There are loads of options, so perhaps scroll through the list, select 3 titles that 'jump out' at you that you may think might be interesting and listen to several of the loops in that option. You will need to listen widely and make your composition interesting. You will be able to listen back to your composition and make adjustments to your original one as you go. This task will be completed in class. You will need to save your work to the required location so that marking can be completed. Instructions will be made available to you during weeks 3, 4 and 5.
