Year 12-2024
MATHEMATICS STANDARD 2
D.GOUVOUSSIS

Task Number: 2
Weight: 20\%

## Notification Date: Thursday $15^{\text {th }}$ February 2024 Due Date: Thursday $14^{\text {th }}$ March 2024 <br> Must be handed in by 3pm to Ms Gouvoussis in Room 7

## OUTCOMES ASSESSED

MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments.
MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts and applies critical thinking to recognise appropriate times and methods for such use.
MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly. to others and justifying a response.

## TASK DESCRIPTION

Students will be required to submit all parts of the assessment on Investing Money.

## TASK INSTRUCTION

Students will need to hand in their response by 3pm on Thursday $14^{\text {th }}$ March 2024. The topics being assessed are: Chapter 3 - Investments and loans
During the assessment task, students will not be able to interact with other students or utilise any technology other than a NESA approved scientific calculator. Mobile phones cannot be used as a calculator during the task.

Students may bring their class notes and coursework for use during the task. They will not be permitted to refer to or use any other materials including the textbook.

This is an assignment. Students can prepare for the task by ensuring they are up to date with coursework, have worked examples for the different types of questions in their workbook, attempting end of chapter review questions and sought clarification from their teacher in class.

## MARKING GUIDELINES

Marks will be allocated next to each question. Full marks cannot be achieved without showing working apart from 1-mark questions. The questions will be grouped into each topic area. Each area will be worth $20 \%$ of the task.

| Task Mark | Task Rank | Cumulative Rank |

## 2024 HSC MATHEMATICS STANDARD 2 ASSESSMENT TASK 2

| Subject | HSC Mathematics Standard 2 |  |  |
| :--- | :--- | :--- | :--- |
| Weighting | $20 \%$ | Marks Available | 32 |
| Issue Date | $15^{\text {th }}$ February 2024 | Due Date | $14^{\text {th }}$ of March 2024 |

## Outcomes to be assessed:

MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments
MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

## INVESTING MONEY

## Task Outline:

You have received an inheritance, and you decide to put it into an interest-bearing account for a duration. Subsequently, you invest the accrued amount in shares of your choosing. You will closely monitor the fluctuations in the value of these shares over a two-week period. After this period, you plan to liquidate your shares and use the resulting amount, or a portion thereof, to acquire an item. This item is expected to depreciate in value over time. Eventually, you intend to sell the item and assess the profit or loss incurred since the initial receipt of the monetary gift. For detailed information, refer to the table provided below.

## Task Presentation:

- Part One will be submitted electronically (via email - dimitra.gouvoussis@det.nsw.edu.au) as an Excel document.
- Parts Two and Three will be submitted as a printed hard copy. These parts should be presented in a Word document which synthesises graphs, tables, quotes, screenshots and alternate pieces of evidence of your research from other sources and computer software programs.

## PART ONE: COMPOUND INTEREST (9 marks)

You have inherited MONEY. This is to be invested at RATE for TIME and is compounded PERIOD.
i. Create an Excel document using formulas to determine the value of the given amount after the given time frame.
ii. Each compounding period must be displayed.
iii. Create a line graph, which represents your calculations.
iv. Ensure the final amount is clear.

PART TWO: INVESTING AND RECORDING SHARE PRICES (16 marks)
i. A company has been selected for you. If you wish to change this please consult your classroom teacher ensure your preferred company is different from your classmates. You will be given one lesson to research this part of the assignment and you must submit your alternate company to the teacher.
ii. Provide a brief description as to what your company does.
iii. What is the current share price of this company?
iv. Using the final amount from PART ONE, determine how many shares you will be able to purchase, given that you must pay a brokerage fee of $\$ 35$.
v. Record the price of your shares every day for 2 weeks. Present this in a table, using screenshots as evidence of research.
vi. By hand, or using Excel, create a line graph which represents the change in your shares price over the two weeks.
vii. What is the value of your shares at the end of the two-week period? (Note: this is the amount that you cash out of the share market and use in Part Three)
viii. Did you make a profit or a loss?
iv. Calculate the profit/loss percentage

## PART THREE: DECLINING BALANCE DEPRECIATION (7 marks)

Using the money that you have cashed out of the share market, you are able to purchase an item of your choice. Choose an item that will depreciate in value (use the declining balance depreciation formulae). i. Provide a brief description of your item and determine why it is one that will depreciate in value.

Evidence must be provided.
ii. If this item depreciates by RATE find the value of the item after TIME.
iii. At the end of TIME you sell the item for its depreciated value. Determine the profit/loss you have made since you were first gifted the monetary amount.

MARKING GUIDELINE

|  | 0 | 1 | 2 | 3 | 4 | 5 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| PART ONE: COMPOUND INTEREST (9 marks) |  |  |  |  |  |  |
| Summary of information | No summary of information | Information clearly provided |  |  |  |  |
| Excel document |  | Used correct amounts but incorrect formula No compounding periods | Up to three errors in calculations | Two errors in calculations | One error in calculations | Correct amount Correct formula Represents the correct compounding period |
| Excel graph | No graph | Incorrect attempt at graph | Minor errors in graph | Correct graph which represents data accurately |  |  |

PART TWO: INVESTING AND RECORDING SHARE PRICES (16 marks)

| Selection of <br> company | No company <br> selected | Company selected <br> with no or limited <br> description on <br> what the company <br> does | Company <br> selected with <br> brief description <br> on what the <br> company does |  |  |
| :---: | :--- | :--- | :--- | :--- | :--- |
| Research of <br> shares | No research <br> provided | Share price given <br> with evidence <br> provided |  |  |  |
| Calculation <br> of shares | No calculations | Multiple errors in <br> calculations | Minimal errors <br> made in <br> calculations | Clear and accurate <br> calculations of how <br> many shares can be <br> purchased taking <br> into consideration <br> the brokerage fee |  |
| Recording of <br> share prices | No record of <br> share prices | Each day is <br> recorded with no <br> or minimal <br> evidence provided | Days are missing | Each day is <br> included for the 2 <br> week period with <br> evidence provided |  |
| Graph of <br> share prices | No graph <br> provided | Errors in graph | Accurate graph <br> with axis <br> unlabelled | Detailed showing <br> all information <br> from the table with <br> labels on each axis |  |
| Value of <br> shares | No calculation <br> provided | Calculation errors | Calculates the <br> final amount after <br> the 2 week period |  |  |
| Profit/loss | No calculations <br> provided | Identifies if a <br> profit/loss has <br> been made or <br> correctly <br> calculates the <br> percentage | Identifies if a <br> profit/loss has <br> been made and <br> correctly <br> calculates the <br> percentage |  |  |

PART THREE: DEPRECIATION (7 marks)

| Product <br> research | No product | Product with no <br> evidence <br> Product is out of <br> price range | Product with <br> evidence and <br> justification. <br> Product is within <br> price range |  |  |
| :---: | :--- | :--- | :--- | :--- | :--- |
| Summary of <br> information | No information | The rate and time <br> given is clearly <br> written |  |  |  |
| Depreciation | No calculations | Calculations <br> attempted with <br> errors | Correct <br> calculations made |  |  |
| Value | No calculations | Only uses the <br> salvage value | Correctly <br> calculates the <br> remaining value |  |  |
