday 19 August 2023

Important dates

Term 1

Monday 12 February to Thursday 9 May 2024

Study period: Saturday 20 to Thursday 25 April 2024

Exams: Friday 26 April to Thursday 9 May 2024

Term break: Friday 10 to Sunday 26 May 2024

Term 2

Monday 27 May to Thursday 22 August 2024

Study period: Saturday 3 to Thursday 8 August 2024

Exams: Friday 9 to Thursday 22 August 2024

Term break: Friday 23 August to Sunday 8 September 2024

Term 3

Monday 9 September to Thursday 5 December 2024

Study period: Saturday 16 to Thursday 21 November 2024

Exams: Friday 22 November to Thursday 5 December 2024

Dates may be adjusted. For most recent dates, visit student.unsw.edu.au/calendar. Some programs may have different dates, refer to student.unsw.edu.au/calendar.

Studying at UNSW Sydney

AT UNSW Sydney you'll discover your potential to make a positive difference in the world. When you study at UNSW you'll be challenged to turn your interests into world-changing ideas. You'll build the skills, experience, knowledge and connections to make it happen.

As a global top 50 university (QS World University Rankings 2022), our learning experience includes hands-on opportunities, work-integrated learning and extracurricular activities so you can uncover your strengths and passions during your degree. Located just 7 kilometres from Sydney's CBD and minutes from Coogee and Bondi Beach, UNSW is one of Australia's most vibrant universities – with over 60,000 students from 135 countries.

UNSW's 3+ teaching calendar – made up of three 10-week teaching terms and an optional intensive summer term – gives you flexibility to pursue professional development opportunities. These experiences set you up for career success, with more of our undergraduate students finding full-time employment and earning higher salaries than any other Group of Eight university (QILT Graduate Outcome Survey 2021).

Our six faculties combine world-leading researchers and educators to impart the most up-to-date industry trends and the knowledge and skills to be at the forefront of your industry. You'll learn the latest industry practices and push boundaries, being mentored by renowned minds to learn the trends and insights of tomorrow's workforce. At UNSW our learning is hands on, taking your learning beyond the classroom, with access to facilities, business leaders and real-world situations that will prepare you for work.

We're committed to taking actions today that create a more positive tomorrow. UNSW leads the way towards a more sustainable future, pioneering renewable power and materials in our research. On campus we've switched to 100 per cent renewable electricity and plastic-free dining. Our community is pushing boundaries and solving today's biggest challenges; that's why we're home to more top-rating research than any other Australian university in the current Excellence in Research for Australia Report.

Aboriginal and Torres Strait Islander applicants

UNSW offers entry programs specifically for Indigenous Australians. The entry pathway program you apply for will depend on the degree you want to study. Throughout these programs you will be assessed on your commitment, attitude and aptitude towards your studies and your ability to participate academically in your selected discipline.

UNSW Indigenous Preparatory Programs (Pre-programs)

The Pre-program for Business, Education, Law, Medicine, Science and Engineering, and Social Work for Aboriginal and Torres Strait Islander people is a four-week residential program that involves participation in lectures, tutorials, group work, social activities, exams and assessments. Selection for the program is based on the submission of an application.

For more information, visit nuragili.unsw.edu.au/preprograms.

UNSW Indigenous Admission Scheme (IAS)

IAS is an entry pathway administered by Nura Gili in conjunction with the UNSW Admissions Office. Entry to UNSW through this program means consideration is given

to an applicant's relevant life, work, educational and training experience as preparation for study. You can apply if you have not completed school or achieved a requisite ATAR score for entry into your preferred course of study. This admission scheme is designed to assess your capacity to study at a tertiary level in your preferred area of study.

IAS is only open for degree programs outside of our Indigenous Pre-programs. For further information, visit indigenous.unsw.edu.au/future-students/pathways-unsw/indigenous-admission-scheme.

Enabling programs for Aboriginal and Torres Strait Islander people

Enabling programs for Aboriginal and Torres Strait Islander People are one-year programs that provide a pathway into academic study in Law or Arts and Social Sciences. It is for Aboriginal and Torres Strait Islander students who may need to gain further knowledge in their selected discipline or better prepare themselves for university.

For more information, contact Nura Gili: indigenous.unsw.edu.au/about/contact-us.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to page 25 for an explanation of how selection rank adjustments work.

UNSW awards adjustment points across the following categories. For details, search for 'adjustment factors' on the UNSW website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS)/UNSW ACCESS Scheme ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Elite athlete and performer adjustments For students who have excelled in areas of sport, academia, leadership and/or music at an elite level	UNSW Elite Athletes, Performers and Leaders (EAPL) Program ■ Submit an application direct to UNSW For details, go to unsw.edu.au/study/how-to-apply/undergraduate/entry-requirements/adjustment-factors
Subject adjustments For students who perform well in Year 12 subjects relevant to specific UNSW course preferences	HSC Plus ■ Automatically applied For details, go to unsw.edu.au/study/how-to-apply/undergraduate/entry-requirements/adjustment-factors

Early offer schemes

UNSW Gateway Admission Pathway and Program	The Gateway Admission Pathway is an alternative pathway to UNSW for Year 12 students which considers more than just your ATAR. It significantly adjusts the ATAR requirements for your preferred UNSW degree and provides you with an early conditional offer to UNSW. You are eligible to apply if you are in Year 12 and receiving an ATAR and either: ■ attend a Gateway school or ■ are identified as eligible based on SEIFA consideration For more information visit unsw.edu.au/study/how-to-apply/undergraduate/admission-pathways/Gateway/admission-pathway

Studying at UNSW Canberra - ADFA

UNSW Canberra at the Australian Defence Force Academy (ADFA) is the Canberra-based campus of UNSW Sydney (University of New South Wales). ADFA is a unique partnership between the Australian Defence Force and UNSW Canberra, providing training and education for future leaders of the Australian Defence Force.

Students can apply to be considered under the Defence Civilian Undergraduate Sponsorship scheme into Engineering, and Computing and Cyber Security degree programs.

Additionally, UNSW Canberra also provides education to non-Defence applicants pursuing studies in Engineering.

International students cannot apply to ADFA.

Aboriginal and Torres Strait Islander applicants

Aboriginal and Torres Strait Islander applicants should contact Student Administrative Services on (02) 5114 5000 or email sas@adfa.edu.au.

Early offer schemes

There are no UNSW Canberra early offer schemes.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

UNSW awards adjustment points across the following categories. For details, search for 'adjustment factors' on the UNSW ADFA website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS)/UNSW ACCESS Scheme ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Elite athlete and performer adjustments For students who have excelled in areas of sport, academia, leadership and/or music at an elite level	UNSW Elite Athletes, Performers and Leaders (EAPL) Program ■ Submit a direct application to UNSW For details, go to unsw.edu.au/study/how-to-apply/undergraduate/entry-requirements/adjustment-factors
Subject adjustments For students who perform well in Year 12 subjects relevant to specific UNSW course preferences	HSC Plus ■ Automatically applied For details, go to unsw.edu.au/study/how-to-apply/undergraduate/entry-requirements/adjustment-factors

For the latest course information and detailed admission criteria visit uac.edu.au/unsw-adfa

Studying at Western Sydney University

Western Sydney University prides itself on challenging the traditional notion of what a university should be. We are deeply embedded in the community and the region we serve – Australia's fastest-growing economy.

We are dedicated to ensuring our students enjoy a dynamic learning experience. From our award-winning, tech-infused vertical campuses in Western Sydney's growing CBDs, to the forward-focused new teaching methodologies, we ensure you are well prepared for the future.

Ranked in all major global rankings systems, we are delighted to be ranked number one in the world in the prestigious Times Higher Education (THE) Impact Rankings 2022. Assessing universities on their commitment to the UN's Sustainable Development Goals, Western Sydney University topped the list of more than 1,400 universities for our response to issues such as sustainability, climate action, equality, inclusivity and social justice.

Western Sydney University is also a research leader – the result of focused investment in its research strengths and facilities. We see learning and research as connected aspects of the student experience. We work with regional, national and international partners to deliver research that has a positive impact on the economic, social and environmental wellbeing of our communities.

At Western we demonstrate our pledge to students with our unique early offer program, HSC True Reward. We recognise that you are more than your ATAR so we focus instead on your strongest skills and the subjects in which you excel. At Western we make early offers based on your Year 11 or Year 12 results in the subjects that matter most to your chosen degree.

For high achievers, The Academy at Western Sydney University is a program that challenges our students to think differently and cultivates leadership skills. We empower our students with professional and personal experiences so they can influence change locally and globally.

With more than 200,000 highly respected alumni, the university offers the benefits of a dynamic, culturally rich and globally aware graduate community.

With a modern outlook, Western Sydney University has an agile and contemporary take on traditional higher education offerings, affording students, both international and Australia-based, significant advantages and unique opportunities.

Selection rank adjustments

Your selection rank for a course is your ATAR plus adjustment points awarded by the institution. Adjustment points will make you more competitive for an offer to the course. You will not be notified of the number awarded to you. Refer to [page 25](#) for an explanation of how selection rank adjustments work.

Western Sydney University may award **up to 10 adjustment points** in total across the following categories. For details, search for 'adjustment factors' on the WSU website.

Equity adjustments For students who have experienced educational disadvantage	Educational Access Scheme (EAS) ■ Submit an EAS application via UAC For details, go to uac.edu.au/eas
Location adjustments For students living or studying in the Western Sydney region	■ Automatically applied To check if your postcode is included, search for 'regional bonus points' at westernsydney.edu.au
Elite athlete and performer adjustments For athletes and performers whose commitments have impacted their Year 12 studies	■ Submit a direct application to Western: search for 'Elite Athletes or Performers Scheme' at westernsydney.edu.au
Subject adjustments For Band 5 or 6 (and small range of Band 4) results in any HSC or IB subjects relevant to the degree you want to study	■ Automatically applied For details, search for 'subject bonus points' at westernsydney.edu.au
Australian Defence Force/Veteran Programs adjustments Western Sydney University is proud to support currently serving Australian Defence Force members and previously serving veterans in their transition to study and balancing service or post-discharge requirements throughout their education	Automatically applied to eligible applicants Support is also available for: ■ enrolment ■ student club and dedicated Student Veteran Program ■ health clinic and psychology services ■ welfare services, including counselling and disability support ■ study and career transition services

Aboriginal and Torres Strait Islander applicants

In addition to applying through UAC, Aboriginal and Torres Strait Islander applicants may wish to be considered for entry through the Aboriginal and Torres Strait Islander Pathway Program.

The Pathway Program will be delivered virtually, with assessments and an interview component completed online.

We accept applications throughout the year with assessment workshops scheduled in:

- August (2024 commencement)
- November (2024 commencement).

For more information, visit westernsydney.edu.au/pathwayprogram or call our friendly student support team on 1300 897 669.

Early offer schemes

Schools Recommendation Scheme	Apply via UAC. Applications close 18 September 2023
HSC True Reward	Important dates Applications open: April 2023 Applications close: December 2023 Offers released: December 2023 For details go to westernsydney.edu.au/hscruereward
	Assessment criteria Depending on the undergraduate degree you choose, you need to meet a specified HSC band outcome in nominated courses. Some degrees are excluded from this program.
	How to apply Apply via the Western Sydney website

For the latest course information and detailed admission criteria visit uac.edu.au/ws

HSC TRUE REWARD

Part 3:

Apply direct institutions

<u>Academy of Interactive Entertainment</u>	191
<u>Academy of Music and Performing Arts</u>	193
<u>Australian Institute of Music</u>	195
<u>Endeavour College of Natural Health</u>	197
<u>JMC Academy</u>	199
<u>William Angliss Institute</u>	201

Introduction

The institutions in this section manage their own admissions. UAC does not process applications to these institutions.

Each institution's entry includes general information and a list of available courses. Full course descriptions are published on the [UAC website](#).

Reading the course lists

Course name

B	= Bachelor
M	= Master
Dip	= Diploma
AdvDip	= Advanced Diploma
AssocDeg	= Associate Degree

Fee type

The fee type indicates how much you pay towards the cost of the course. The two main types of courses for domestic students are:

DFEE	= domestic fee-paying (not subsidised – you pay the full cost of the course) Most courses offered at apply direct institutions are DFEE.
CSP	= Commonwealth-supported place (subsidised by the Australian Government)

All international students pay the full cost of their course.

Course code

Each course is given a UAC identification code. This code is for use on UAC's online course search only. You do not apply for this course through UAC or use this code when you apply directly to the institution.

Duration

3F	= 3 years of full-time study
6P	= 6 years of part-time study
3F/EqP	= 3 years of full-time or equivalent part-time study
D	= Distance or online

Find your way to uni

Course Compass draws on the experience of over 100,000 recent UAC applicants to show you paths taken by students just like you.

Important dates

2024 applications open on Monday 3 April 2023.

Studying at AIE

The Academy of Interactive Entertainment (AIE) is Australia's most awarded 3D animation, game development, filmmaking and visual effects educator. Created as a non-profit organisation to grow the creative digital sector, AIE pioneered the development of specialist qualifications and continues to innovate through industry partnerships and dynamic teaching. AIE courses are practical, career-focused and delivered by industry-experienced teachers in a seriously fun and creatively demanding studio environment.

AIE offers specialist training in computer game development (art, design and programming), film, virtual production and visual effects, supporting the Australian digital creative industries, which continue to grow faster than any other entertainment or content sector. All AIE's certificate and advanced diploma programs are nationally accredited and recognised through the Australian Qualifications Framework.

AIE graduates can be found working around the world at major games, animation and visual effects studios: Animal Logic, ILM, Weta Digital, Epic Games, Mighty Kingdom, Ubisoft and Rockstar. Our graduates have been credited on blockbuster games including GTA V, Destiny and Gears of War 5 and their short films have featured in film festivals around the world. AIE graduates have worked on blockbuster films and TV shows, including *Spiderman: No Way Home*, *The Lego Movie* and *Loki* as well as AIE's funded feature films *Blue World Order*, *The Furies* and *Sissy*.

The software, production process and knowledge involved in the development of games, film and visual effects production mirrors activity in technology-driven industries from engineering, architecture and urban planning to defence simulation and biotechnology. AIE graduates are just as likely to be hired by a games or film studio as they are a software development team working within Australia's biggest finance companies.

Studying at AMPA

The Academy of Music and Performing Arts (AMPA) is an innovative independent institution leading the way in tertiary education for performing arts in Australia.

With its uniquely personal approach and highly selective admission criteria, AMPA commits to providing the highest quality in undergraduate and postgraduate performing arts degrees. Focus areas include music (contemporary, jazz and classical), dance (contemporary, ballet, jazz and hip hop), and music theatre and composition/music production.

The institution’s supportive and collaborative community environment encourages students to pursue excellence in all aspects of their academic, practical and creative study. AMPA equips talented artists with the skills essential to succeed as musicians, dancers, performing artists, composers, producers, choreographers, directors, teachers and industry professionals in Australia and around the world.

Studying at AIM

The Australian Institute of Music (AIM) is the only private tertiary college in Australia dedicated exclusively to the pursuit of excellence in music. We are committed to helping our students carve out a path to a fulfilling career in the music industry.

Our degree programs include the Bachelor of Music, Bachelor of Music Theatre, Bachelor of Arts and Entertainment Management and Master of Music. Within the Bachelor of Music program, students can specialise in Performance, Composition, Creative Technology (Audio), Arts Management or Musicology. We also deliver the 12-month Diploma of Music and Diploma of Arts and Entertainment Management – skills-based introductions to the music industry.

At AIM we know that industry and practical experience matter – that's why our academics are all music industry professionals who will help ensure you receive an education that's current and relevant. We provide opportunities for you to connect with industry through a series of industry-focused events, masterclasses and our internship program.

With campuses in central Sydney and Melbourne, you'll have access to AIM's world-class facilities during and after completion of your study.

As a student, you will be part of a thriving student community, an industry-connected institution and a faculty dedicated to bringing out your best work. This will help you start developing a network of music professionals that you'll remain connected with throughout your music career.

Our singular focus on music education provides students with the specialised skills required to excel in all facets of the music and entertainment industry. We also offer a wide range of electives to complement your main area of study. If you want to pursue or further your career in music, start developing your industry connections and take your skills to the next level, AIM is the place to be.

starts in August

Most semester 1 and 2 subjects are available to start online at the beginning of any month.

Studying at Endeavour

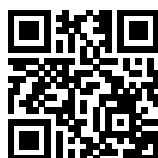

At Endeavour College of Natural Health, we're committed to the future and success of natural health both in Australia and internationally. Our purpose is to educate first-rate professionals who are perfectly positioned to service the thriving health and wellness sector.

Endeavour College of Natural Health offers four bachelor degree programs in Naturopathy, Nutritional and Dietetic Medicine, Acupuncture Therapies and Chinese Medicine, as well as three diplomas: our HLT52015 Diploma of Remedial Massage, Diploma of Health Science, and Diploma of Health Science (Chinese Remedial Massage). In addition, Endeavour College offers an HLT42015 Certificate IV in Massage Therapy four undergraduate certificates and a series of fully online short courses. Endeavour College offers a range of scholarship opportunities for new domestic students, including school leavers, Aboriginal and Torres Strait Islander peoples and full-time students in select courses.

Each campus hosts a fully equipped student clinic which is open to the public and provides a variety of affordable, natural healthcare treatments. At these clinics, students gain significant clinical experience under the supervision of qualified practitioners.

It's an exciting time to become more involved in the dynamic and booming natural health industry. There's never been such high demand in Australia for natural health practitioners and the range of industries employing our professionals continues to grow. We believe that more than half of the job types available to health and wellness professionals of the future are yet to be invented. This means your wellness career could take exciting turns you could never have predicted.

We are committed to advancing the future of natural medicine by ensuring our graduates are equipped with a competitive edge to become leaders in their chosen fields of practice.

Studying at JMC Academy

As Australia's leading and most experienced creative education provider, we have been nurturing passionate creatives for over 40 years with fully accredited, industry-leading degrees and diplomas. Our unique, hands-on approach to creative education, along with our world-class facilities, inspire exploration, collaboration and innovation.

Co-curricular projects and programs

JMC Academy's curriculum has been developed with a focus on emerging industry trends, professional development, collaboration and networking. Our programs are unique in combining essential critical thinking with the project-based work and practical experience critical to industry. Students from all departments have the opportunity to work together and apply their skills on collaborative projects. Students are also able to build and apply their knowledge abroad and create global networks through our study tours and exchange opportunities.

Learn from the experts

All JMC Academy courses are designed and taught by leading and award-winning industry experts alongside academics to ensure you graduate with contemporary best practice, ready to hit the ground running as a confident creative leader of tomorrow. Our student wellbeing and career support programs ensure you develop your professional practice while also practising self-care.

World-class facilities

When you choose to study at JMC, you gain access to a wide range of world-class facilities and industry-leading software, all included in your tuition. Professional recording studios, post-production suites, digital media and animation labs, film and television studios and an on-campus drama studio and auditorium are just some of the facilities you'll have access to during your time with us.

Internships

Our formal internship program allows you to engage in real industry placements across established national and local companies, including major recording studios, commercial radio and television networks, advertising and design studios, major labels, festivals and major sporting events.

Studying at William Angliss Institute

Founded in 1940, William Angliss Institute focuses on developing leaders in the 'experience economy' – foods, tourism, hospitality and events – where consumers choose to spend more, share more and find more happiness in 'experiences' rather than 'things'. We offer a broad range of training and education programs including short courses, certificates, diplomas, associate degrees, bachelor degrees and postgraduate qualifications.

The Sydney campus is centrally located in Alexandria, known for its creative edge and surrounded by cafes, bars and restaurants; this area is the perfect place to learn and launch your career in Australia's experience industry. We pride ourselves on having passionate and dedicated people with long-standing industry ties who contribute their knowledge and experience in delivering training of the very highest standard.

Our Sydney campus offers endless experiential opportunities while you gain world-recognised qualifications. Feel at home at our modern campus with state-of-the-art facilities:

- super training kitchens
- bright street-front cafe
- large training restaurant with balcony dining
- full training bar
- dynamic mix of formal and informal learning spaces
- relaxed student break-out spaces
- close to many restaurants, parks, cafes, bars and events venues.

Part 4:

Course Finder

Course Finder is a guide to undergraduate courses offered to domestic students in 2024.

Not all courses are available to international students: refer to the institution information in [Part 2](#) for details.

Course Finder is in two parts:

1. 'Find your topic of interest' directs you to the fields of study that incorporate your interests.
2. 'Find your course' lists relevant courses under each field of study.

Full course descriptions will be published on the [UAC website](#) when details are confirmed.

Find your topic of interest	204
Find your course	207

Find your topic of interest

1. Find a topic that interests you (eg Aboriginal studies). It will refer you to one or more fields of study (eg see Health and Society and Culture).
2. Turn to 'Find your course' and look up the cross-referenced field of study (eg Society and Culture). Browse the courses offered in that field.

Find your course

Full course descriptions will be published on the UAC website as details are confirmed. All course descriptions will be published by August 2023.

All university courses are categorised into fields of study, or disciplines, defined by the Department of Education. You'll find that university faculties and schools are organised in a similar way, although the actual names vary – one uni might have a Faculty of Engineering while another uni has a Faculty of Engineering and IT.

Key to institution abbreviations

Farra Nadia Zaed

Graduate Architect, DJRD Architects

Bachelor of Design in Architecture/Master in Architecture

Graduated in 2020

Studying architecture allowed me to embrace both my problem-solving skills and my creative skills. As time progressed I realised that architecture is not just an industry – the skills you attain through your degree and work can be applied globally!

In my graduate role I'm working on healthcare projects ranging from hospitals to ambulance stations. The intersection between healthcare and design highlights the importance of architecture as a tool that can impact not only the outcome of the build, but also our lives, mood and behaviour.

Architecture and Building

Architecture and building is the study of the art, science and techniques involved in designing, constructing, adapting and maintaining public, commercial, industrial and residential structures and landscapes. It includes the study of the art and science of designing and planning urban and regional environments.

Topics studied include aesthetics and space dynamics; architectural design and drawing; building economics; building science; building techniques and technologies; construction management; town planning.

Career opportunities include architect, building/property manager, building or land surveyor, construction manager, environmental planner, estimator, exhibition display designer, industrial designer, interior designer, landscaper, property valuer, town/urban planner.

My degree was a once-in-a-lifetime chance to experiment with my passions. I participated in electives, short courses and other opportunities to explore areas that interested me and met people who were changing their industry – and others who were making new ones.

My work constantly challenges me to think about the world as a system: how do the relationships and activities of a business work both internally but also with the industry, the market and the world? How can we solve the strategic problems of today in ways that build resilience for our ever-changing and complex future?

Emily Choi

English as an Additional Language/

Dialect Teacher and Classroom Relief Teacher

Bachelor of Arts/Bachelor of Education

Graduated in 2021

“

I decided to study Primary Education because I loved the idea of supporting young humans in their learning in a genuine and authentic way. During my studies, I participated in placements where I gained teaching experience with a variety of students from different year groups. A piece of advice I was given was to believe that I could teach because by showing up for my students every day, I was already teaching.

Working in education, I've had the opportunity to build connections with students and their families. It has been truly rewarding to witness individual students develop academically, personally and socially. There has never been a better time to be in education than right now.

”

Engineering and Related Studies

Engineering and related studies is the study of the design, manufacture, installation, maintenance and functioning of machines, systems and structures; and the composition and processing of metals, ceramics, foodstuffs and other materials. It includes the measurement and mapping of the earth's surface and its natural and constructed features.

Topics studied include all engineering specialties; engineering and manufacturing technology; food technology; land information technology and remote sensing; materials science; mechatronics; principles of design, drafting, planning and commissioning; plant and machine maintenance.

Career opportunities include engineer in one of the following specialties: aeronautical, chemical, civil, communications, construction, electrical/electronic, environmental, geotechnical, industrial, manufacturing, marine, materials, mechanical, medical, metallurgical, mining, petroleum, production, software, structural, systems, telecommunications.

Combined and double degrees only appear under one field of study. Check both areas you are interested in to find these courses. Combined Law degrees are listed after 'Society and Culture'.

“

I chose to study a Bachelor of Engineering because I wanted to be able to apply science and mathematics in a practical way to help make a difference in society. Engineering is all about figuring out how things work and creating solutions to the challenges we face, including climate change, natural resource depletion, food shortages and increased demands on energy.

An engineer's career can be diverse, and you may have the opportunity to work in areas outside of engineering, such as management, banking and consulting. As a graduate mechanical engineer, I'm learning from and working with planners, designers, engineers, consultants and construction managers on projects including transportation, buildings, water and new energy infrastructure.

”

Matthew Fisher

Graduate Mechanical Engineer, AECOM

Georgia Boyd

Human Resources Executive, Pier One Sydney Harbour

Bachelor of Hospitality Management

Graduated in 2021

“

The Bachelor of Hospitality Management equipped me with the critical theory, business knowledge and practical skills needed to become a leader within the hospitality industry. My degree helped me develop a real passion for hospitality and enabled me to secure a graduate leadership position straight out of university.

I have always been a 'people person' at heart and love travelling, so I was very excited to work in an industry that offers the opportunity to live and work overseas. I'm now working in my dream job, which lets me combine my two passions, hospitality and HR, and provides me with the ability to travel the globe while I further my career.

Food, Hospitality and Personal Services

Food, hospitality and personal services is the study of preparing, displaying and serving food and beverages, providing hospitality services, caring for the hair and body for grooming and beautification, and other personal services.

Topics studied include application and use of skin care and cosmetic products; general beauty care; hair cutting, styling, colouring and treatment techniques; housekeeping; hygienic work practices in relation to the food and hospitality industry; preparation, display and service of food and beverages.

Career opportunities include catering manager, conference/exhibition organiser, event planner, hotel manager, resort manager, restaurant manager, tour operator, tourist information manager, travel consultant.

Health

Health is the study of maintaining and restoring the physical and mental wellbeing of humans and animals.

Topics studied include disease processes and mechanisms; diagnosis; principles and practices of public health; restoration and maintenance of health.

Career opportunities include audiologist, biochemist, chiropodist, chiropractor, community health worker, dentist, dietitian/nutritionist, doctor, exercise physiologist, fitness/personal trainer, health administrator, midwife, nurse, occupational therapist, oral health therapist, paramedic, pathologist, pedorthist, pharmacist, physiotherapist, podiatrist, psychologist, psychotherapist, radiographer, radiologist, researcher, sonographer, speech therapist, sports scientist/coach.

Combined and double degrees only appear under one field of study. Check both areas you are interested in to find these courses. Combined Law degrees are listed after 'Society and Culture'.

“

Studying Nursing has been very different from my expectations. You gain a holistic education of the health system and a person's progression through life, rather than just how to take a blood pressure or give medication.

My career goals are to either work in anaesthetics or to do something that really gets the adrenaline pumping, like working in the ICU or emergency department. Once I finish my study, I'll have so many options – that's the beauty of a nursing degree. I can move anywhere, and my degree will be able to take me there.”

Sarah Loft

Assistant in Nursing

My ICT degree allowed me to pursue a career in IT security and cloud services – two high-growth areas in the IT sector. As part of the Diploma in Professional Engineering Practice, I completed 12 months of internships. After graduating, I was able to get work immediately.

At AWS, which is a cloud provider, I help organisations of all sizes troubleshoot any issues they face while working with the AWS security services.

The most enjoyable aspect of my job is knowing that I am helping customers successfully migrate to the cloud and improve their business.

Heshaam Sahib

Cloud Security Engineer, Amazon Web Services (AWS)

Bachelor of Engineering (Honours)

Diploma in Professional Engineering Practice

Majored in ICT/Network Security

Graduated in 2018

Information Technology

Information technology is the study of the processing, transmitting and storage of information by computers.

Topics studied include computation theory; computer programming; data format and coding; management, storage and retrieval of information in a computer environment; robotics programming and artificial intelligence; systems analysis.

Career opportunities include app developer, computer programmer, computer scientist, cyber security specialist, data analyst, digital media producer, game designer, graphic designer, graphic web designer, filmmaker, illustrator, information systems manager, intelligence analyst, IT consultant, network administrator/engineer, photographer, software developer, systems analyst/developer, ui/ux designer, visual effects artist, web designer/developer.

Studying Economics taught me the important function of global finance and its effect on society and our day-to-day lives. At university I had the opportunity to take part in extracurricular industry programs, and in my final year I was set up with a mentor who invested his time in me and helped open doors into the industry.

Since graduating, I've had the chance to test how the theories I learned in my degree play out in the 'real world' of capital markets and in my role at Australia's largest stock exchange.

Benjamin Hatava

Senior Analyst, ASX (Australian Securities Exchange)

Bachelor of Economics

Graduated in 2018

“

My degree provided skills that are highly valued in my industry, such as using programs with GIS [geographic information systems] and the ability to effectively analyse and interpret data. Taking part in an internship pushed me out of my comfort zone and prepared me for life after university.

My end goal has always been to use the knowledge I have gained from my studies in conjunction with my drone business to help farmers create a better future for farming. Using my drone data and interpretation, I want to not only give farmers a better understanding of their crops, but also provide insights to the agricultural industry and environment.”

Dayna Scapin

Founder, InnerVision Drones

Bachelor of Science (Regenerative Agriculture)

Graduated in 2022

Natural and Physical Sciences

Natural and physical sciences is the study of all living organisms and inanimate natural objects, through experiment, observation and deduction.

Topics studied include atmospheric sciences; biological processes; chemical reactions; geological composition and structures; laboratory methodology; mathematical and statistical techniques; observation and measurement; scientific method; subatomic particles and quantum mechanics; thermodynamics and entropy.

Career opportunities include astronomer, biomedical scientist, biotechnologist, chemist, horticulturist, conservationist, environmental officer/scientist, fisheries manager, food scientist, forensic officer, forestry worker, geneticist, geologist, immunologist, lab technician, marine scientist, meteorologist, microbiologist, nanoscientist, oceanographer, pharmacist, pilot, psychologist, psychotherapist, researcher, soil scientist, statistician, wildlife biologist, zookeeper.

Lauren Perry

Responsible Technology Policy Specialist

Human Technology Institute, UTS

Bachelor of Communications (Social Inquiry)

and International Studies (Chile)

Graduated in 2015

Studying Social Inquiry opened my mind to the diversity of people and communities, and the social justice issues which shape our daily lives. Combining this with International Studies provided me with valuable intercultural skills and the opportunity to live and study overseas for a year as part of my degree.

For the past few years, I have been working in the new field of responsible technology policy, leading projects which ensure Australians can enjoy the benefits of artificial intelligence while being protected from harm.

Understanding people and their behaviour are central to so many aspects of government decision making and our legal system, so building the foundation in both law and arts positioned me well for my career.

My role in the Australian Public Service has such variety and depth. I am constantly addressing complex issues, problem solving, negotiating outcomes and persuading others. I haven't had a traditional career in a firm or in the legal system, but seeing how legislation is made and supporting good governance and national decision making have all benefited from my background in law.

Jacob Madden

Assistant Secretary, Emergency Preparedness and Response, Department of Health and Aged Care

Bachelor of Laws (First Class Honours) and Bachelor of Arts (Behavioural Science)

Graduated in 2011

Law and Law Combined

Mixed Field (Pathway) Programs

Mixed field programs provide personal development training and general education in a range of subject areas, such as history, geography, natural science, social science, art and music.

Topics studied include general studies; literacy and numeracy skills; personal, social and workplace relationships.

Mixed field programs offer students a pathway to higher education.
