Stage 2

MONDAY

Monday – 30th August 2021

Morning

- Spelling
 - Unjumble the letters to create words with a common sound.
 - On the brain storming page, write as many words as you can think of that contain the grapheme **u** as in 'umbrella' and **o** as in 'onkey'. This page has been divided into beginning, middle and end columns for where in the word you hear the sound.
 - Copy list words into Monday's column.
- Reading
 - Complete the Reading Strategy Task questions for today. Be careful to read the questions because one of the questions will need you to answer **BEFORE YOU READ** the reading passage *The Moon of Planet Earth*.
- Writing
 - Using the '*Five Senses Graphic Organiser*' that we introduced in Week 6, describe what you can *see, hear, smell, touch* and *taste* in the pictures provided. You will need to re-read the notes on describing a *setting* in a Narrative Text. After reading through the notes, use the picture prompts and the '*Five Senses Graphic Organiser*' to describe the three settings provided.
- Read Theory/Reading Eggs

Middle

- Fitness
 - Spend 30minutes outside playing any sort of game, sport or even just relaxing in the sun.
- Maths
 - Numeracy Ninja Skill Check worksheet
 - Colouring 100s Chart – Mystery Picture 1 and 2
 - Place Value Expanded Form and Standard Form 100s Activity
 - Place Value Expanded Form and Standard Form 1000s Activity
- Prodigy

Afternoon

- Unit of Inquiry
 - Using Materials for a Purpose

Unjumble the letters to make words with a common SOUND.

1. k j u n _____
2. y e n o m _____
3. o o u r l c _____
4. c h u l n _____

Word Brainstorm – ‘u’ as in Umbrella and ‘o’ as in mOnkey

| <u>Beginning</u> | <u>Middle</u> | <u>End</u> |
|------------------|---------------|------------|
| | | |

Pua is Moana's lovable pet pig. He would do anything for Moana!

THE MOON

of Planet Earth

Our Magical Moon

If you gaze up into the sky on a clear night, you will see an illuminated object around 384 400 kilometres away from you! This is the moon of our planet, Earth. If you had to drive there, it would take 153 days of non-stop driving at a speed of 100 kilometres per hour! So what is our moon made from? How did it get there? And why does its appearance seem to change from night to night?

What Is the Moon?

The moon is a satellite of planet Earth. A satellite is an object that orbits (moves around) a planet. The moon's path around Earth is a slightly squashed circle shape called an 'ellipse'.

What Size Is the Moon?

Like Earth, the moon is a sphere. However, the moon is a much smaller sphere than Earth. In fact, the moon is about four times smaller than Earth.

Moons are always smaller than the planet they orbit. The surface area of the moon is about 38 million square kilometres. This is less than the surface area of the continent of Asia on Earth!

What Is the Moon Made From?

The moon is made from rock. It has mountains, craters, and flat planes called 'seas' made of hardened lava on its surface. Scientists believe that the moon was probably created around 4.5 billion years ago when a large object hit Earth. The impact blasted rocks out into space, which eventually came together to orbit around Earth. They melted together, cooled down and became the moon.

How Does the Moon Move?

Like Earth, the moon moves in two distinct ways. Firstly, the moon spins on its axis. This is called a 'rotation'. While the moon is rotating, it is also orbiting (moving around) Earth. This is

called a 'revolution'. It takes about the same amount of time (27.3 days) for the moon to rotate as it does for it to complete its orbit around Earth. This means we only ever see about 60% of the moon's surface from Earth! The part of the moon that faces Earth is known as the 'near side'. The part that we never see is known as the 'far side'.

Why Does the Appearance of the Moon Keep Changing?

Have you noticed how the moon appears to change shape each night? Although the moon shines brightly in the night sky, it doesn't produce its own light. We see the moon because it reflects light from the sun. As the moon orbits Earth, the sun lights up different parts of its surface. These different views are known as the 'phases of the moon'. Around once per month (every 29.53 days to be exact) the phases of the moon make a complete cycle.

One Giant Leap for Mankind

For centuries, humans have been fascinated by the mysterious moon in our night sky. Some of these mysteries were finally answered on 20 July 1969. Three American astronauts, Neil Armstrong, Buzz Aldrin and Michael Collins, landed their lunar module on the surface of the moon. Neil Armstrong was the first human being to walk on the surface of the moon. His historic words, "That's one small step for man, one giant leap for mankind" are still quoted regularly to this day.

The Moon of Planet Earth

Reading Strategy Tasks

Before Reading - Predicting

1. Use the title, the layout and the images to identify the authors purpose for writing this text.

a. _____

During Reading – Monitoring and Clarifying

2. As you are reading, write down any words that you don't know the meaning to. Use a dictionary to find the meaning for 3 of these words.

a. _____

After Reading – Making Connections

3. Write two quiz questions based on the facts mentioned in the article. Provide 4 different answers for the quiz question and circle the correct answer.

a. _____

Setting

The setting locates a narrative within a time and a place. Some narratives take place within a single setting, whereas other narratives take place across a number of settings.

The setting can shape the plot of a narrative. For example, a narrative set in a castle is likely to be very different to a narrative set in the desert.

Describing the Setting

Settings must be created for the reader using descriptive language. Creating a particular mood is also important when describing setting.

One of the most effective ways to describe the setting of a narrative is to use descriptive language which appeals to the five senses (sight, sound, smell, touch, taste).

Descriptive language includes:

- adjectives and adjectival phrases (to describe nouns)
- adverbs and adverbial phrases (to describe verbs).

Describing a Setting - Example

Close your eyes. Try and visualise the setting being described.

The cracked and bare earth sat despairingly beneath the hot and blazing sun. A dusty odour completely flooded the air. The gentle pattering of rain had not been heard in this silent landscape for many years now. A collection of rocks sat lifelessly on the hot desert floor. Above them, white wispy clouds scribbled patterns across the sky.

Now open your eyes.

8

How does this image compare with what you visualised?
What mood was created by the description?

9

Describing a Setting - Example

Here are some phrases from the text which appeal to the five senses.

| I can see...  | I can hear...  | I can smell...  | I can feel...  |
|---|---|---|---|
| <ul style="list-style-type: none"> the cracked and bare earth a collection of rocks white wispy clouds | <ul style="list-style-type: none"> the gentle pattering of rain this silent landscape | <ul style="list-style-type: none"> a dusty odour | <ul style="list-style-type: none"> the hot and blazing sun the hot desert floor |

10

Describing a Setting - Activity

You are now going to write a description of the narrative setting on the following pages.

Use the [Five Senses Graphic Organiser](#) to brainstorm what you might see, hear, smell, touch and taste in this setting.

Use all of your ideas to write a paragraph describing the setting. Aim for at least five sentences.

Remember to create a particular mood.

WEEK 3 SESSION 1 - Answer as many questions as you can in 5 mins

MENTAL STRATEGIES -
do these in your head

TIMESTABLES -
do these in your head

KEY SKILLS - you may use written calculations
for these questions

| Q | Question | Answer |
|-----------------|--------------------------------|--------|
| 1 | $\square + 13 = 20$ | |
| 2 | Double 96 | |
| 3 | $79 + 10$ | |
| 4 | $120 - 80$ | |
| 5 | $8 = 7 + \square$ | |
| 6 | $13 - 10 = 13 - 3 - \square$ | |
| 7 | $85 + 85 = 85 \times \square$ | |
| 8 | What is the time on the clock? | am |
| 9 | $8 + 2$ | |
| 10 | $81 + \square = 100$ | |
| Total out of 10 | | |

| Q | Question | Answer |
|-----------------|-------------------------|--------|
| 1 | $6 \times 6 = \square$ | |
| 2 | $3 \div 3 = \square$ | |
| 3 | $4 \times \square = 32$ | |
| 4 | $4 \div \square = 4$ | |
| 5 | $5 \times 4 = \square$ | |
| 6 | $45 \div 9 = \square$ | |
| 7 | $\square \times 7 = 28$ | |
| 8 | $\square \div 6 = 9$ | |
| 9 | $4 \times 5 = \square$ | |
| 10 | $48 \div 8 = \square$ | |
| Total out of 10 | | |

| Q | Question | Answer |
|-----------------|---|--------|
| 1 | $2757 + 5432$ | |
| 2 | $4^2 + 2 \times 4$ | |
| 3 | Write Four Thousand, Three Hundred and Twenty in digits | |
| 4 | $5.94 \div 10$ | |
| 5 | $1 \times (-8)$ | |
| 6 | Round 0.7475 to 1 d.p. | |
| 7 | $1 + (-9)$ | |
| 8 | Round 0.4559 to 2 s.f. | |
| 9 | Letter at (-2, -2) <div style="text-align: center;"> $\begin{matrix} & & y & & \\ & & \uparrow & & \\ A & B & C & D & E \\ F & G & H & I & J \\ K & L & M & N & P > x \\ Q & R & S & T & U \\ V & W & X & Y & Z \end{matrix}$ </div> | |
| 10 | $10/1 = \square/4$ | |
| Total out of 10 | | |

Unit of Inquiry – Using Materials for a Purpose

Our senses also help us describe materials.

The words we use to describe the materials are called their properties.

I feel hard and smooth.

I am transparent (see-through) and waterproof.

These words are all properties of materials.

| | | | | | |
|--------|--------|-----------|------------|-------------|--|
| | light | absorbent | rigid | transparent | |
| opaque | strong | weak | soft | hard | |
| | smooth | rough | flexible | heavy | |
| | | shiny | waterproof | dull | |

Choose one word from the list that is *UNFAMILIAR* to you.

The word I chose is: _____

Look up the word in a dictionary or on www.dictionary.com. Then complete the Colour, Symbol, Image visible thinking routine for your word.

| | | |
|---|---|--|
| What colour best represents your word? | What symbol best represents your word? | What image best represents your word? |
| Why did you choose this colour ? | Why did you choose this symbol ? | Why did you choose this image ? |

Look back at the list of properties in the Word Wall on the previous page.

Create pairs of words that are antonyms (opposites) to each other. There first one has been done for you to give you an example.

| | | | |

FAMILY HERO WORK

Manilla Central School

Stage 2

TUESDAY

Tuesday – 31st August 2021

Morning

- Spelling
 - Copy list words into Tuesday's column.
 - Sound out each of this weeks list words and re-write the word using a different colour for each sound. Example: *come* would be written as come. Next to each word, record how many sounds each word has.
 - Write this weeks list words in alphabetical order in the space provided.
 - Complete the Find-A-Word of this weeks words.
- Reading
 - Complete the Thinking Task questions for today. You will need to re-read the passage *The Moon of Planet Earth* in order to refresh your memory and answer todays questions.
- Grammar
 - Verb tense worksheet – *Cooky's Diary*.
Verbs can tell what happened then (in the past). For example: *Yesterday I **watched** the game.*
Verbs can tell what is happening now (in the present). For example: *Today I **am watching** the game.*
Verbs can tell you what will happen later (in the future). For example: *Tomorrow I **will watch** the game.*
- Writing
 - Using the Y-Chart template, we will be thinking about the different attributes each character can bring. A Y-Chart lets us think about how a character sounds, what they look like and what they feel like. Re-read the notes on Building a Character before using the Y-Chart to write down as many ideas as possible about each of the 3 characters.

Middle

- Fitness
 - Spend 30minutes outside playing any sort of game, sport or even just relaxing in the sun.
- Maths
 - Numeracy Ninja Skill Check worksheet
 - Making and Ordering Five-Digit Numbers
 - Place Value Challenge
- Prodigy

Afternoon

- Fathers day craft activities are in your Week 8 packs

- a. _____

Understanding

2. Create a diagram or a model of the Earth and its moon. Add labels and facts that you found most interesting.

- a. *There is a blank piece of paper for you to create a diagram on at the end of todays questions.*

Applying

3. Research the phases of the moon and make a display that shows how the moon appears to us here on Earth?

- a. *There is a recording sheet that will allow you to show the different phases of the moon at the end of todays questions.*

Evaluating

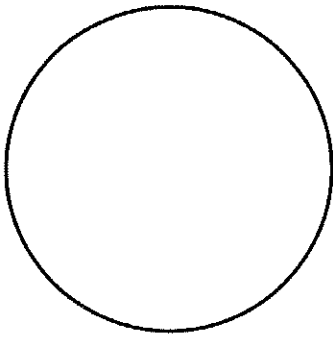

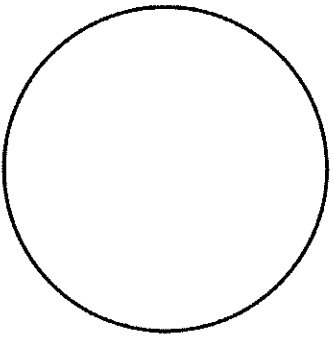

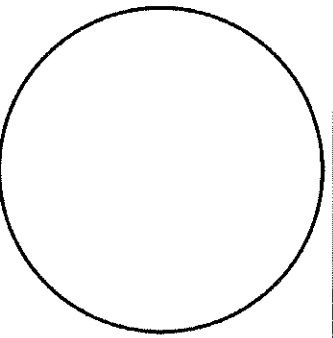

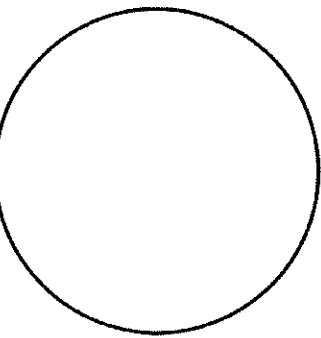

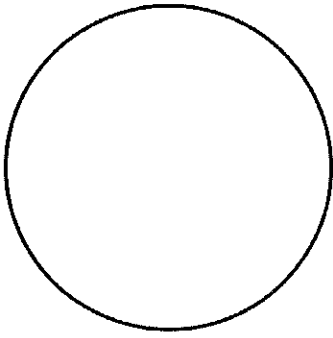

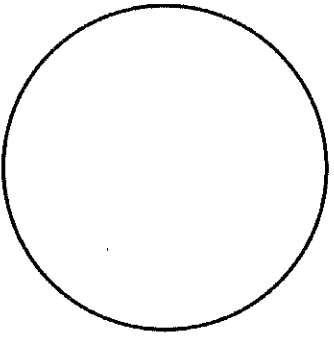

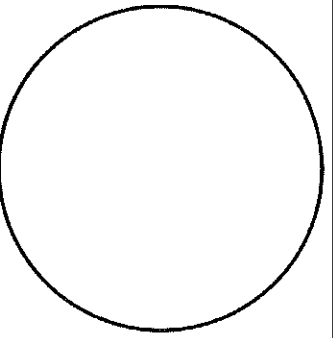

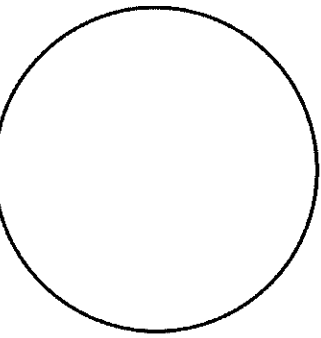

1. Research a moon from another planet. Compare that moon to planet Earth's moon.

a. _____

Creating

1. Design a way for people to get to the moon quickly and efficiently. Think about how long you would like it to take to get there when designing.

Recording Sheet

| | | | |
|---|--|---|--|
| Full Moon | Waxing Gibbous | First Quarter | Waxing Crescent |
|  |  |  |  |
| New Moon | Waning Crescent | Last Quarter | Waning Gibbous |

Cooky's diary

Tuesday

On Tuesday, Cooky prepared for her TV cooking show by writing down what she was going to do.

I will need two eggs, some milk, some butter and two pieces of bread.

I will mix the eggs, milk and butter in a bowl.

I will pour the mixture into my frying pan and I will cook it slowly until the eggs are fluffy.

I will toast the bread.

When my eggs are ready, I will put them on the toast and serve them.

Thursday

On Thursday, Cooky thought that she had better jot down in her diary what she had done on the show the night before. Here is what she wrote.

First I took two eggs, some milk and some butter from the fridge.

Then I broke the eggs into a bowl and added the milk and butter. I mixed them up and then I poured them into my frying pan.

I cooked the mixture slowly.

Wednesday

On Wednesday, it was time for Cooky's show. She explained to the viewers what she was doing as she prepared her meal.

First, I am getting two eggs, some milk and some butter from the fridge. Now, I am cutting two pieces of bread ready for toasting.

I am mixing the eggs, milk and butter in a bowl.

I am pouring the mixture into my frying pan and I am cooking it slowly until the eggs are fluffy.

Now that my pieces of bread are toasted I am putting the eggs on them.

Yummm! They taste great.

When my bread was toasted I served up the eggs and ate the lot. My scrambled eggs were delicious.

Verbs can tell what happened then (in the **past**). For example: Yesterday I **watched** the game.
Verbs can tell what is happening now (in the **present**). For example: I **am watching** the game.
Verbs can tell what will happen later (in the **future**). For example: Tomorrow I **will watch** the game.

1 Read 'Cooky's diary', then write whether the following sentences tell what has happened (**past**), what is happening (**present**) or what will happen (**future**).

- a I am getting my eggs out of the fridge. _____
- b I cooked the mixture slowly. _____
- c I took some milk from the fridge. _____
- d Now I am mixing the eggs, milk and butter. _____
- e When I have mixed the eggs, milk and butter I will pour them into a frying pan.

- f I will need eggs, milk and butter. _____

2 a Write a sentence about something you did yesterday. Underline the **verb(s)**.

Yesterday, I _____.

b Write a sentence about something that you are doing now. Underline the **verb(s)**.

I am _____.

c Write a sentence about something you will do tomorrow. Underline the **verb(s)**.

Tomorrow, _____.

3 Choose from these **verbs/verb groups** to write three sentences – one sentence about the **past**, one sentence about the **present** and one about the **future**.

Past

played
have written
visited

Present

are playing
am writing
is visiting

Future

will play
will write
will visit

TAKE THE CHALLENGE

Make a prediction! On a piece of paper, write three sentences to say what you may be doing in a week's time, on this day next year and when you are an adult.

But when Moana and Heihei are out on the ocean,
they get caught in a terrible storm.

Characterisation

The main characters are the focus of a narrative. They can be people, animals, imaginary beings or magical objects.

It is important to make characters seem 'real' by describing their appearance, personality and emotions.

The process of describing the characters of a narrative is called 'characterisation'.

WEEK 3 SESSION 2 - Answer as many questions as you can in 5 mins

MENTAL STRATEGIES -
do these in your head

| Q | Question | Answer |
|-----------------|------------------------------------|--------|
| 1 | $20 + \square = 20$ | |
| 2 | Double 53 | |
| 3 | $51 + 10$ | |
| 4 | $100 - 10$ | |
| 5 | $8 = 4 + \square$ | |
| 6 | $70 - 11 = 70 - 10 - \square$ | |
| 7 | $7 + 7 + 7 + 7 = \square \times 7$ | |
| 8 | What is the time on the clock? | pm |
| 9 | $1 + \square = 10$ | |
| 10 | $66 + 34$ | |
| Total out of 10 | | |

TIMESTABLES -
do these in your head

| Q | Question | Answer |
|-----------------|-------------------------|--------|
| 1 | $2 \times 3 = \square$ | |
| 2 | $7 \div 1 = \square$ | |
| 3 | $8 \times \square = 80$ | |
| 4 | $16 \div \square = 4$ | |
| 5 | $9 \times 5 = \square$ | |
| 6 | $35 \div 7 = \square$ | |
| 7 | $\square \times 9 = 81$ | |
| 8 | $\square \div 10 = 2$ | |
| 9 | $8 \times 2 = \square$ | |
| 10 | $63 \div 9 = \square$ | |
| Total out of 10 | | |

KEY SKILLS - you may use written calculations for these questions

| Q | Question | Answer |
|-----------------|---|--------|
| 1 | $271 + 8501$ | |
| 2 | $(8 - 2)^2 + 3 \times 4$ | |
| 3 | Write 4335000 in words. (Use the opposite page for your answer) | |
| 4 | $0.8 \div 100$ | |
| 5 | $(-1) \times (-9)$ | |
| 6 | Round 61.9361 to 3 d.p. | |
| 7 | $(-7) + (-4)$ | |
| 8 | Round 3096 to 1 s.f. | |
| 9 | Letter at (-1, 1) <div style="display: flex; align-items: center; justify-content: center;"> <div style="display: flex; flex-direction: column; align-items: center;"> y ABCDE FGHIJ KLMNPx QRSTU VWXYZ </div> <div style="margin: 0 10px;"> $\begin{matrix} & & & & \\ & & & & \\ & & & & \\ & & & & \\ & & & & \end{matrix}$ </div> </div> | |
| 10 | $7/5 = 35/\square$ | |
| Total out of 10 | | |

Manilla Central School

Stage 2

WEDNESDAY

Wednesday – 1st September 2021

Morning

- Spelling
 - Copy list words into Wednesday's column.
 - For *10* of your list words, write a sentence that contains *ONE* list word. You will end up with 10 sentences.
 - If you have access to a dictionary or a computer in order to access www.dictionary.com, write the dictionary meanings for *FIVE* of this weeks list words.
- Handwriting
 - Follow the instructions on the page carefully to complete your handwriting activities. *TAKE YOUR TIME*.
- Reading/Writing
 - Re-read the text *The Moon of Planet Earth* and complete the writing task.
- Read Theory/Reading Eggs

Middle

- Fitness
 - Spend 30minutes outside playing any sort of game, sport or even just relaxing in the sun.
- Maths
 - Numeracy Ninja Skill Check worksheet
 - Place Value Worksheet 1
 - Place Value Worksheet 2
 - Place Value Worksheet 3
- Prodigy

Afternoon

- Unit of Inquiry
 - Who Am I?
 - Taboo

Dictionary Meanings

1. List Word: _____

a. Meaning: _____

2. List Word: _____

a. Meaning: _____

3. List Word: _____

a. Meaning: _____

4. List Word: _____

a. Meaning: _____

5. List Word: _____

a. Meaning: _____

Look carefully at the passage below, then:

- ★ circle any letters that are not the right size
- ★ put a cross under words where the letters are not evenly spaced
- ★ underline pairs of words that are not evenly spaced.

Rewrite it correctly.

When Australia contained penal colonies, convicts were sent to Australia by ship. The trip took many months and conditions were very bad. After World War Two, many people migrated to Australia. They came by ship, too. Today, people mostly arrive in Australia by air.

Teacher

Copy.

Squid, cuttlefish, octopuses and nautilus
all belong to the group of animals called
“cephalopods”. Except for the nautilus, all
cephalopods have either an internal shell
or one that is missing altogether. They
are found in shallow reefs, the deep sea
and all depths in between. All cephalopods,
except the nautilus, have eight arms with
suckers or hooks.

The Moon of Planet Earth

Writing Task

Research the moon of a different planet.

Write an information report that covers the following facts:

- Name of the moon
- Size of the moon
- Distance from its planet
- How long does it take the moon to complete one rotation?
- How long does it take to complete one revolution?

[illegible]

WEEK 3 SESSION 3 - Answer as many questions as you can in 5 mins

MENTAL STRATEGIES -
do these in your head

TIMESTABLES -
do these in your head

KEY SKILLS - you may use written calculations
for these questions

| Q | Question | Answer |
|-----------------|--|--------|
| 1 | $\square + 5 = 20$ | |
| 2 | What is double 39? | |
| 3 | $65 + 10$ | |
| 4 | $179 - 10$ | |
| 5 | $6 = 2 + \square$ | |
| 6 | $12 - 6 = 12 - 2 - \square$ | |
| 7 | $86 = \square \times 86$ | |
| 8 | Draw hands on the clock face showing 4:45 pm | |
| 9 | $\square + 8 = 10$ | |
| 10 | $57 + 43$ | |
| Total out of 10 | | |

| Q | Question | Answer |
|-----------------|-------------------------|--------|
| 1 | $2 \times 6 = \square$ | |
| 2 | $24 \div 8 = \square$ | |
| 3 | $9 \times \square = 81$ | |
| 4 | $18 \div \square = 6$ | |
| 5 | $4 \times 6 = \square$ | |
| 6 | $6 \div 1 = \square$ | |
| 7 | $\square \times 4 = 28$ | |
| 8 | $\square \div 6 = 2$ | |
| 9 | $8 \times 2 = \square$ | |
| 10 | $5 \div 1 = \square$ | |
| Total out of 10 | | |

| Q | Question | Answer |
|-----------------|---|--------|
| 1 | $32 + 211$ | |
| 2 | $3^2 + 2 \times 2$ | |
| 3 | Write 6481504 in words. (Use the opposite page for your answer) | |
| 4 | $9.47 \div 10$ | |
| 5 | $(-8) \times (-8)$ | |
| 6 | Round 48.2994 to 3 d.p. | |
| 7 | $(-6) + (-10)$ | |
| 8 | Round 34 to 3 s.f. | |
| 9 | Letter at $(-1, 1)$ <div style="text-align: center;"> $\begin{matrix} & y & \\ A & B & C & D & E \\ F & G & H & I & J \\ K & L & M & N & P & Q \\ O & R & S & T & U \\ V & W & X & Y & Z \end{matrix}$ </div> | |

FROZONE

Materials needed

ACTIVITY QUESTION 7

Hands on group activity:
Who am I?

Each group will need:

- a ball of clay
- an eraser
- a plastic bottle
- a stone
- a metal coin
- a cotton cloth
- a cup of water
- a plastic pipette

Hands on group activity: Who Am I?

Step 1: Collect the materials listed on page 2.

Step 2: Read the 'Who am I?' property clues. Use your sense of sight and touch to work out which material each one is describing. You may need to use the water and pipette to test whether each material is waterproof or absorbent.

Clue: I am flexible, soft
and brown.

I am: _____

Clue: I am light, soft, flexible
and absorbent.

I am: _____

Clue: I am waterproof. I can be transparent
or opaque. I can be rigid or flexible.

I am: _____

From the remaining materials, choose two and write a Who am I? property clue for each one. Try to include at least two properties in your clue. Swap your property clues with a partner and answer each others' clues.

Clue:

I am: _____

Clue:

I am: _____

10

Taboo is a word guessing game. A player must describe a word to their team without saying the word itself, or other closely associated words. Write what description you would give your team if you were given these cards.

The word you must describe is:

glass

You are not allowed
to use these words
in your description:

- window
- transparent
- see-through

The word you must describe is:

wood

You are not allowed
to use these words
in your description:

- brown
- trees
- paper
- furniture

Manilla Central School

Stage 2

THURSDAY

Thursday – 2nd September 2021

Morning

- Spelling
 - Copy list words into Thursday's column.
 - Complete the activities on this weeks spelling sheet. Be sure to read the instructions for each task carefully. If you are unsure of a task, have a go at completing to your best effort.
- Reading
 - Complete the Comprehension Task questions for today. You will need to re-read the passage *The Moon of Planet Earth* in order to refresh your memory and answer today's questions.
- Grammar
 - Modal verbs worksheet – *I must remember!*. Some verbs are helping verbs. They are always used with another verb. Sometimes they tell how sure we are about doing something. They are called *modal verbs*.
Will, can, shall, must are modal verbs we use when we are sure: *I **must** go.*
Might, could, should, may are modal verbs we use when we are not sure: *I **might** go.*
- Writing
 - Today you will plan 2 pieces of writing. There are 2 pictures that each have some questions for you to think about. For each of the pictures, think about the questions that have been asked and use your answer for one of these questions to plan a Narrative text for each picture. Think about the characters and the setting using the senses we have worked on this week.

Middle

- @12:00 – Use the instructions to login to Zoom. We are going to have a catch up and check in with each other as to how we are all coping with lockdown. Use the instructions to login and let's have a chat.
- Maths
 - Numeracy Ninja Skill Check worksheet
 - CrossNumber Place Value to 1,000,000
 - Place Value worksheets
- Prodigy

Afternoon

- Finish off your Fathers Day craft from Tuesday.

 untrue _____
 Monday _____

1 Circle the letters that represent u o in the List Words.

2 Write any other letters that can represent u o on the Grapheme Chart.
 Write one word example for each.

3 Write one stroke for every sound in each List Word with a line beside it, for example *sunk* / / / / ; *honey* / / / / .

4 Write words that rhyme.

must

lump

junk

lunch

5 Colour the letter o if it represents u o in these words.

won home frog front flower colour only forget

6 Complete the List Words in each sentence. Write the words you have made on the lines.

What is the last _ o _ _ _ of the year? _____

He held the umbrella _ _ o _ _ me. _____

My son found the _ o _ _ _ . _____

Are you _ o _ _ _ _ to the country with us? _____

He won every race on _ o _ _ _ _ . _____

Come here and stand in _ _ o _ _ of me. _____

7 Complete the List Words in each sentence. Write the words you have made on the lines.

★ Sometimes the letters ou represent u o.

If you _ ou _ _ _ four you get eight. _____

I have had _ _ ou _ _ for lunch. _____

The opposite of old is _ ou _ _ . _____

Australia is a _ ou _ _ _ _ . _____

ELASTIGIRL TO THE RESCUE

THE MOON

of Planet Earth

Our Magical Moon

If you gaze up into the sky on a clear night, you will see an illuminated object around 384 400 kilometres away from you! This is the moon of our planet, Earth. If you had to drive there, it would take 153 days of non-stop driving at a speed of 100 kilometres per hour! So what is our moon made from? How did it get there? And why does its appearance seem to change from night to night?

What Is the Moon?

The moon is a satellite of planet Earth. A satellite is an object that orbits (moves around) a planet. The moon's path around Earth is a slightly squashed circle shape called an 'ellipse'.

What Size Is the Moon?

Like Earth, the moon is a sphere. However, the moon is a much smaller sphere than Earth. In fact, the moon is about four times smaller than Earth.

Moons are always smaller than the planet they orbit. The surface area of the moon is about 38 million square kilometres. This is less than the surface area of the continent of Asia on Earth!

What Is the Moon Made From?

The moon is made from rock. It has mountains, craters, and flat planes called 'seas' made of hardened lava on its surface. Scientists believe that the moon was probably created around 4.5 billion years ago when a large object hit Earth. The impact blasted rocks out into space, which eventually came together to orbit around Earth. They melted together, cooled down and became the moon.

How Does the Moon Move?

Like Earth, the moon moves in two distinct ways. Firstly, the moon spins on its axis. This is called a 'rotation'. While the moon is rotating, it is also orbiting (moving around) Earth. This is

called a 'revolution'. It takes about the same amount of time (27.3 days) for the moon to rotate as it does for it to complete its orbit around Earth. This means we only ever see about 60% of the moon's surface from Earth! The part of the moon that faces Earth is known as the 'near side'. The part that we never see is known as the 'far side'.

Why Does the Appearance of the Moon Keep Changing?

Have you noticed how the moon appears to change shape each night? Although the moon shines brightly in the night sky, it doesn't produce its own light. We see the moon because it reflects light from the sun. As the moon orbits Earth, the sun lights up different parts of its surface. These different views are known as the 'phases of the moon'. Around once per month (every 29.53 days to be exact) the phases of the moon make a complete cycle.

One Giant Leap for Mankind

For centuries, humans have been fascinated by the mysterious moon in our night sky. Some of these mysteries were finally answered on 20 July 1969. Three American astronauts, Neil Armstrong, Buzz Aldrin and Michael Collins, landed their lunar module on the surface of the moon. Neil Armstrong was the first human being to walk on the surface of the moon. His historic words, "That's one small step for man, one giant leap for mankind" are still quoted regularly to this day.

The Moon of Planet Earth

Comprehension Tasks

Literal Comprehension

1. What is the surface area of the moon?

- a. _____

2. How long ago do scientists believe that the moon was created?

- a. _____

3. What were Neil Armstrong's historic words when he stepped on the moon?

- a. _____

Inferential Comprehension

4. Looking at the image of the moon in the text, what are the circular shapes that cover the moon's surface?

- a. _____

5. What do you think the 'far side' of the moon looks like?

a.

Evaluative Comprehension

6. Why do you think people wanted to visit the moon?

a.

I must remember!

There's something
I should remember.

I know there's something
I must remember.

What was that thing I
shouldn't forget?

Now I remember! I
shouldn't forget to plug
the hole in my boat!

Some verbs are helping verbs. They are always used with another verb. Sometimes they tell how sure we are about doing something. They are called **modal verbs**.

will, can, shall, must are modal verbs we use when we are sure: *I **must** go.*
might, could, should, may are modal verbs we use when we are not sure: *I **might** go.*

1 Read the comic strip on page 34. Write the missing **modal verbs** used as helping verbs in each sentence.

- a** “There’s something I _____ remember,” said Taddy Og.
- b** “I know there’s something I _____ remember,” said Taddy Og.
- c** “What was that thing I _____ forget?” wondered Taddy Og.
- d** “I _____ forget to plug the hole in my boat!” sighed Taddy Og.

2 Rewrite each of these sentences, changing the **modal verb** underlined so the writer sounds really sure about doing something.

- a** I might go to the movies.

- b** My friend Jack may come with us.

- c** We could take more care when crossing busy roads.

TAKE THE CHALLENGE

Choose **modal verbs** from the box and write them in the gaps to help show how sure the writer is about each of the verbs underlined.

- a** I _____ watch a movie tonight.
- b** Tess _____ catch with both hands.
- c** We _____ hurry or we _____
miss the bus.
- d** You _____ brush your teeth after every meal.

should
will
might
can

The Kakamora then decide to steal Heihei!

Disney · PIXAR

Cars

Ducks in Space

Discuss as a class:

- Where is the robotic duck taking the plate of food?
- What will happen if the cleaning duck sweeps up the spider?
- How is the captain of the ship feeling?
- Why is the duck on the right-hand side of the picture saluting?
- What do you think the surrounding ships in space are doing?
- What is the destination of the spaceship?
- What do the controls under the captain's fist do?
- What is the control station in front of the captain used for?

Narrative Writing Task

Using one or more of your answers from the previous slide, plan, draft, write, edit and publish a narrative piece of writing based on The Animal Games. Use the [Narrative Writing Checklist](#):

I have included the...

- o title

Stage 2

FRIDAY

Friday – 3rd September 2021

Morning

- Spelling
 - Copy list words into Friday's column.
 - Finish off any of this weeks spelling activities that you have not yet completed.
- Library
 - Spend 30minutes completing activities from the Learning-From-Home Library Student Pack for Week 8. These booklets are in your Week 8 packs.
- Handwriting
 - Follow the instructions on the page carefully to complete your handwriting activities. *TAKE YOUR TIME.*
- **FINISH OFF ANY WORK THAT HAS NOT BEEN COMPLETED THIS WEEK. GO BACK THROUGH YOUR BOOKLET TO MONDAY AND MAKE SURE THAT ALL WORK IS COMPLETE. CHECK TUESDAY, WEDNESDAY AND THURSDAY AS WELL.**
- Read Theory/Reading Eggs

Middle

- Fitness
- Mindfulness
- Maths
 - Numeracy Ninja Skill Check worksheet
 - Place Value worksheets
- Prodigy

Afternoon

- Sport

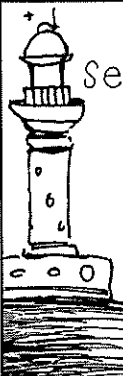

Copy.

As well as having eight arms, squid and cuttlefish have an additional set of feeding tentacles. Cephalopods can propel themselves through the water at great speeds, by jetting water out of their siphons. These animals don't look very different to the untrained eye, and are sometimes misidentified by swimmers, snorkellers and recreational divers.

Can you write the number in words? _____

5. The number has 3 digits.

It is smaller than 800 but bigger than 700.

The tens digit is the same as $10 + 2 - 6$.

The ones digit is the same as $10 - 2 - 4$.

What is the number?

| | | |
|--|--|--|
| | | |
|--|--|--|

Can you write the number in words? _____

6. The number has 3 digits.

The tens digit is 10 less than 15.

The hundreds digit is the same as $2 \times 2 \times 2$.

The ones digit is half of 2.

What is the number?

| | | |
|--|--|--|
| | | |
|--|--|--|

Can you write the number in words? _____

7. The number has 3 digits.

The tens digit is the same as $45 - 44$

The ones digit is 1 less than the tens digit.

The hundreds digit is the same as number of wheels on a car.

What is the number?

| | | |
|--|--|--|
| | | |
|--|--|--|

Can you write the number in words? _____

8. On the back of this sheet, can you write your own riddle for a partner to solve?

Place Value

I can solve problems involving place value.

1. Solve the riddle:

The number has 3 digits.

The hundreds digit is 178 less than 185.

The ones digit is same as $2 \times 2 \times 2$.

The tens digit is the same as half of 10.

What is the number?

| | | |
|--|--|--|
| | | |
|--|--|--|

2. Create numbers where the digit sum is 7. Write how many hundreds, tens and ones each number has, e.g. 214: 2 hundreds, 1 ten and 4 ones.

| |
|--|
| |
|--|

3. Create 3-digit numbers where the tens digit is 1 less than the hundreds digit. What is the largest and smallest numbers you can make that follow this rule?

| |
|--|
| |
|--|
